Defines the distinctive field of Jewish cultural studies and its basis in folkloristic psychological and ethnological approaches Jewish Cultural Studies charts the contours and boundaries of Jewish cultural studies and the issues of Jewish culture that make it so intriguing and necessary not only for Jews but also for students of identity ethnicity and diversity generally In addition to framing the distinguishing features of Jewish culture and the ways it has been studied and often misrepresented and maligned Simon J Bronner presents several case studies using ethnography folkloristic interpretation and rhetorical analysis Bronner building on many years of global cultural exploration locates patterns processes frames and themes of events and actions identified as Jewish to discern what makes them appear Jewish and why Jewish Cultural Studies is divided into three parts Part 1 deals with the conceptualization of how Jews in complex heterogeneous societies identify themselves as a cultural group to non Jews and vice versa such as how the Jewish home is socially and materially constructed Part 2 delves into ritualization as a strategic Jewish practice for perpetuating peoplehood and the values that it suggests for example the rising popularity of naming ceremonies for newborn girls simhat bat or zeved habat in the twenty first century Part 3 explores narration including the global transformation of Jewish joking in online settings and the role of Jews in American political culture Bronner reflects that a reason to separate Jewish cultural studies from the fields of Jewish studies and cultural studies is the distinctiveness of Jewish culture among other ethnic experiences As a diasporic group with religious ties and varying local customs Jews present difficulties of categorization He encourages a multiperspectival approach that considers the Jewish double consciousness as being aware of both insider and outsider perspectives participation in ancient tradition and recent modernization and the great variety and stigmatization of Jewish experience and cultural expression Students and scholars in Jewish studies cultural studies ethnic religious studies folklore sociology psychology and ethnology are the intended audience for this book
