## THE TOPOGRAPHY OF GREECE

W. KENDRICK PRITCHETT: *Studies in Ancient Greek Topography*. (Part VIII.) Pp. xxi + 163; 116 plates, 2 figs. Amsterdam: J. C. Gieben, 1992. Paper, fl. 145.

This work starts with the announcement that it 'will probably be the last volume in the series of topographical studies' (p. ix). As a result the Introduction restates the agenda for the series and discusses some of the issues which have been raised. There is a re-examination of the site of the battle of Plataiai (pp. xi–xiv) and a discussion of deforestation and alluviation (pp. xiv–xxi).

Most of the book relates to north-west Greece, and chapter 1 is a discussion of problems relating to Demosthenes' Amphilochian campaign in 426 B.C. and recorded by Thucydides (3.105–13) (pp. 1–78). The starting point for P. was N. G. L. Hammond's ('The campaigns in Amphilochia during the Archidamian War', *BSA* 37 [1936/7], 139) claim that Thucydides 'had not visited this area but based his account on hearsay'. The study moves from the southern tip of the Ambrakian Gulf at Limnaia (identified with Karvassaras) up the coast to Idomenai; there are nine distinct toponyms or routes discussed. P. rejects Hammond's reconstruction of Eurylochos' route, which was based on a march during the War of Independence. Argos is identified with Paliavli (apparently whence Leake acquired coins of the city), a site previously associated with Krenia, which is now located further to the east at the foot of the mountains at Neochori. Olpai is located at Agrilovouni. He disagrees with Hammond (*BSA* 37, 130), who suggested that the route to Idomenai was along the ridge rather than along the coast. P. draws attention to forts on the coast at Hellenikouli and Agriliai which show that the coastal route was worth defending. The chapter concludes with a résumé of the campaign which discusses *inter alia* the use of omens before joining battle (pp. 58–60), the calendar (pp. 55–7 n. 60), the space taken up by a phalanx (pp. 64–5), the level of booty (pp. 73–6) and the impact of troop losses by the Ambrakiots (pp. 76–7). The chapter concludes with quotes from Gomme and Kagan (p. 77) supporting P.'s case that Thucydides did write as an eye-witness.

Chapter 2 discusses sites in northeastern Akarnania, especially in the light of S. Miller, 'The theorodokoi of the Nemean Games', *Hesperia* 57 (1988), 147–64. Six named cities are discussed, with an additional two unnamed. The discussion accepts that the theorodokoi list has the cities in the order that they were visited. Much attention is given to the identification of Thyrraeion (pp. 85–90), a city visited by Cicero (see *ad Fam.* 16.5.1). Herakleia (linked by Pliny, *NH* 4.1.4–5 with Echinus) is located at Bonitsa, a suggestion first made by Leake (p. 98). P. links the gold *phiale* dedicated at Olympia by the sons of Kypselos from the booty of Herakleia (and now in Boston) to this location (pp. 100–1).

Chapter 3, 'Akarnanian Walls and Scaling-ladders', turns into an examination of F. E. Winter's methodology in *Greek Fortifications* (Toronto, 1971) with particular reference to four Akarnanian sites: Limnaia, Palairos, Stratos and Oiniadai. Walls

## Enjoying the Tune of Phrase: An Mental Symphony within **Studies In Ancient Greek Topography Part Viii**

In a global consumed by screens and the ceaseless chatter of quick interaction, the melodic elegance and psychological symphony developed by the written term usually disappear in to the backdrop, eclipsed by the relentless sound and distractions that permeate our lives. However, situated within the pages of **Studies In Ancient Greek Topography Part Viii** a charming fictional value full of raw thoughts, lies an immersive symphony waiting to be embraced. Constructed by an outstanding musician of language, that fascinating masterpiece conducts readers on a psychological journey, well unraveling the concealed songs and profound impact resonating within each cautiously crafted phrase. Within the depths with this moving assessment, we will explore the book is main harmonies, analyze their enthralling publishing model, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
