Personhood in Early Modern Mexico Osvaldo F. Pardo, 2015-09-24 Osvaldo F Pardo examines the early dissemination of European views on law and justice among Mexico's native peoples Newly arrived from Spain in the sixteenth and seventeenth centuries mendicant friars brought not only their faith in the authority of the Catholic Church but also their reverence of the monarchy Drawing on a rich range of documents dating from this era including secular and ecclesiastical legislation legal and religious treatises bilingual catechisms grammars on indigenous languages historical accounts and official reports and correspondence Pardo finds that honor as well as related notions such as reputation came to play a central role in shaping the lives and social relations of colonists and indigenous Mexicans alike Following the application and adaptation of European ideas of justice and royal and religious power as they took hold in the New World Pardo sheds light on the formation of colonial legalities and long lasting views both secular and sacred that still inform attitudes toward authority in contemporary Mexican society **Historia de la bandera mexicana 1325 - 2019** Enrique Florescano, Moisés

Guzmán Pérez, 2021-02-19 Para distinguir la insignia se acudió a la fuerza del emblema indígena y esa decisión volvió a unir a la nación proyectada hacia el futuro con sus raíces más antiguas Contar la historia de la bandera mexicana implica recorrer un largo proceso de choque y fusión de símbolos de identidad Desde los orígenes prehispánicos del escudo nacional pasando por la prohibición y triunfo del emblema indígena durante el virreinato la Independencia y la adopción de los colores de la bandera del Ejército Trigarante la unificación de los símbolos patrios en el porfiriato los avatares de la bandera y el escudo durante la Revolución hasta llegar al establecimiento del Día de la Bandera y la más reciente legislación sobre las características y el uso

del escudo la bandera y el himno Este libro cuenta esa historia de cambios y permanencia de forma tan erudita como entrañable Una bandera puede representar unidad independencia o los valores nacionales más estimados Lo particular de la bandera mexicana es que en su creación participaron tres tradiciones diferentes la indígena la religiosa hispánica y colonial y la tradición liberal que se propuso fundar estados autónomos y soberanos Contra la idea de una posición indígena inerte este libro muestra que en la época colonial y en las primeras décadas del siglo XIX los grupos indígenas y mestizos defendieron tenazmente sus símbolos de identidad y mantuvieron un diseño horizontal con los legados procedentes de Europa Asimismo esta historia de la bandera mexicana ricamente ilustrada constata que los símbolos visuales siempre han sido los

discussing particularly the religious and ritual aspects of gender As its sources it uses colonial documents of the contact period with European cultures testimonies of the subjugated indigenous during the colonial period as well as contemporary ethnographic studies The book starts with an analysis of healing rituals in contemporary Mexico focusing on the refunctionalization of ancient beliefs and practices From there it moves spiral like between pre hispanic and colonial pasts and diverse presents The section on orality is a methodological proposal for the study of indigenous religious traditions The book is illustrated with reproductions of ancient codices Juan José de Eguiara y Eguren y la cultura mexicana Ernesto de

Traces the political careers of two fundamental figures of the Revolution both of whom thought that Mexico's future lay in modernization through industrialization Although Lombardo supported Alemán for the presidency in 1946 the bifurcation soon took place as each had a different vision of the proper road to modernization Handbook of Latin American Studies v 58 *El grado cero de la política y otros ensayos sobre la democracia en México*. Alfonso Vázquez Salazar, 2021-06-01 El siglo XXI en México se inició con la novedad de la democracia Por primera vez en la historia de nuestro país se vivió una auténtica experiencia democrática que no era impugnada de manera significativa por ninguna fuerza política o por algún sector del Estado mexicano Como resultado de por lo menos dos décadas continuas de lucha política impulsada por diversas fuerzas sociales y populares la democracia en México era ya una realidad firmemente establecida a través de un consenso realizado por las principales tendencias y orientaciones ideológicas y sobre todo por la movilización popular Si contamos como punto de

inflexión de esta larga y compleja ruta hacia la democracia como han señalado diversos autores la reforma política de 1977 se tiene que reconocer que en un lapso aproximado de 20 años se establecieron las bases políticas e institucionales de un complejo mecanismo democrático que no sin contradicciones ni insuficiencias generó una dinámica propia impulsada por el ritmo particular y las limitaciones inevitables de los diversos actores políticos y de la también insuficiente cultura política de la sociedad mexicana Sin embargo en la actualidad se ha llegado a una especie de grado cero donde la democracia pende de frágiles hilos que de no ser robustecidos con efectivos mecanismos institucionales y con una vigorosa cultura política de la población muy probablemente será la causa de un mayor deterioro de la vida pública Este libro explora a través de los ensayos que lo conforman la posibilidad de repensar a la democracia en México a partir del grado cero en el que se encuentra sosteniendo que solo con un Estado fuerte capaz de contener a los poderes fácticos y a los grupos delincuenciales y sustentado en una vigorosa movilización popular la democracia política en nuestro país aún tendrá futuro

The Body of the Conquistador Rebecca Earle, 2012-04-23 This fascinating history explores the dynamic relationship between overseas colonisation and the bodily experience of eating It reveals the importance of food to the colonial project in Spanish America and reconceptualises the role of European colonial expansion in shaping the emergence of ideas of race during the Age of

Discovery Rebecca Earle shows that anxieties about food were fundamental to Spanish understandings of the new environment they inhabited and their interactions with the native populations of the New World Settlers wondered whether Europeans could eat New World food whether Indians could eat European food and what would happen to each if they did By taking seriously their ideas about food we gain a richer understanding of how settlers understood the physical experience of colonialism and of how they thought about one of the central features of the colonial project The result is simultaneously a history of food colonialism and race
