Strabe Der Menschenrechte Dani Karavan Dani Karavan Way Of Human Rights:

Strasse der Menschenrechte Peter Laub, Konrad Scheurmann, 1995 **The German-Hebrew Dialogue** Amir

Eshel, Rachel Seelig, 2017-12-18 In the wake of World War II and the Holocaust it seemed there was no place for German in Israel and no trace of Hebrew in Germany the two languages and their cultures appeared as divergent as the directions of their scripts Yet when placed side by side on opposing pages German and Hebrew converge in the middle Comprised of essays on literature history philosophy and the visual and performing arts this volume explores the mutual influence of two linguistic cultures long held as separate or even as diametrically opposed From Moses Mendelssohn's arrival in Berlin in 1748 to the recent wave of Israeli migration to Berlin the essays gathered here shed new light on the painful yet productive relationship between modern German and Hebrew cultures

Nuremberg Stephen Brockmann, 2006 *Nuremberg The Imaginary Capital* is a broad study of German cultural and intellectual history since 1500 with a particular emphasis on the period from 1800 to the present The book explores the ways in which Germans over the past two centuries have imagined Nuremberg as a cultural and spiritual capital focusing feelings of national identity and belonging on the city or on their Images of it *Nuremberg The Imaginary Capital* analyzes the way in which a particular city came to be seen in Germany and elsewhere as representative of the national whole The book goes beyond the analysis of particular historical periods by showing how successive epochs images of Nuremberg built on those preceding them thus German cultural and intellectual history is shown as an intelligible unity centered around fascination with and veneration for a particular city

Difficult Heritage Sharon Macdonald, 2010-10-04 How does a city and a nation deal with a legacy of perpetrating atrocity How are contemporary identities negotiated and shaped in the face of concrete reminders of a past that most wish they did not have *Difficult Heritage* focuses on the case of Nuremberg a city whose name is indelibly linked with Nazism to explore these questions and their implications Using an original in depth research using archival interview and ethnographic sources it provides not only fascinating new material and perspectives but also more general original theorizing of the relationship between heritage identity and material culture The book looks at how Nuremberg has dealt with its Nazi past post 1945 It focuses especially but not exclusively on the city's architectural heritage in particular the former Nazi party rally grounds on which the Nuremberg rallies were staged The book draws on original sources such as city council debates and interviews to chart a lively picture of debate action and inaction in relation to this site and significant others in Nuremberg and elsewhere In doing so *Difficult Heritage* seeks to highlight changes over time in the ways in which the Nazi past has been dealt with in Germany and the underlying cultural assumptions motivations and sources of friction involved Whilst referencing wider debates and giving examples of what was happening elsewhere in Germany and beyond *Difficult Heritage* provides a rich in depth account of this most fascinating of cases It also engages in comparative reflection on developments underway elsewhere in order to contextualize what was happening in Nuremberg and to show similarities to and differences from the

ways in which other difficult heritages have been dealt with elsewhere By doing so the author offers an informed perspective on ways of dealing with difficult heritage today and in the future discussing innovative museological educational and artistic practice Geschichte erzählen.
