Illuminations by Philo of Alexandria: Selected Studies on Interpretation in Philo, Paul and the Revelation of John Peder Borgen, 2021-05-25 This volume contains a collection of 17 essays on Philo written by Peder Borgen between 1987 and 2018 The first six studies deal with important issues in Philo s religious thought and social world such as his views on Flaccus prayers and his eschatology The next five essays illustrate how an understanding of Philo can contribute to the interpretation of Paul especially his Letter to the Galatians The final six studies deal with the importance of Philo s writings for the interpretation of the Revelation of John a subject too rarely touched upon in recent scholarship **Studies in Romans - Part 1** Jack Cottrell, 2021-03-22 My purpose for writing and publishing this material in book form is the same as for producing my two previous books of this nature Studies in First Peter and Studies in Ephesians both by The CRA 2017 and that is my intention for this volume You can use it to deepen your own understanding of this section of the Bible or you can use it to teach a group larger than just yourself I am hoping you will start with the former and then proceed to the latter This

book is especially designed as a teaching guide in that I decided to maintain the outline form of the contents which seems to lend itself more to the purpose of teaching For those who will be using this book to lead a group study I will offer these suggestions I recommend first that as you prepare to teach a lesson you should first try to read the material on that section of Scripture that is given in my College Press commentary on Romans Second do not think that you have to cover a whole lesson in just one teaching session Take your time as you teach and lead a discussion on the material It usually took me two or three sessions or more to cover one lesson Three consider recommending that each student in your group acquire a copy of the book so that he or she can follow along as you explain and apply the outlines point by point This is one reason why I left these lessons in their original outline form
