Summing Up An Autobiography:

Summing Up Bertram Fields, 2019-04-14 The professional memoir of lawyer Bertram Fields **The Extraordinary Work of Ordinary Writing** Jennifer Sinor, 2002-11-13 Krutch's trenchant observations about life prospering in the hostile environment of Arizona's Sonoran Desert turn to weighty questions about humanity and the precariousness of our existence putting lie to Western denials of mind in the lower forms of life Let us not say that this animal or even this plant has become adapted to desert conditions Let us say rather that they have all shown courage and ingenuity in making the best of the world as they found it And let us remember that if to use such terms in connection with them is a fallacy then it can only be somewhat less a fallacy to use the same terms in connection with ourselves Self-same Songs Roger J. Porter, 2002-01-01 Self Same Songs constitutes a major contribution to the growing literary study of autobiography Using a range of authors including Homer Edward Gibbon Benjamin Franklin Somerset Maugham Franz Kafka and Eugène Delacroix Roger J Porter offers a broad based examination of the autobiography and the varied techniques used by its practitioners over time In a style that is both graceful and erudite Porter focuses on the diverse motivations and rhetorical functions that the act of self writing serves for particular writers He reflects on the texts not only as an exploration of self identity but also as the writers attempts to modify the life in the act of writing about it Then stepping out of his critical role Porter ends each chapter with an autobiographical discussion of his professional and personal engagement with the autobiographer under discussion creating an intriguing and absorbing literary autobiography within the critical text **The Uncertain Alliance** Herbert Druks, 2001-06-30 This critical examination of American Israeli relations from the last year of the Kennedy administration to the last year of Bill Clinton's tenure in office is a companion volume to Herbert Druks previous book The Uncertain Friendship The U S and Israel from Roosevelt to Kennedy Based upon extensive research of archival sources and interviews of those who made this history happen such as Harry S Truman Averell Harriman Yitzhak Rabin and Yitzhak Shamir this study provides a challenging examination of key events and issues during the last three decades including JFK and Israel's nuclear research Johnson and the Six Day War Kissinger Nixon and the Yom Kippur War the rescue at Entebbe Begin's decision to liberate Lebanon from the PLO Bush and Iraq and the Land for Peace formula In addition to this comprehensive narrative account Druks does not shy away from the tougher questions that plague the history of the two nations What was the nature of the friendship and alliance that Israel achieved with the United States Did that friendship and alliance help sustain Israel's independence or did it merely turn Israel into a vassal state of the American empire Did Israel have another viable alternative What may lie in store for the future of American Israeli relations **Demonization in International Politics** Linn Normand, 2016-06-08 This book investigates demonization in international politics particularly in the Middle East It argues that while demonization's origins are religious its continued presence is fundamentally political Drawing upon examples from historical and modern conflicts this work addresses two key questions Why do leaders demonize enemies

when waging war And what are the lasting impacts on peacemaking In providing answers to these inquiries the author applies historical insight to twenty first century conflict Specific attention is given to Israel and Palestine as the author argues that war time demonization in policy media and art is a psychological and relational barrier during peace talks

Dangerous Writing Carmen Luz Fuentes-Vásquez, 2013 This book examines the literary construction of personal identity through autobiographical narratives by three significant writers analysed together for the first time the Scottish Willa Muir 1890 1970 the Canadian Margaret Laurence 1926 1987 and the New Zealander Janet Frame 1924 2004 These apparently dissimilar authors suffered not only geographical but also political marginality they were women from the working class or struggling middle class striving to be considered as professional writers and emerging from countries that might be felt to be under the shadows of economic and political world powers such as England and the United States During their lifetimes they exerted themselves to overcome prejudices about class gender and ethnicity They experienced war and the post war era and lived through most of the twentieth century being accurate witnesses and critics of their times As it discusses major writers who are iconic for the development of the literatures of their respective countries this book also attracts readers who are interested in learning more about the lives of these remarkable women the way their socio historical and geographical circumstances affected their writing and how they expressed such concerns in their autobiographies and other fictional and non fictional works besides considering them in relation to contemporary women writers and autobiographers who underwent similar experiences

Bombing to Provoke Jaganath Sankaran, 2024-10-24 The influence of aerospace weapons on the battlefield is felt profoundly yet the mechanism of coercion by which these weapons alter the will of the adversary is poorly understood This book argues that it is not what these weapons physically do but how they weaponize fear and trigger a sense of defenselessness that matters for understanding their coercive effect For anyone

seeking to understand why states at war in the age of aerospace weapon warfare operate and react in the ways that they do this book's methodical dissection of the strategic rationale behind these weapons makes it necessary reading

The Housekeeper's Tale Tessa Boase, 2014-05-19 Working as a housekeeper was one of the most prestigious jobs a nineteenth and early twentieth century woman could want and also one of the toughest A far cry from the Downton Abbey fiction the real life Mrs Hughes was up against capricious mistresses low pay no job security and gruelling physical labour Until now her story has never been told The Housekeeper's Tale reveals the personal sacrifices bitter disputes and driving ambition that shaped these women's careers Delving into secret diaries unpublished letters and the neglected service archives of our stately homes Tessa Boase tells the extraordinary stories of five working women who ran some of Britain's most prominent households There is Dorothy Doar Regency housekeeper for the obscenely wealthy 1st Duke and Duchess of Sutherland at Trentham Hall Staffordshire There is Sarah Wells a deaf and elderly Victorian in charge of Uppark West Sussex Ellen Penketh is Edwardian cook housekeeper at the sociable but impecunious Erddig Hall in the Welsh borders Hannah Mackenzie runs Wrest Park in Bedfordshire Britain's first country

Normal0falsefalsefalseEN GBX NONEX NONE *Collected Stories of W. Somerset Maugham* W. Somerset Maugham,2015-11-24 From one of the twentieth century's most enduringly popular fiction writers the only hardcover edition of his short stories Though W Somerset Maugham was also famous for his novels and plays it has been argued that in the short story he reached the pinnacle of his art These expertly told tales with their addictive plot twists and vividly drawn characters are both galvanizing as literature and wonderfully entertaining In the adventures of his alter ego Ashenden a writer who like Maugham himself turned secret agent in World War I as well as in stories set in such far flung locales as South Pacific islands and colonial outposts in Southeast Asia Maugham brings his characters vividly to life and their humanity is more convincing for the author's merciless exposure of their flaws and failures Whether the chasms of misunderstanding he plumbs are those between colonizers and natives between a missionary and a prostitute or between a poetry writing woman and her uncomprehending husband Maugham brilliantly displays his irony his wit and his genius in the art of storytelling

Ludvig Holberg Simon Christian Hammer,1920 **Herbert Spencer** John Arthur Thomson,1906 This volume attempts to give a short account of Herbert Spencer's life an appreciation of his characteristics and a statement of some of the services he rendered to science Prominence has been given to his Autobiography to his Principles of Biology and to his position as a cosmic evolutionist but little has been said of his psychology and sociology which require another volume or of his ethics and politics or of his agnosticism the whetstone of so many critics Our appreciation of Spencer's services is therefore partial but it may not for that reason fail in its chief aim that of illustrating the working of one of the most scientific minds that ever lived whose excess of science was almost unscientific

The Public School Journal ,1913

School and Home Education ,1913 **Education** ,1918 **Narrative and Self-Understanding** Garry L. Hagberg,2019-11-15 This exciting new edited collection bridges the gap between narrative and self understanding The problem of self knowledge is of universal interest the nature or character of its achievement has been one continuing thread in our philosophical tradition for millennia Likewise the nature of storytelling the assembly of individual parts of a potential story into a coherent narrative structure has been central to the study of literature But how do we gain knowledge from an artform that is by definition fictional by definition not a matter of ascertained fact as this applies to the understanding of our lives When we see ourselves in the mimetic mirror of literature what we see may not just be a matter of identifying with a single protagonist but also a matter of recognizing long form structures long arc narrative shapes that give a place to and thus make sense of the individual bits of experience that we place into those structures But of course at precisely this juncture a question arises do we make that sense or do we discover it The twelve chapters brought together here lucidly and

steadily reveal how the matters at hand are far more intricate and interesting than any such dichotomy could accommodate
