Financial Accounting Robert Libby, Patricia A. Libby, Daniel G. Short, 2003 Libby Libby Short wrote this text based on their

belief that the subject of financial accounting is inherently interesting but financial accounting textbooks are often not They

believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is

important to future careers in business When writing this text they considered career relevance as their guide when selecting

material and the need to engage the student as their guide to style pedagogy and design Libby Libby Short is the only

financial accounting text to successfully implement a real world single focus company approach in every chapter Students

and instructors have responded very favorably to the use of focus companies and the real world financial statements The

companies chosen are engaging and the decision making focus shows the relevance of financial accounting regardless of

whether or not the student has chosen to major in accounting *ACCA Paper F2 - Management Accounting Study Text* BPP
