Heidegger Sartre and the later existentialist philosophers inherited a world it has been said from which God is absent Contemporary philosophy begins in the momentous questioning of the Christian experience by such nineteenth century figures as Nietzsche and Dostoyevsky But if existentialism is in some respects a beginning again it is in other respects linked to the classical world out of which Christianity arose and to certain themes in the writings of ancient and medieval Christians Renewal and innovation converge Addressing themselves to the general reader the three author philosophers consider both the contemporary and the perennial Book jacket

Christianity and the Existentialists Carl Michalson, 1956 The chapters included in this volume were delivered in their original form as public lectures in Craig Chapel of Drew University during the academic year 1953-54 They comprise the fifteenth series of lectures to Christian Biography on a foundation established by President and Mrs Ezra Squier Tipple The selection of the participants in the lectureship followed easily upon the choice of the subject The lecturers were assembled under a commission entitled The Challenge of Christian Existentialism The major motive in this title is clear A cultural movement which is exercising so great an influence upon the reformulation of Christian thought deserves to be appraised Preface
Kierkegaard's Influence on Theology: Anglophone and Scandinavian Protestant theology Jon Bartley Stewart, Tome II is dedicated to tracing Kierkegaard's influence in Anglophone and Scandinavian Protestant religious thought In Britain before World War I the few literati who were familiar with his work tended to assimilate Kierkegaard to the heroic individualism of Ibsen and Nietzsche In the United States knowledge of Kierkegaard was introduced by Scandinavian immigrants who brought with them a picture of the Dane as much more sympathetic to traditional Christianity The interpretation of Kierkegaard in Britain and America during the early and mid twentieth century generally reflected the sensibilities of the particular theological interpreter Anglican theologians tended to find Kierkegaard to be one-sided in his critique of reason and culture while theologians hailing from the Reformed tradition often saw him as an insightful harbinger of neo-orthodoxy The second part of Tome II is dedicated to the Kierkegaard reception in Scandinavian theology featuring articles on Norwegian and Swedish theologians influenced by Kierkegaard
Unamuno, Berdyaev, Marcel C. A. Longhurst, 2021-10-01 This book seeks to examine the mutual interplay between existentialism and Christian belief as seen through the work of three existentialist thinkers who were also committed Christians a Spaniard Miguel de Unamuno a Russian Nikolai Berdyaev and a Frenchman Gabriel Marcel They are compared with each other and with leading non-religious existentialists The major themes studied include reason freedom the self belief hope love suffering and immortality

Existential Theology Hue Woodson, 2020-09-29 Existential Theology An Introduction offers a formalized and comprehensive examination of the field of existential theology in order to distinguish it as a unique field of study and view it as a measured synthesis of the concerns of Christian existentialism Christian humanism and Christian philosophy with the preoccupations of proper existentialism and a series of unfolding themes from Augustine to Kierkegaard To do this Existential Theology attends to the field through the exploration of genres the European traditions in French Russian and German schools of thought counter traditions in liberation feminist and womanist approaches and postmodern traditions located in anthropological political and ethical approaches While the cultural contexts inform how each of the selected philosopher theologians present genres of existential theology other unique genres are examined in theoretical and philosophical contexts particularly through a selected set of theologians philosophers thinkers and theorists that are not generally categorized theologically By assessing existential theology through how it manifests itself in genres this book brings together lesser known figures well known thinkers and figures that are not generally viewed as existential theologians to form a focused understanding of the question of the meaning of existential theology and what existential theology looks like in its varying forms

The Christology of John Macquarrie Vernon L. Purdy, 2009 The Christology of John Macquarrie comprehensively scrutinizes the life and writings of Scottish born systematic theologian and philosopher John Macquarrie 1919 2007 in an attempt to comprehend and evaluate his Christology The author examines the people e g Heidegger Schleiermacher the philosophical and theological positions and the writings that formed Macquarrie s thinking One major influence was his commitment to modern critical theology including the premise that in the modern world the only acceptable Christological tenets are those that can stand up to the scrutiny of modern critical reasoning The work concludes that this commitment profoundly shaped Macquarrie s theology especially his Christology The book also discusses Macquarrie s evaluation and criticisms of the Christology of other theologians e g Kierkegaard Moltmann Pannenberg and others concluding that Macquarrie s understanding of the Christian faith and the person of Jesus Christ is consonant with modern liberal Anglo Catholicism This idea furthers the argument that Macquarrie s reluctance to accept traditional incarnational categories suggests that his Christology is a modern form of Adoptionism

From Phenomenology to Existentialism Dov Schwartz, 2012-12-03 Rabbi Joseph B Soloveitchik s philosophy plays a significant role in twentieth century Jewish thought This book focuses on the first and the second stages of Soloveitchik s philosophy 1945 1965 through a systematic and detailed discussion of some of his essays including From There You Shall Seek and The Lonely Man of Faith Schwartz analyzes these essays according to this thesis in the mid 40s Soloveitchik used the phenomenology of religion to express his views while in the 50s he added the existential theory

Astrobiology and Christian Doctrine Andrew Davison, 2023-07-06 In recent decades powerful telescopes have enabled astrophysicists to uncover startling new worlds and solar systems An epochal moment came in 1995 when a planet 51 Pegasi b was located orbiting a star other than our own

sun Since then thousands of new planets have followed and the question of life beyond earth has become one of the principal topics in discussions between science and religion Attention to this topic has a long history in Christian theology but has rarely been pursued at any depth Writing with both passion and precision Andrew Davison brings his extensive knowledge of Christian thought to bear drawing particularly on the thought of Thomas Aquinas as well as his training as a scientist No book to date better prepares the Christian community for responding to evidence of other life if it is found And yet we do not need to wait for that to have happened before this book shows its worth In thinking about planets creatures and ecosystems beyond our planet Davison already reinvigorates our theology for the earth *The Philosophical Frontiers of Christian Theology* Donald MacKenzie MacKinnon,1982 This book charts some of the frontiers which are of most concern in contemporary discussion regarding the borderlands between theology and philosophy **Heideggerian Theologies** Hue Woodson,2018-11-27 In light of Martin Heidegger s contextualized influence upon them John Macquarrie Rudolf Bultmann Paul Tillich and Karl Rahner engage in theologies that in their respective tasks and scopes venture into existential theology following Heideggerian pathmarks toward the primordially of being on the way to unconcealment or aletheia By way of each pathmark each existential theologian assumes a specific theological stance that utilizes a decidedly existential lens While the former certainly grounds them fundamentally in a kind of theology the latter by way of Heideggerian influences allows them to venture beyond any traditional theological framework with the use of philosophical suppositions and propositions In an effort at explaining the relationship between humanity s being and God s Being each existential theologian examines what it means to be human not strictly in terms of theology but as it is tied inextricably to an understanding of the philosophy of existence the concept of what being is [A Theologian's Guide to Heidegger](#) Hue Woodson,2019-08-30 A Theologian s Guide to Heidegger provides a uniquely theological introduction to the philosophy of Martin Heidegger by focusing on not just the relationship between Heidegger and theology or even the nature of the discourse that must occur between theological concerns and Heidegger s philosophical errands but by precisely exploring how theology can use Heidegger s philosophy as a means of outlining the scope and task of postmodern theology To do this especially with the postmodern theologian in mind this book considers the general relationship between Heidegger and theology how Heidegger can be read theologically while justifying why Heidegger must be read this way and defining the role that Heidegger must take in postmodern theology This includes a careful consideration of Heidegger s early theological roots from Freiburg to Marburg by examining the content of Heidegger s lesser known theologically minded seminars lectures and talks *Theology as Repetition* Stephen Foster,2020-01-01 *Theology as Repetition* revisits and argues for a revival of John Macquarrie s philosophical theology Macquarrie was a key twentieth century theological voice and was considered a foremost interpreter and translator of Martin Heidegger s philosophy He then somehow fell from view Macquarrie developed a new style of theology grounded in a dialectical phenomenology that is a relevant voice in responding to recent trends in theology The development of the book is

partly chronological and partly thematic and avoids attempting to be either deductive or inductive in argument but rather reflects Macquarrie's phenomenologically styled new theology. Theology as Repetition is set out in two parts. The first part situates Macquarrie in relation to thinkers from the radical theology of the 1960s through to the postmodernists of the late twentieth century. The second part explores the intersection of key themes in Macquarrie's theology with the thinking of Kant, Hegel, Heidegger and representative postsecular and postmodern figures including but not limited to Emmanuel, Levinas, Jacques Derrida and Jean-Luc Marion.

Christianity and Confucianism Christopher Hancock, 2020-12-10. Christianity and Confucianism: Culture, Faith and Politics sets comparative textual analysis against the backdrop of 2000 years of cultural, political and religious interaction between China and the West. As the world responds to China's rise and China positions herself for global engagement, this major new study reawakens and revises an ancient conversation. As a generous introduction to biblical Christianity and the Confucian Classics, Christianity and Confucianism tells a remarkable story of mutual formation and cultural indebtedness. East and West are shown to have shaped the mind, heart, culture, philosophy and politics of the other and far more perhaps than either knows or would want to admit. Christopher Hancock has provided a rich and stimulating resource for scholars and students, diplomats and social scientists, devotees of culture and those who pursue wisdom and peace today.

Kierkegaard's International Reception: The Near East, Asia, Australia and the Americas Jon Stewart, 2008-06-01. Although Kierkegaard's reception was initially more or less limited to Scandinavia, it has for a long time now been a highly international affair. As his writings became translated into the different languages, his reputation spread and he became read more and more by people increasingly distant from his native Denmark. While in Scandinavia the attack on the Church in the last years of his life became something of a cause célèbre, later many different aspects of his work became the object of serious scholarly investigation well beyond the original northern borders. As his reputation grew, he was co-opted by a number of different philosophical and religious movements in different contexts throughout the world. The three tomes of the present volume attempt to record the history of this reception according to national and linguistic categories. Tome III is the most geographically diverse, covering the Near East, Asia, Australia and the Americas. The section on the Near East features pioneering articles on the Kierkegaard reception in Israel, Turkey, Iran and the Arab world. The next section, dubbed Asia and Australia, features articles on the long and rich traditions of Kierkegaard research in Japan and Korea, along with the more recent ones in China and Australia. A final section is dedicated to the Americas with articles on Canada, the United States, hispanophone South America, Mexico and Brazil.

The Resurrection Effect: Transforming Christian Life and Thought Kelly, Anthony J., 2014-04-10. What difference should the resurrection of the crucified Jesus make to Christian thought, to our sense of the cosmos and our understanding of humanity itself? Despite the centrality of the resurrection in the New Testament and the Creed, the practical answer of many Christians might be not much. In this light, Anthony Kelly sets out to affirm the resurrection as the living center of Christian life and the basis for its theological methods.

and themes Without the resurrection he writes hope would be a repressive optimism or an accommodation to routine despair Acknowledging that the resurrection like a work of art eludes any single point of view Kelly shows why it remains the key to Gods relationship to Jesus and ourselves the most critical horizon from which to grasp the meaning and pattern of life and the basis of our ultimate hopes American Literary Criticism Since the 1930s Vincent B.
