Studies In Bibliography Volume 14 1961:

Keats's Reading / Reading Keats Beth Lau, Greg Kucich, Daniel Johnson, 2022-02-12 This book explores John Keats's reading practices and intertextual dialogues with other writers. It also examines later writers' engagements with Keats's poetry. Finally, the book honors the distinguished Keats scholar Jack Stillinger and includes an essay surveying his career as well as a bibliography of his major publications. The first section of the volume, *Theorizing Keats's Reading*, contains four essays that identify major patterns in the poet's reading habits and responses to other works. The next section, *Keats's Reading*, consists of six essays that examine Keats's work in relation to specific earlier authors and texts. The four essays in the third section, *Reading Keats*, consider how Keats's poetry influenced the work of later writers and became embedded in British and American literary traditions. The final section of the book, *Contemporary Poetic Responses*, features three scholar-poets who in poetry and/or prose commentary discuss and exemplify Keats's impact on their work. *Literary Critics and Reviewers in Early 19th-Century Britain* Peter F. Morgan, 2025-08-01 The nineteenth century saw the growth of several major magazines devoted to the reviewing of contemporary literature. The new popular importance that literature was beginning to enjoy in particular the novel form inevitably led to a change in the way literature was discussed and perceived. Three of the major reviews of the period that reflected this new outlook are discussed in *Literary Critics and Reviewers in Early 19th Century Britain*, originally published in 1983: the *Whig Edinburgh Review* founded in 1804, the *Quarterly Review* the government counterblast begun five years later, and the *Westminster Review* the radical paper first instituted in 1824. Each of these received contributions from major writers themselves such as Carlyle, Macaulay, Scott, Southey, and Mill. These together with Jeffrey Lockhart and Croker form the main subject of this book. By examining the work of each writer, the author conveys a sense of the richness and variety of the field. The criticism examined is important intrinsically but also it is seen in the context of the philosophy and personality of the individual critic and his important role in the review, especially as mediating between literature and the reading public. *Research Trends, 1962-1967: Nuclear Structure Physics* National Science Foundation (U.S.). Advisory Panel on Nuclear Structure Physics, 1962 *Romantic Adaptations* Cian Duffy, Peter Howell, 2016-04-08 How did romanticism define its relationship with its sources? How has romanticism since been understood and misunderstood across a range of cultural activities? These are among the questions taken up in this reexamination of the place of adaptation within romanticism. Renegotiating the cultural topography of the period and the place of romanticism in subsequent cultural history, the volume focuses on the adaptation of source material by romantic writers and the adaptation in subsequent periods of the tropes and ideologies associated with romanticism. In place of a hierarchical distinction between source and text, between romanticism and its contexts, the collection identifies distinct but overlapping and mutually constitutive genres such as the Gothic and romance. Whether their essays deal with early nineteenth-century periodical reviews, affordable editions of *Pride and Prejudice* aimed at the late nineteenth-century mass audience, or the ongoing

cultural presence of romanticism in late twentieth and early twenty first century debates about embryology and stem cell research the contributors remain cognizant of the tension between the processes of adaptation and the apparent ideology of romantic originality *Joseph Conrad* David J. Supino,2022-08-13 David J Supino traces in unprecedented detail the lineaments of Joseph Conrad s authorial career and the fortunes and misfortunes of his publishers on both sides of the Atlantic This work is a model of the integrative scholarly method combining close bibliographical scrutiny of particular textual artifacts with archival recovery of book historical information in as much detail as the surviving documents allow The book is essential reading not only for students of Conrad but also for all those who wish to understand the publishing history of this era **Agricultural Economics Research** ,1959 *The Supply of Dogs and Cats Used in Laboratories for Teaching and Research* California.
