Strangers in African Societies William A. Shack, Elliott P. Skinner, 1979-01-01

Welcoming Strangers Jane Hall Fitz-Gibbon, Andrew Fitz-Gibbon, 2016-05-31 Jane Hall Fitz Gibbon and Andrew Fitz Gibbon have cared for more than 100 children in a foster care career spanning more than three decades They developed a method loving nonviolent re parenting to best care for foster children Re parenting represents the complex task of caring for children who have been parented already often inadequately and mostly involving physical emotional and or systemic violence Welcoming Strangers analyzes the violence foster children suffer and raises ethical questions why violence is morally problematic what philosophers have said about human nature and violence and what moral good should be pursued in childcare Drawing on an ancient form of ethics sometimes known as virtue ethics this

book focuses on the traits required to become a loving nonviolent re parent The Fitz Gibbons tell of their journey in the foster care system with candor humor and grace Covering subjects as diverse as teens sex discipline and the carer s own well being they describe the difficulties of foster care and the sometimes impossible task of restoring dignity and joy to young lives deeply damaged by violence This book will be of immense help to foster carers adopters caseworkers case managers policymakers and any parent who wants to integrate nonviolent practices into the way they care for children *Punch Mark Lemon*, Henry Mayhew, Tom Taylor, Shirley Brooks, Francis Cowley Burnand, Owen Seaman, 1895 Depending on Strangers David P Levine, 2021-03-01 We live in a world where our livelihood depends on our ability to relate to strangers The central quality that defines strangers is that they are unknown Because strangers are unknown they represent in the world outside the unknown self within The unknown self is the core of the personality considered as a potential to become something yet to be determined To be already known is to be determined prior to and independently of our presence in our lives At the outset of the process of taking form the individual is in a sense a stranger to self and to others The more this is the case the greater the openness of the process of self formation and the more marked the role of freedom from predetermination in that process Freedom from predetermination exists along three dimensions the free movement of thoughts and ideas or inner freedom the freedom to relate which is also the freedom not to relate and freedom in relating which is the possibility of maintaining secure self boundaries in relations with others In exploring freedom understood in this way Professor Levine considers such topics as the nature of inner freedom and its relationship to deliberation and choice stranger anxiety and its connection to group dynamics and social connection the internal factors that enable us to make the decisions that shape our lives and through our actions realize the ends embedded in our decisions how our memories shape our thought processes and therefore the choices we make and the lives we lead that result from them what makes it possible for us to live comfortably with and depend on people we do not know concern for the welfare of strangers and how our welfare can be secure in a world where we do not care about others and they do not care about us **Food, Sex and Strangers** Graham Harvey, 2014-09-11 Religion is more than a matter of worshipping a deity or spirit For many people religion pervades every part of their lives and is not separated off into some purely private and personal realm Religion is integral to many people s relationship with the wider world an aspect of their dwelling among other beings both human and other than human and something manifested in the everyday world of eating food having sex and fearing strangers Food Sex and Strangers offers alternative ways of thinking about what religion involves and how we might better understand it Drawing on studies of contemporary religions especially among indigenous peoples the book argues that religion serves to maintain and enhance human relationships in and with the larger than human world Fundamentally religion can be better understood through the ways we negotiate our lives than in affirmations of belief and it is best seen when people engage in intimate acts with themselves and others **The Wise Men of Chelm** Sandy Asher, 1992
