Research at the Southeastern Forest Experiment Station Southeastern Forest Experiment Station (Asheville, N.C.),1957

New Root Formation in Plants and Cuttings M.B. Jackson,2012-12-06 The formation of roots is in some respects one of the least fundamentally understood of all plant functions Propagation by cuttings is the aspect that will occur first to most gardeners and horticulturists and it is certainly the most useful application But any observant traveller in the tropics can notice that some trees have the habit of forming roots in the air Climbers like Cissus bear long fine strings of roots hanging down Pandanus trees tend to have stout aerial roots issuing from the bases of the long branches while the tangle of roots around the trunk of many of the Ficus species is characteristic In Ficus bengalensis in particular stout cylindrical roots firmly embedded in the ground from a height of 3 to 5 meters give support to the long horizontal branches enabling them to spread still further In the big old specimen at Adyar near Madras the spread of these branches all around the tree each with a strong root growing out every few meters makes a shaded area under which meetings of almost 5000 people are sometimes held The history of how the formation of roots on stem cuttings was found to be under hormonal control is worth repeating here

grew up in an orphanage and so the preservation of her precious family was her number one commitment But that commitment was threatened when during marital counseling Annora's therapist began to recognize even more unusual and abnormal behaviors in her Annora was subsequently diagnosed with Dissociative Identity Disorder also known as Multiple Personality Disorder But that wouldn't stop Annora from declaring her sanity to her husband and begging him to find them a new therapist We Are Annora is a story about the human will to survive amidst the darkness which lies deep within despondency and a powerful mental disorder Marrow's choice of first person narrative successfully pulls the reader into this page turning true story which so richly demonstrates the human will to survive amidst a crippling disorder that is still so misunderstood Throughout the pages of this book struggles of fear and hope love and hate confusion and utter clarity give the reader an insider perspective of the challenges faced by traumatized people with DID Hence the reader acquires a better understanding of the difficulties suffered by multiples and the potential for true healing **Chakravyuh Shiv**
