## **Suicidal Children And Adolescents:**

*Suicide in Children and Adolescents* Syed Arshad Husain, Trish Vandiver, 1984      **Suicide in Children and Adolescents** Robert A. King, Alan Apter, 2003-08-28 In an epoch when rates of death and illness among the young have steadily decreased in the face of medical progress the persistently high rates of youth suicide and suicide attempts around the world remain a tragic irony and a challenge to both our clinical practice and theoretical understanding How can these deaths be prevented Can they be anticipated Are there perceptible patterns of risk and vulnerability What role do families gender culture and biology play What are the treatments for and outcomes of suicide attempters To address these questions experts from around the world in all areas of psychiatry from epidemiology neurobiology genetics and psychotherapy have brought together their current findings in **Suicide in Children and Adolescents**      **Depression and Suicide in Children and Adolescents** Philip G. Patros, Tonia K. Shamoo, 1989      **Suicide in Children and Adolescents** Michelle A. Patriquin, Katrina A. Rufino, 2021-09-26 This book highlights the current epidemiology of suicide among children and adolescents as well as identifying important risk factors and evidence based treatment options To accomplish this this book is organized into two major sections 1 contributing factors to the emergence of child and adolescent suicide and 2 evidence based treatment of child and adolescent suicide Across studies researchers discuss risk factors of anxiety sleep problems child sexual abuse and violence perpetration and conclude with treatment considerations including the Collaborative Assessment and Management of Suicidality CAMS and safety planning From this body of work it is clear that there is an urgent need to better understand and effectively treat child and adolescent suicide The book will be a great resource for academics researchers and advanced students of Psychology Psychiatry Medicine Sociology Social Work and Youth Studies The chapters in this book were originally published as a special issue of *Children's Health Care*      [Suicidal Behavior in Children and Adolescents](#) Barry M. Wagner, 2009-10-13 In this remarkably clear and readable evaluation of the research on this topic Barry Wagner presents the current state of knowledge about suicidal behaviors in children and adolescents addressing the trends of the past ten years and evaluating available treatment approaches Wagner provides an in depth examination of the problem of suicidal behavior within the context of child and adolescent behavior Among the developmental issues covered are the evolving capacity for emotional self regulation change and stresses in family peer and romantic relationships and developing conceptions of time and death He also provides an up to date review of the controversy surrounding the possible influence of antidepressant medications on suicidal behavior Within the context of an integrative model of the suicide crisis Wagner discusses issues pertaining to assessment treatment and prevention
