Studies In Celtic History The Saints Of:

The Royal Saints of Anglo-Saxon England Susan J. Ridyard, 1988 Within Anglo Saxon England there was a strong and enduring tradition of royal sanctity of men and women of royal birth who in an age before the development of papal canonisation came to be venerated as saints by the regional church This study which focuses on some of the best documented cults of the ancient kingdoms of Wessex and East Anglia is a contribution towards understanding the growth and continuing importance of England's royal cults The author examines contemporary and near contemporary theoretical interpretations of the relationship between royal birth and sanctity analyses in depth the historical process of cult creation and addresses the problem of continuity of cult in the aftermath of the Norman Conquest of 1066 An understanding therefore emerges of the place of the English royal saint not only in Anglo Saxon society but also in that of the Anglo Norman realm *The Saints' Lives of Jocelin of Furness* Helen Birkett, 2010 First comprehensive study of four important medieval saints lives setting them in their political and ecclesiastical context Jocelin of Furness fl 1175x1214 the Cistercian hagiographer composed four substantial and significant saints lives varying widely in both subject and patron they offer a rich corpus of medieval hagiographical writing Jocelin's Vita S Patricii and Vita S Kentegerni provide updated versions of each saint's legend and are carefully adapted to reflect the interests of their respective patrons in Ireland and Scotland The Vita S Helenae was probably commissioned by a female community in England it represents an idealized narrative mirror of its early thirteenth century context In contrast the Vita S Waldevi was written to promote the formal canonization of a new saint Waltheof d 1159 abbot of the Cistercian house of Melrose in the Scottish borders This is the first full length study of the Lives It combines detailed analyses of the composition of the texts with study of their patronage audiences and contemporary contexts and it provides new insights into Jocelin's works and the writing of hagiography in the period Dr HELEN BIRKETT is Lecturer in Medieval History University of Exeter **Royal Inauguration in Gaelic Ireland C. 1100-1600** Elizabeth FitzPatrick, 2004 An investigation of the places in the Irish landscape where open air Gaelic royal inauguration assemblies were held from the twelfth to the sixteenth centuries This investigation considers the places on the Irish landscape where open air Gaelic royal inauguration assemblies were held in the period c 1100 1600 Specially designated inauguration sites played an important role in the political life of Gaelic lordships in later medieval Ireland Gaelic ruling families often appropriated prehistoric ritual landscapes for their royal assemblies in order to attach the pedigree of a royal candidate to an illustrious past such sites might be an alleged burial place of an eponymous ancestor or a legendary heroic figure or an ancient landscape associated with renowned events This study of their physical appearance place names and geographical and historical contexts ranges over all the archaeological sites identified as inauguration places enclosures sepulchral mounds natural places ringforts and churches and associated inauguration furniture in the form of leaca and stone thrones basin stones and sacred trees Irish royal assembly places and practices are viewed in relation to sites elsewhere in Britain and greater Europe

and the circumstances that brought about the ending of the Gaelic practice of inauguration are also considered

ELIZABETH FITZPATRICK is Lecturer in Medieval Archaeology National University of Ireland Galway *Hiberno-Latin Saints' 'Lives' in the Seventh Century* John Higgins, 2024-03-18 As part of the historicizing corpus of seventh century Irish writing the Lives framed the narrative of the early saints as an effective weapon in contemporary political and ecclesiastical conflicts

Cogitosus's Life of Brigit Muirch's and Trech's accounts of Saint Patrick and Adomnán's Life of Columba created the understanding of the history of early Ireland that has endured to this day How did the writers accomplish this through their literary choices The authors of Irish saints Lives used the literary form of hagiography Christian biography miracle stories and an elaborate rhetorical style to present the words and actions of their subjects These Lives created a narrative of early Irish history that supported the political ecclesiastical elites by showing that their power derived from the actions of their patron saints

Perceptions of Femininity in Early Irish Society Helen Oxenham, 2016 An examination of how the feminine was viewed in early medieval Ireland through a careful study of a range of texts

The Cult of Saints and the Virgin Mary in Medieval Scotland Stephen I. Boardman, Steve Boardman, Eila Williamson, 2010 A new investigation of the saints cults which flourished in medieval Scotland fruitfully combining archaeological historical and literary perspectives Of all the Celtic countries Scotland has lacked the kind of scholarly attention that has been lavished fruitfully on Wales Ireland Cornwall and Brittany And yet of all of them Scotland offers the widest range of interfaces with broader work on the cult of saints The papers presented here cover this territory very effectively the book brings together excellent studies that successfully explore the wide ramifications of the topic Anyone with an interest in saints cults will want this book

DAUVIT BROUN Professor of Scottish History University of Glasgow This volume examines the phenomena of the cult of saints and Marian devotion as they were manifested in Scotland ranging from the early medieval period to the sixteenth century It combines general surveys of the development of the study of saints in the early and later middle ages with more focused articles on particular subjects including St Waltheof of Melrose the obscure early medieval origins of the cult of St Munnu the short lived martyr cult of David duke of Rothesay and the Scottish saints included in the greatest liturgical compendium produced in late medieval Scotland the Aberdeen breviary The way in which Marian devotion permeated late medieval Scottish society is discussed in terms of the church dedications of the twelfth and thirteenth century aristocracy the ecclesiastical landscape of Perth the depiction of Mary in Gaelic poetry and the pervasive influence of the familial bond between holy mother and son in representations of the Scottish royal family

Literacy and Identity in Early Medieval Ireland Elva Johnston, 2013-08-15 Much of our knowledge of early medieval Ireland comes from a rich literature written in a variety of genres and in two languages Irish and Latin Who wrote this literature and what role

did they play within society What did the introduction and expansion of literacy mean in a culture where the vast majority of the population continued to be non literate How did literacy operate in and intersect with the oral world Was literacy a key element in the formation and articulation of communal and elite senses of identity This book addresses these issues in the first full inter disciplinary examination of the Irish literate elite and their social contexts between ca 400 1000 AD It considers the role played by Hiberno Latin authors the expansion of vernacular literacy and the key place of monasteries within the literate landscape Also examined are the crucial intersections between literacy and orality which underpin the importance played by the literate elite in giving voice to aristocratic and communal identities From Kings to Warlords Katharine Simms,2000 Native Irish chieftains not totally subdued after the Norman invasion of Ireland recovered a measure of their power in the later middle ages unfamiliar sources illuminate developments The Norman invasion of Ireland 1169 did not result in a complete conquest and those native Irish chieftains who retained independent control of their territories achieved a recovery of power in the later middle ages Katharine Simms studies the experience of the resurgent chieftains who were undergoing significant developments during this period The most obvious signs of change were the gradual disappearance of the title ri king and the ubiquitous presence of mercenary soldiers On a deeper level the institution of kingship itself had died as is shown by this study of the election and inauguration of Irish kings their counsellors officials vassals army and sources of revenue as they evolved between the twelfth and sixteenth centuries Sources such as the Irish chronicles bardic poetry genealogies brehon charters and rentals family tract and sagas are all used in addition to the more familiar evidence of the Anglo Norman administration the Church and Tudor state papers Dr KATHARINE SIMMS lectures in the Department of Medieval History Trinity College Dublin **The Book of Llandaf and the Norman Church in Wales** John Reuben Davies,2003 The post Norman ecclesiastical and political transformation of south east Wales recorded in early C12 manuscript This book explores the ecclesiastical and political transformation of south east Wales in the later eleventh and early twelfth centuries Ecclesiastical and administrative reform was one of the defining characteristics of the Norman regime in Britain and the author argues that a new generation of clergy in South Wales was at the heart of this reforming programme The focus of this volume is the early twelfth century Book of Llandaf one of the most perplexing but exciting historical works from post Conquest Britain It has long been viewed as a primary source for the history of early medieval Wales but here it is presented in a fresh light as a monument to learning and literature in Norman Wales produced in the same literary milieu as Geoffrey of Monmouth As such the Book of Llandaf provides us with valuable insights into the state of the Norman Church in Wales and allows us to understand how it thought about its past JOHN DAVIES is Research Fellow in Scottish History University of Edinburgh **Heroic Saga and Classical Epic in Medieval Ireland** Brent Miles,2011 An examination of the ways in which works of Classical literature influenced and were received by the native Irish tradition Original innovative work which elucidates a number of individual narratives but more significantly by placing these texts in

their proper intellectual context the author demonstrates how the world of learning in eleventh and twelfth century Ireland really worked He illuminates a world of medieval education and scholarship he tells us as no one has done previously what medieval Irish classicism was all about Dr Maire ni Mhaonaigh St John's College University of Cambridge The puzzle of Ireland's role in the preservation of classical learning into the middle ages has always excited scholars but the evidence from the island's vernacular literature as opposed to that in Latin for the study of pagan epic has largely escaped notice In this book the author breaks new ground by examining the Irish texts alongside the Latin evidence for the study of classical epic in medieval Ireland surveying the corpus of Irish texts based on histories and poetry from antiquity in particular Togail Troi the Irish history of the Fall of Troy He argues that Irish scholars' study of Virgil and Statius in particular left a profound imprint on the native heroic literature especially the Irish prose epic *T in B C ailnge The Cattle Raid of Cooley* BRENT MILES is a Fellow in Early and Medieval Irish University College Cork

Classical Literature and Learning in Medieval Irish Narrative

Ralph O'Connor, 2014 This edited volume will make a major contribution to our appreciation of the importance of classical literature and learning in medieval Ireland and particularly to our understanding of its role in shaping the content structure and transmission of medieval Irish narrative Dr Kevin Murray Department of Early and Medieval Irish University College Cork From the tenth century onwards Irish scholars adapted Latin epics and legendary histories into the Irish language including the *Imtheachta Aeniasa* the earliest known adaptation of Virgil's *Aeneid* into any European vernacular *Togail Troi* a grand epic reworking of the decidedly prosaic history of the fall of Troy attributed to Dares Phrygius and at the other extreme the remarkable *Merugud Uilixis meic Leirtis* a fable like retelling of Ulysses's homecoming boiled down to a few hundred lines of lapidary prose Both the Latin originals and their Irish adaptations had a profound impact on the ways in which Irish authors wrote narratives about their own legendary past notably the great saga *T in B C ailnge The Cattle Raid of Cooley* The essays in this book explore the ways in which these Latin texts and techniques were used They are unified by a conviction that classical learning and literature were central to the culture of medieval Irish storytelling but precisely how this relationship played out is a matter of ongoing debate As a result they engage in dialogue with each other using methods drawn from a wide range of disciplines philology classical studies comparative literature translation studies and folkloristics Ralph O'Connor is Professor in the Literature and Culture of Britain Ireland and Iceland at the University of Aberdeen Contributors Abigail Burnyeat Michael Clarke Robert Crampton Helen Fulton Barbara Hillers Maire N Mhaonaigh Ralph O'Connor Erich Poppe

readers The Celts History Life and Culture uses a cross disciplinary approach to explore all facets of this ancient society The book introduces the archaeology art history folklore history linguistics literature music and mythology of the Celts and examines the global influence of their legacy Written entirely by acknowledged experts the content is accessible without being simplistic Unlike other texts in the field The Celts History Life and Culture celebrates all of the cultures associated with Celtic languages at all periods providing for a richer and more comprehensive examination of the topic

Saints' Cults in the Celtic World Steven Boardman, John Reuben Davies, Eila Williamson, 2009 Saints cults flourished in the medieval world and the phenomenon is examined here in a series of studies The way in which saints cults operated across and beyond political ethnic and linguistic boundaries in the medieval British Isles and Ireland from the sixth to the sixteenth centuries is the subject of this book In a series of case studies the contributions highlight the factors that allowed particular cults to prosper in or that made them relevant to a variety of cultural contexts The collection has a particular emphasis on northern Britain and the role of devotional interests in connecting or shaping a number of polities and cultural identities Pictish Scottish Northumbrian Irish Welsh and English in a world of fluid political and territorial boundaries Although the bulk of the studies are concerned with the significance of cults in the insular context many of the articles also touch on the development of pan European devotions such as the cults of St Brendan The Three Kings or St George Contributors James E Fraser Thomas Owen Clancy Fiona Edmonds John Reuben Davies Karen Jankulak Sally Crumplin Joanna Huntington Steve Boardman Eila Williamson Jonathan Wooding

Legacy of Gildas Stephen J. Joyce, 2022 Provocative new investigation into the shadowy figure of Gildas his influence and representation Gildas is an essential witness to the Christian culture of the British Isles in the opaque period after the decline and fall of the western Roman empire His criticisms in *De excidio Britanniae* of the Britons in the context of spiritual and secular corruption and partition with pagan powers are a crucial source for understanding the transition to the medieval nations of England Scotland Wales and Ireland But the ways in which this enigmatic ecclesiastical figure has been received over the centuries have shaped an ambivalent reputation On the one hand he is seen as a significant contributor to ecclesiastical reform on the other as a dour and unreliable chronicler lamenting an inevitable spiritual and political decline This book seeks to refine and recuperate the image of Gildas It does so by examining his self image as presented in select surviving works and subsequent representations as developed by the reception of these works the legacy of Gildas by church luminaries such as Columbanus Gregory the Great and Bede in exploring how Gildas influenced perceptions of authority in the British Isles and on the continent it puts this legacy into a wider context Overall the volume argues that as one of the earliest authorities to define and defend Christian kingship Gildas deserves to be seen as a significant contributor to the political and ecclesiastical development of the early medieval West *Envoys and Political Communication in the Late Antique West, 411-533* Andrew Gillett, 2003-08-28 Warfare and dislocation are obvious features of the break up of the late Roman West but this crucial period of change was characterized also by communication and diplomacy The great events of the late antique West were determined by the quieter labours of countless envoys who travelled between emperors kings

generals high officials bishops provincial councils and cities This book examines the role of envoys in the period from the establishment of the first barbarian kingdoms in the West to the eve of Justinian s wars of re conquest It shows how ongoing practices of Roman imperial administration shaped new patterns of political interaction in the novel context of the earliest medieval states Close analysis of sources with special interest in embassies offers insight into a variety of genres chronicles panegyrics hagiographies letters and epitaph This study makes a significant contribution to the developing field of ancient and medieval communications *Routledge Revivals: Medieval Ireland (2005)* Sean Duffy, 2017-07-05 First published in 2005 *Medieval Ireland An Encyclopedia* brings together in one authoritative resource the multiple facets of life in Ireland before and after the Anglo Norman invasion of 1169 from the sixth to sixteenth century
