

Psychologists of suicide, however, do largely overlook the complex nature of a suicidal ideation. Suicidal ideation is not a single phenomenon, but a complex phenomenon, which is characterized by a variety of factors, such as personality, social, cultural, and psychological. Therefore, understanding suicidal ideation, and hence, preventing suicide, is a complex task, and requires a multi-disciplinary and multi-level approach. This review aims to review

the existing research on suicidal ideation, and to identify the factors that are associated with suicidal ideation. The review is organized into three sections: (1) the definition of suicidal ideation, (2) the factors associated with suicidal ideation, and (3) the prevention of suicidal ideation.

Suicide And Morality:

Ethical Issues in Suicide M. Pabst Battin, 1995 This book provides a broad systematic and comprehensive exploration of both historical and contemporary argumentation concerning suicide It probes the underlying ethical religious and philosophical issues about self caused death and shows how they are crucial in the current debate [Suicide and Morality](#)

The Morals of Suicide James Gurnhill, 1900 [The Ethics of Suicide](#) Victor Cosculluela, 2020-07-20 Originally published in 1995 this volume addresses a topical subject assisted suicide The book discusses the issues surrounding the morality of suicide and in so doing clarifies the literature in applied ethics It critiques the complex moral and religious arguments on the topic offered by philosophers and theologians It establishes a middle position between those who hold that suicide is never morally permissible and those who claim it always is and it determines when second parties ought to aid and when they ought to prevent suicides **The ^AEthics of Suicide** Margaret Pabst Battin, 2015-09-11 This collection of primary sources the principal texts of philosophical interest from western and nonwestern cultures from the major religious traditions and from oral cultures where observer reports of traditional practices are available spanning Europe Asia the Middle East Africa Oceania and North and South America is intended to facilitate exploration of such current practical issues by exhibiting the astonishingly diverse range of thinking about suicide throughout human intellectual history in its full range of cultures and traditions *Handbook of Death and Dying* Clifton D. Bryant, 2003-10 Dying is a social as well as physiological phenomenon Each society characterizes and consequently treats death and dying in its own individual ways that differ markedly These particular patterns of death and dying engender modal cultural responses and such institutionalized behavior has familiar economical educational religious and political implications The Handbook of Death and Dying takes stock of the vast literature in the field of thanatology arranging and synthesizing what has been an unwieldy body of knowledge into a concise yet comprehensive reference work This two volume handbook will provide direction and momentum to the study of death related behavior for many years to come Key Features More than 100 contributors representing authoritative expertise in a diverse array of disciplines Anthropology Family Studies History Law Medicine Mortuary Science Philosophy Psychology Social work Sociology Theology A distinguished editorial board of leading scholars and researchers in the field More than 100 definitive essays covering almost every dimension of death related behavior Comprehensive and inclusive exploring concepts and social patterns within the larger topical concern Journal article length essays that address topics with appropriate detail Multidisciplinary and cross cultural coverage [The Morals of Suicide ...](#) James Gurnhill, 1902 **Creative Morality** Don MacNiven, 1993 Creative Morality is a philosophical examination of moral dilemmas It analyses the ethical systems on which our moral decisions are based and suggests a comprehensive ethical theory for the interpretation of contemporary moral problems **Practical Decision Making in Health Care Ethics**

Raymond J. Devettere, 2009-12-04 For nearly fifteen years *Practical Decision Making in Health Care Ethics* has offered scholars and students a highly accessible and teachable alternative to the dominant principle based theories in the field. Devettere's approach is not based on an ethics of abstract obligations and duties but following Aristotle on how to live a fulfilled and happy life in short an ethics of personal well being grounded in prudence the virtue of ethical decision making. This third edition is revised and updated and includes discussions of several landmark cases including the tragic stories of Terri Schiavo and Jesse Gelsinger the first death caused by genetic research. Devettere addresses new topics such as partial birth abortion law embryonic stem cell research infant euthanasia in The Netherlands recent Vatican statements on feeding tubes organ donation after cardiac death new developments in artificial hearts clinical trials developed by pharmaceutical companies to market new drugs ghostwritten scientific articles published in major medical journals and controversial HIV/AIDS research in Africa. This edition also includes a new chapter on the latest social and political issues in American health care. Devettere's engaging text relies on commonsense moral concepts and avoids academic jargon. It includes a glossary of legal medical and ethical terms an index of cases and thoroughly updated bibliographic essays at the end of each chapter that offer resources for further reading. It is a true classic brilliantly conceived and executed and is now even more valuable to undergraduates and graduate students medical students health care professionals hospital ethics committees and institutional review boards and general readers interested in philosophy medicine and the rapidly changing field of health care ethics.

Developing Moral Imagination Edward Stevens, 1997 The issues may change with the passing of the years but the categories of concern change very little: sexuality and the sexes medical decision making justice for the poor the powerless the underclass reproductive decision making moral decision making in business and personal moral choices. Stevens attempts to present alternative positions on hotly debated new moral issues from a different standpoint using an ethical pluralism approach. In doing this he hopes to help readers arrive at their own non polarized positions by learning from and respecting all parties in the discussion.

On Suicide: Considering the Ethics of the Act and the Morality of Prevention Jennifer Carolyn Markewych, 2021 In Western society the act of suicide has been widely viewed as immoral or the result of mental illness. This view has been institutionalized and the prevention of suicide has become a top priority for mental health professionals and society at large. One vivid illustration of the stigma of suicide is the public's response to the phenomenon of jumpers on 9/11. Careful philosophical analysis which sets aside social and religious concerns as well as irrational fears of death shows that the act of suicide is not in itself morally objectionable and impermissible. After shedding further light on the ethical issues raised by death and the decisions autonomous rational agents can and often do make about it I appeal to the ideas of Immanuel Kant and David Hume and use a number of thought experiments to show that suicide can under certain conditions be morally unobjectionable and permissible. In some cases it may even be morally required. The suicide prevention framework moreover causes serious harms similar to those that result from anti LGBTQI restrictions and abuses. Greater

openness towards and acceptance of suicide is likely to reduce suffering and the harms caused by the overly paternalistic suicide prevention approach Finally I point out that those who wish to prevent suicides have an obligation to address the underlying social and economic conditions that cause the suffering of many suicidal individuals instead of advocating for restrictions on the right of individuals to choose when and in what manner their lives will end

A Liberal Theory of Practical Morality Earl Spurgin, 2021-05-25 Moral issues and questions abound in daily life Media outlets frequently raise awareness of many such as those concerning individuals right to privacy The same venues seldom if ever raise awareness of others such as moral issues and questions concerning our fantasies Regardless of the level of publicity various venues afford particular moral matters most people who become aware of those matters find many interesting and important A problem most encounter however is determining the criteria through which they should approach the moral matters they wish to engage Ethicists have long sought a moral theory that would provide the desired criteria but most will grant readily that those efforts have not produced a generally accepted theory This book presents the author s case that a kind of moral liberalism is the theory we should use to engage daily life s moral matters The author presents a conception of moral liberalism argues that it is the best approach to practical morality in a plural society and applies it to several of morality s practical matters

Moral Theory Mark Timmons, 2022-01-17 Moral Theory An Introduction explores some of the historically most important and currently debated moral theories about the nature of the right and the good including divine command theory relativism natural law theory consequentialism egoism Kant s ethics ethics of prima facie duties contractualism virtue ethics and care ethics Providing an introduction to moral theory that explains and critically examines the theories of such classical philosophers as Aristotle Aquinas Bentham Kant Mill and Ross this book acquaints students with the work of contemporary moral philosophers Each chapter has been revised and updated The third edition includes a new chapter on moral contractualism and an extensively revised chapter on virtue ethics and care ethics Additionally the book discusses recent work by moral psychologists making an impact on moral theory

Absurdity and Morality of Suicide in Namibia Werner Simanekeni Afunde, 2008

Morality, Utilitarianism, and Rights Richard B. Brandt, 1992-06-26 Richard Brandt is one of the most eminent and influential of contemporary moral philosophers His work has been concerned with how to justify what is good or right not by reliance on intuitions or theories about what moral words mean but by the explanation of moral psychology and the description of what it is to value something or to think it immoral His approach thus stands in marked contrast to the influential work of John Rawls The essays reprinted in this collection span a period of almost 30 years and include many classic pieces in metaethical and normative ethical theory The collection is aimed at both those moral philosophers familiar with Brandt s work and at those philosophers who may be largely unfamiliar with his work The latter group will be struck by the lucid unpretentious style and the cumulative weight of Brandt s contributions to topics that remain at the forefront of moral philosophy

The Problematics of Moral and Legal Theory

Richard A. Posner, 2009-06-01 Ambitious legal thinkers have become mesmerized by moral philosophy believing that great figures in the philosophical tradition hold the keys to understanding and improving law and justice and even to resolving the most contentious issues of constitutional law They are wrong contends Richard Posner in this book Posner characterizes the current preoccupation with moral and constitutional theory as the latest form of legal mystification an evasion of the real need of American law which is for a greater understanding of the social economic and political facts out of which great legal controversies arise In pursuit of that understanding Posner advocates a rebuilding of the law on the pragmatic basis of open minded and systematic empirical inquiry and the rejection of cant and nostalgia the true professionalism foreseen by Oliver Wendell Holmes a century ago A bracing book that pulls no punches and leaves no pieties unpunctured or sacred cows unkicked The Problematics of Moral and Legal Theory offers a sweeping tour of the current scene in legal studies and a hopeful prospect for its future
