

# HUMANISM

Humanism is a philosophy that believes human welfare and flourishing are the most important philosophical concerns.

## ORIGINS

Humanism has its roots in ancient Greek philosophy. Pre-socratic philosophers were the first to explain the world in terms of human reason and natural law, without relying on divine forces (Law, 2011).

This is best expressed in Protagoras' dictum: "man is the measure of all things".

## KEY IDEAS

- Belief in the Good in all Humans
- Holistic Wellbeing and Flourishing
- Universal Human Rights
- Scientific and Critical Thinking
- Empathy, Compassion, and Kindness
- Embracing Diversity and Pluralism
- Appreciation for Art and Culture
- Global Citizenship

Studies in Humanism Ferdinand Canning Scott Schiller, 1913      **Studies in Humanism. 1912** Ferdinand Canning Scott Schiller, 1970      *Posthumanism and Educational Research* Nathan Snaza, John Weaver, 2014-09-25 Focusing on the interdependence between human animal and machine posthumanism redefines the meaning of the human being previously assumed in knowledge production This movement challenges some of the most foundational concepts in educational theory and has implications within educational research curriculum design and pedagogical interactions In this volume a group of international contributors use posthumanist theory to present new modes of institutional collaboration and pedagogical practice They position posthumanism as a comprehensive theoretical project with connections to philosophy animal studies environmentalism feminism biology queer theory and cognition Researchers and scholars in curriculum studies and philosophy of education will benefit from the new research agendas presented by posthumanism      **Proceedings of the Aristotelian Society for the Systematic Study of Philosophy** Aristotelian Society (Great Britain), 1909 List of members in each volume      *Studies in Renaissance Humanism and Politics* Robert Black, 2023-05-31 The fifteen articles republished here exemplify the many directions Robert Black's research in Renaissance studies has taken The first five studies look at Renaissance humanism in particular at its origins and the concept of the Renaissance as well as the theory and practice of historical writing Black also updates his monograph on the Florentine chancellor Benedetto Accolti Machiavelli is the subject of three articles focusing on his education and career in the Florentine chancery Next come Black's seminal studies of Arezzo under Florentine rule revealing the triangular relationship between centre periphery and the Medici family Finally two articles on political thought examine the relative merits of monarchical and republican government for political thinkers on both sides of the Alps      **Studies in Humanism** Fcs Schiller, 2017-08-24 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant      *The New Universe* Baker Brownell, 1926      **Renaissance Humanism** Ernesto Grassi, 1988      *Proceedings of the Aristotelian Society*, 1909      Pragmatism and the Problem of the Idea John Thomas

Driscoll,1915      **Humanistic Pragmatism** Ferdinand Canning Scott Schiller,1966      **The Georgetown Companion to Interreligious Studies** Lucinda Mosher,2022 The Georgetown Companion to Interreligious Studies is a comprehensive authoritative creative and cutting edge anthology of fifty essays that taken as a group provide insight into and food for further thought about sub categories of a field of academic inquiry that has developed rapidly in recent decades

Interreligious Studies is an academic field in which scholars deliberately draw on at least one other religion in addition to their home tradition when reflecting on worldview questions an arena in which at least one religious discourse is involved with some other discourse Hence Interreligious Studies is inherently multi disciplinary bringing together the study of religion s with methodologies from the fields of anthropology sociology psychology political science history women s studies ecology and more Interreligious Studies gives pride of place to relational intersectional and dialogical approaches as it seeks theoretical and practical insights through the examination of how religions relate to each other to their own internal diversity to various social systems to society at large A recent assessment of Interreligious Studies programs in universities and theological schools indicates that they make wide but not exclusive use of comparative and critical methods that their purposes include cultivation of religious literacy promotion of dialogue fostering of citizenship and professional preparation for leadership in multireligious contexts

**Writing Posthumanism, Posthuman Writing** Sidney I. Dobrin,2015-05-01 Writing Posthumanism Posthuman Writing is designed to spark conversation It is intended to highlight the growing importance of posthumanist approaches to writing studies and in doing so works to solidify the importance of such work to the future of writing studies Its organizational structure length and approach serve this agenda working as much to encourage a growing conversation as it does to provide substantial original work from which such conversations might emerge The thirteen original essays that comprise Writing Posthumanism Posthuman Writing are organized to provide a progression from articles that introduce theoretical concepts regarding the intersections of posthumanism and writing to works that examine specific contexts as vehicles for developing posthumanist theories

*Studies in Humanism* John William Mackail,1938      **Cultural Studies - The Basics** Jeff Lewis,2002-06-03 To say that the scope of the book s coverage is wide ranging would be an under statement Few texts come to mind that have attempted such a thorough overview of the central tenets of cultural studies Stuart Allan University of West of England This is a book for anyone who wants an unfussy authoritative critical introduction to Cultural Studies It equips you with all that you need to know about theories of cultural studies what they say how they differ from one another and what are the strengths and weaknesses of each position It provides biographical information on major theorists plus assessments of key texts Unlike other competing books in the field Cultural Studies The Basics demonstrates what a Cultural Studies approach can do to illuminate basic areas of contemporary culture Included are chapters on Feminism The Body Cultural Space Communications Technology Cultural Policy Language and Culture The book is designed to be used and read by students who face the pressures of essay dead lines examinations

and dissertations Above all it approaches Cultural Studies as something that needs to be used as well as studied **Literary into Cultural Studies** Antony Easthope,2003-09-02 Modern Literary study was founded on an opposition between the canon and its other popular culture The theory wars of the 1970s and the 1980s and in particular the advent of structuralist and post structuralist theory transformed this relationship With the death of literature the distinction between high and popular culture was no longer tenable and the field of inquiry shifted from literary into cultural studies Anthony Easthope argues that this new discipline must find a methodological consensus for its analysis of canonical and popular texts Through a detailed criticism of competing theories British cultural studies New Historicism cultural materialism he shows how this new study should and should not be done Easthope s exploration of the problems possibilities and politics of this new discipline includes an original reassessment of the question of literary value By contrasting Conrad s Heart of Darkness with Burrough s Tarzan of the Apes Easthope demonstrates how textuality sustains the opposition between high and popular culture darkness

**Jesuit Biblical Studies after Trent** Luke Murray,2019-08-12 In the field of biblical hermeneutics one area which scholarship has neglected is Catholic biblical scholarship during the early modern era A brief look through a standard textbook on hermeneutics reveals the all too common jump from Luther Calvin and the other Reformers straight to Spinoza and the pioneers of the historical critical method Catholic figures during the Reformation and afterward are often considered too reliant on tradition too entrenched in dogmatic disputes and too ignorant of historical methods to be taken as serious scholars of Scripture In this timely work Dr Murray addresses these misconceptions and systematically shows why they are inadequate and a more nuanced judgment is needed Beginning with a much needed overview of contemporary scholarship the work examines the historical context and key influences on the Catholic approach to the Bible After addressing the Council of Trent and the Jesuit Order it then examines two influential Jesuit biblical scholars in the next two chapters the Spanish Cardinal Franciscus Toletus 1532 1596 and the great Flemish exegete Cornelius a Lapide 1567 1637 Dr Murray examines the life works secondary literature and biblical hermeneutics of both great scholars showing that Catholics just like their Reformed brethren could be serious and quality exegetes While they lacked the historical knowledge and tools of today the work shows that the Jesuits were pioneers in showing how their faith and devotion could be compatible with a historical and scientific study of Scripture Jesuit Biblical Studies After Trent is a must read for those seeking to understand how Catholics were approaching the Bible after the Reformation and for those seeking to learn how to integrate their personal faith with a scientific study of Scripture Interreligious Studies Oddbjørn Leirvik,2014-02-13 The notion of Interreligious

Studies signals a new academic perspective on the study of religion characterized by a relational approach Interreligious Studies defines the essential features of interreligious studies compared with alternative conceptions of religious studies and theology The book discusses pressing and salient challenges in interreligious relations including interreligious dialogue in practice and theory interfaith dialogue and secularity confrontational identity politics faith based diplomacy the question of

interfaith learning in school and interreligious responses to extremism *Interreligious Studies* is a cutting edge study from one of the most important voices in Europe in the field Oddbjørn Leirvik and includes case study material from his native Norway including interreligious responses to the bomb attack in Norway on 22nd July 2011 as well as examples from a number of other national and global contexts Expanding discussions on interreligious dialogue and the relationship between religions in new and interesting ways this book is a much needed addition to the growing literature on interreligious studies
