**Love, Heterosexuality and Society** Paul Johnson,2007-04-11 Heterosexuality is a

largely silent set of practices and identities it is assumed to be everywhere and yet often remains unnamed and unexplored. Despite recent changes in the theoretical understanding and representation of sexuality, heterosexuality continues to be socially normative. Forging a new agenda for the study of heterosexuality, this in-depth volume, the first research monograph to focus on heterosexuality and society, presents an empirical study of the construction, negotiation, and enactment of heterosexual sexuality. Using detailed interview data, it investigates how heterosexuality as both an identity and a set of practices is accomplished through love relationships. Rather than assuming that romantic love is an outcome or expression of a pre-defined sexuality, Johnson explores how sexuality is brought to life through love. Situated in the ongoing theoretical debates concerning the relationship between gender and sexuality, Paul Johnson's book shows how ways of loving are interwoven with the construction, practice, regulation, and government of heterosexuality. Excellently written, this important book also looks at gender in society and explores such areas as heterosexual subjectivities and the borders of desire. As such, the research it contains will be valuable for all students of sociology and gender studies.
