Studia Numismatica:

Israel Numismatic Research Israel Numismatic Society, 2011-12-31 **Numismatic Literature** Oliver

Hoover, 2004-12-31 An annual annotated bibliography of the American Numismatic Society's publications and articles related to numismatics covering literature appearing between October 2002 and October of 2003 Late Roman Warlords Penny MacGeorge, 2002-12-05 Late Roman Warlords reconstructs the careers of some of the men who shaped and were shaped by the last quarter century of the Western Empire. There is a need for a new investigation of these warlords based on primary sources and including recent historical debates and theories. The difficult sources for this period have been analysed and translated as necessary to produce a chronological account and relevant archaeological and numismatic evidence has been utilised. An overview of earlier warlords including Aetius is followed by three studies of individual warlords and the regions they dominated. The first covers Dalmatia and Marcellinus its ruler during the 450s and 460s. A major theme is the question of Marcellinus' western or eastern affiliations using an often ignored Greek source. Penny MacGeorge suggests a new interpretation. The second part is concerned with the Gallic general Aegidius and his son Syagrius who ruled in northern Gaul probably from Soissons. This extends to AD 486 well after the fall of the Western Empire. The problem of the existence or non-existence of a kingdom of Soissons is discussed introducing evidence from the Merovingian period and a solution put forward. This section also looks at how the political situation in northern Gaul might throw light on contemporary post-Roman Britain. The third study is of the barbarian patrician Ricimer, defender of Italy and his successors the Burgundian prince Gundobad and Orestes a former employee of Attila down to the coup of 476 by which Odovacer became the first barbarian king of Italy. This includes discussion of the character and motivation of Ricimer particularly in relation to the emperors he promoted and destroyed and of how historians' assessments of him have changed over time.

Money, Coins and Commerce Eddy Van Cauwenberghe, Eddy van Cauwenberghe, 1991 **Dependency and Social Inequality in Pre-Roman Italy** Martin Bentz, Patrick Zeidler, 2024-10-21 In the past most studies on Pre-Roman societies in Italy 1st millennium BCE focused on the elites their representation and cultural contacts. The aim of this volume is to look at dependent and marginalized social groups which are less visible and often even difficult to define: slaves, servants, freedmen, captives, foreigners, athletes, women, children etc. The methodological challenges connected to the study of such heterogeneous and scattered sources are addressed. Is the evidence representative enough for defining different forms of dependencies? Can we rely on written and pictorial sources or do they only reflect Greek and Roman views and iconographic conventions? Which social groups can't be traced in the literary and archaeological record? For the investigation of this topic we combined historical and epigraphical studies: Greek and Roman literary sources, Etruscan inscriptions with material culture studies, images, sanctuaries, necropoleis including anthropological and bioarchaeological methods. These new insights open a new chapter in the study of dependency and social inequality in the societies of Pre-Roman Italy.
