Suite For Solo Cello Cello

Suite For Solo Cello Cello:

Cello Suite No. 4 - BWV 1010 Johann Sebastian Bach, 2013-12-12 A much more effective approach to Bach's works for the modern guitarist is to transcribe and perform the solo violin and cello music. Both instruments are essentially monophonic yet Bach in one of music history's great feats of compositional resourcefulness created contrapuntal textures through implication in his solo music for these instruments. Given the relatively greater polyphonic capabilities of the guitar, these implications can be made explicit through transcription. In fact, satisfactory transcription can almost be achieved by simple transposition and even the most uninformed reading of such a transcription on the guitar will yield a richer, more fully realized texture than is possible with the original instruments. The process in this case is often one primarily characterized by expansion and clarification: notes are easily added and implied voices clarified in the notation to create textures more in alignment with the polyphonic resources of the guitar.

Scores of fingerings and bowings as well as a color-coded score of the strings used throughout the piece on each cello are included for readers to reference and study.
