Straight Talk about Your Child's Mental Health Stephen V. Faraone, 2012-04-24 Parents reach for dog eared copies of Dr Spock when their child has a rash or the flu but when moodiness lingers or worrisome behavior problems grow they have nowhere to turn for answers or reassurance Now in this compassionate resource prominent Harvard researcher Dr Stephen V Faraone gives parents the tools they need to look clearly at how a child is feeling thinking and behaving and make wise decisions about when to call for professional help Cues and questions teach readers to become scientific observers of their child and vital facts about common disorders help them distinguish between normal variations in speech development and Asperger syndrome between moodiness that s just a phase and depression between childhood fears and the symptoms of anxiety Knowing what to ask and tell the professionals from the pediatrician to a mental health specialist will help parents ensure a complete and accurate diagnosis Filled with handy sidebars charts and checklists the book also teaches parents to weigh treatment options to determine what s best for their child Winner American Journal of Nursing Book of the Year Award

Bibliotherapy Amy Recob, 2008-10 Everyone has dealt with at least one of the issues listed in this book at some point in his her lifetime Whether that issue was conquered with the help of a loved one through therapy or is still weighing on the individual the therapeutic power of the book is often overlooked The reassurance gained when an individual learns that they are not the only one can open several doors of communication and can put one on the road to recovery or coming to terms with an issue In schools bibliotherapy can greatly increase the connectivity of curriculum to the individual student cover

Do You Have a Friend Who Is Suicidal? Elizabeth Wahl, 2015-12-15 In today s high paced high pressure world many teens cave into the pressure and decide to take their own lives leaving behind confused and hurt family and friends Through expert advice and firsthand accounts from teens readers can learn the warning signs of suicidal behavior and how best to help others or themselves

Grief Support Group Curriculum Linda Lehmann, Shane R. Jimerson, Ann Gaasch, 2012-12-06 The Grief Support Group Curriculum provides a basis for assisting children and teenagers as they learn about mourning through facing death of a close or special friend The aim of this curriculum is to facilitate healthy variations of mourning and positive adaptations following the death of a friend or family member The work illustrates mourning in four stages of development and is accordingly divided into four separate texts The texts focus on preschool aged children children in kindergarten through grade two children in grades three through six and teenagers

[Children Mourning, Mourning Children](#) Kenneth J. Doka, 2014-01-21 Based on the Hospice Foundation of America s second annual teleconference this book explores three basic themes in children s grief Firstly it maintains that children are always developing therefore their understanding of death and their reactions to illness and loss are also multifaceted and constantly undergoing change

Secondly children grieve in ways that are both different from and similar to adults While they may need different therapeutic approaches from their elders each loss is different and the grief experience will be affected by many of the same factors that affect adults Thirdly it holds that they need significant support as they grieve Talking to children about loss and illness is too important to wait until a crisis rather it is essential to provide opportunities to discuss loss in times that are not so Emotionally Laden This Book Aims To Demonstrate That Open Communication between parents and children will lead to skills and understanding that are essential to the child for coping with loss and reaffirming that death is part of the process of living
