## **Studying Native America Problems And Prospects:**

*Studying Native America* Russell Thornton, 1998 This book addresses for the first time in a comprehensive way the place of Native American studies in the university curriculum Provided by publisher **Studying native America** Russell Thornton, Social Science Research Council (U.S.), Social Science Research Council (U.S.). American Indian Studies Advisory Panel, 1999-01-01 Includes index *The State, Removal and Indigenous Peoples in the United States and Mexico, 1620-2000* Claudia Haake, 2007-11-21 This book investigates the forced migration of the Delawares in the United States and the Yaquis in Mexico focusing primarily on the impact removal from tribal lands had on the ethnic identity of these two indigenous societies It analyzes Native responses to colonial and state policies to determine the practical options that each group had in dealing with the states in which they lived Haake convincingly argues that both nation states aimed at the destruction of the Native American societies within their borders This exemplary comparative transnational study clearly demonstrates that the legacy of these attitudes and policies are readily apparent in both countries today This book should appeal to a wide variety of academic disciplines in which diversity and minority political representation assume significance **Native American Voices** Susan Lobo, Steve Talbot, Traci Morris Carlston, 2016-02-19 This unique reader presents a broad approach to the study of American Indians through the voices and viewpoints of the Native Peoples themselves Multi disciplinary and hemispheric in approach it draws on ethnography biography journalism art and poetry to familiarize students with the historical and present day experiences of native peoples and nations throughout North and South America all with a focus on themes and issues that are crucial within Indian Country today For courses in Introduction to American Indians in departments of Native American Studies American Indian Studies Anthropology American Studies Sociology History Women's Studies **Social Life and Issues** Roe Bubar, Irene S. Vernon, 2009 Study the social issues faced by Native Americans within the context of the genesis of the problems and what efforts have been made to address them Some of the subjects covered include health HIV AIDS and violence against women *A Companion to American Indian History* Philip J. Deloria, Neal Salisbury, 2008-04-15 *A Companion to American Indian History* captures the thematic breadth of Native American history over the last forty years Twenty five original essays by leading scholars in the field both American Indian and non American Indian bring an exciting modern perspective to Native American histories that were at one time related exclusively by Euro American settlers Contains 25 original essays by leading experts in Native American history Covers the breadth of American Indian history including contacts with settlers religion family economy law education gender issues and culture Surveys and evaluates the best scholarship on every important era and topic Summarizes current debates and anticipates future concerns *The Solidarity of Kin* Kenneth M. Morrison, 2012-02-01 Arguing that Native Americans religious life and history have been misinterpreted author Kenneth M Morrison reconstructs the Eastern Algonkians world views and demonstrates the indigenous modes of rationality that shaped not only their encounter with the French but also

their self directed process of religious change In reassessing controversial anthropological historical and ethnohistorical scholarship Morrison develops interpretive strategies that are more responsive to the religious world views of the Eastern Algonkian peoples He concludes that the Eastern Algonkians did not convert to Catholicism but rather applied traditional knowledge and values to achieve a pragmatic and critical sense of Christianity and to preserve and extend kinship solidarity into the future The result was a remarkable intersection of Eastern Algonkian and missionary cosmologies Native Studies Keywords Stephanie Nohelani Teves,Andrea Smith,Michelle Raheja,2015-05-21 Native Studies Keywords explores selected concepts in Native studies and the words commonly used to describe them words whose meanings have been insufficiently examined This edited volume focuses on the following eight concepts sovereignty land indigeneity nation blood tradition colonialism and indigenous knowledge Each section includes three or four essays and provides definitions meanings and significance to the concept lending a historical social and political context Take sovereignty for example The word has served as the battle cry for social justice in Indian Country But what is the meaning of sovereignty Native peoples with diverse political beliefs all might say they support sovereignty without understanding fully the meaning and implications packed in the word The field of Native studies is filled with many such words whose meanings are presumed rather than articulated or debated Consequently the foundational terms within Native studies always have multiple and conflicting meanings These terms carry the colonial baggage that has accrued from centuries of contested words Native Studies Keywords is a genealogical project that looks at the history of words that claim to have no history It is the first book to examine the foundational concepts of Native American studies offering multiple perspectives and opening a critical new conversation

*Decolonizing Museums* Amy Lonetree,2012-11-19 Museum exhibitions focusing on Native American history have long been curator controlled However a shift is occurring giving Indigenous people a larger role in determining exhibition content In *Decolonizing Museums* Amy Lonetree examines the complexities of these new relationships with an eye toward exploring how museums can grapple with centuries of unresolved trauma as they tell the stories of Native peoples She investigates how museums can honor an Indigenous worldview and way of knowing challenge stereotypical representations and speak the hard truths of colonization within exhibition spaces to address the persistent legacies of historical unresolved grief in Native communities Lonetree focuses on the representation of Native Americans in exhibitions at the Smithsonian s National Museum of the American Indian the Mille Lacs Indian Museum in Minnesota and the Ziibiwing Center of Anishinabe Culture and Lifeways in Michigan Drawing on her experiences as an Indigenous scholar and museum professional Lonetree analyzes exhibition texts and images records of exhibition development and interviews with staff members She addresses historical and contemporary museum practices and charts possible paths for the future curation and presentation of Native lifeways
