Raven McDavid died on the morning of October 21, 1984, of a heart attack. He had been a heart patient for several years, but had carried on his work with unabated zest in spite of physical limitations. Besides his wife, Virginia, he leaves his grown children, a daughter and three sons, as well as a daughter by a previous marriage.

Raven was born in Greenville, South Carolina, of an old Southern family, and educated in the local schools. He received his A.B. degree from Furman University in 1931; his M.A. and Ph.D. degrees from Duke University. His dissertation, under the direction of Sir Allan Gilbert, was completed in 1935. In the summer of 1937, while Raven was pursuing further graduate studies at the University of Michigan, Bernard Bloch, a highly-skilled interviewer and phonetician, chose him as an informant to demonstrate field method techniques to his dialectology class. The interview was such a success that it became part of the permanent South Carolina materials. As a result of this experience, Raven decided then and there to make dialectology his life's work. He prepared himself formally by attending several Linguistic Institutes, and also by post-doctoral study at the University of Michigan and at Yale.

The 1930s was an exciting time to enter the field of linguistics, for in that decade it was being established as a scientific discipline in its own right. Anthropologists were refining the methodology of investigating unwritten languages; language history was being rewritten; and the study of the language of common people was being taken seriously. Large projects in English linguistics were initiated: among others, *The Middle English Dictionary* (Kurath, Kuhn et al. 1952-); the Fries collection of War Department correspondence, which formed the basis for comparing language practices of three distinct social classes (Fries 1940); and the Linguistic Atlas of the United States and Canada. By the end of the decade, publication of *The Linguistic Atlas of New England* had been started (LANE; Kurath et al. 1939, 1939-43); Guy S. Lowman, a full-time field worker, had covered much of the Atlantic seaboard, from

Studies In Linguistics In Honor Of Raven I McDavid Jr:

Studies in Linguistics in Honor of Raven I. McDavid, Jr Raven Ioor McDavid, 1972 **New-Dialect Formation in Canada** Stefan Dollinger, 2008-01-15 This book details the development of eleven modal auxiliaries in late 18th and 19th century Canadian English in a framework of new dialect formation. The study assesses features of the modal auxiliaries tracing influences to British and American input varieties, parallel developments or Canadian innovations. The findings are based on the Corpus of Early Ontario English pre Confederation, the first electronic corpus of early Canadian English. The data, which are drawn from newspapers, diaries, and letters, include original transcriptions from manuscript sources and texts from semi-literate writers. While the overall results are generally coherent with new dialect formation theory, the Ontario context suggests a number of adaptations to the current model. In addition to its general Late Modern English focus, *New Dialect Formation in Canada* traces changes in epistemic modal functions up to the present day, offering answers to the loss of root uses in the central modals. By comparing Canadian with British and American data, important theoretical insights on the origins of the variety are gained. The study offers a sociohistorical perspective on a still understudied variety of North American English by combining language internal features with settlement history in this first monograph-length diachronic treatment of Canadian English in real time. A Beowulf Handbook Robert E. Bjork, John D. Niles, 1997-01-01 The most revered work composed in Old English, *Beowulf* is one of the landmarks of European literature. This handbook supplies a wealth of insights into all major aspects of this wondrous poem and its scholarly tradition. Each chapter provides a history of the scholarly interest in a particular topic, a synthesis of present knowledge and opinion, and an analysis of scholarly work that remains to be done. Written to accommodate the needs of a broad audience, *A Beowulf Handbook* will be of value to nonspecialists who wish simply to read and enjoy *Beowulf* and to scholars at work on their own research. In its clear and comprehensive treatment of the poem and its scholarship, this book will prove an indispensable guide to readers and specialists for many years to come. **English in the Southern United States** Stephen J. Nagle, Sara L. Sanders, 2003-01-09 The English of the southern United States is possibly the most studied of any regional variety of any language because of its rich internal diversity, its distinctiveness among regional varieties in the United States, its significance as a marker of regional identity, and the general folkloric appeal of southern culture. However, most if not all books about Southern American English have been directed almost exclusively toward scholars already working in the field. This 2003 volume, written by a team of experts, many of them internationally known, provides a broad overview of the foundations of and research on language variation in the southern United States, designed to invite inquiry and inquirers. It explores historical and cultural elements, iconic contemporary features, and changes in progress. Central themes, issues, and topics of scholarly investigation and debate figure prominently throughout the volume. The extensive bibliography will facilitate continued research. North Carolina English, 1861-1865 Michael E. Ellis, 2024-01-12 In *North Carolina English 1861-1865* Michael E. Ellis offers an Oxford English Dictionary like take on regional language based on more than two thousand letters and diaries composed by North Carolinians during the Civil War These documents are part of a larger project the Corpus of American Civil War Letters CACWL aimed at locating photographing and transcribing letters written during the period from all parts of the country With little formal education the correspondents were men and women who wrote by ear often reproducing their spoken language through unconventional spellings and grammatical forms as well as regional or archaic words and usages The core of the book is an alphabetically arranged glossary of words and expressions characteristic of mid nineteenth century North Carolina each containing excerpts from the letters themselves to illustrate meaning and usage While the majority of the writers were Confederate soldiers and their family members the collection also includes letters from slaves former slaves and African Americans from North Carolina serving in the Union Army The soldiers letters rarely contain details about battles except to list the names of relatives or neighbors among the killed or wounded After a battle a soldier might simply write the Like of ded men an horses I never saw before or we hav lost a heap of men and kild a heap of yankeys As Joel Howard of Lincoln County wrote home in June 1863 I have bin in the ware and Saw the ware and heard tell of the ware till I have got tired of it if I Could get clear of this ware I neve r want to Read of A nother Food is perhaps the most common topic followed by illness Numerous terms relate to farming clothing religion and the effects of the war itself as well as entries for expressions that have long since disappeared from American English in the gants on the goose and up the spout In addition to the glossary Ellis offers an extensive overview of North Carolina English of the period delves into the social background of the letter writers and provides invaluable guidance to the ways in which Civil War letters should be read A unique window into a largely neglected corner of our extraordinarily rich and regionally distinct language this volume will prove an indispensable reference for scholars and students seeking to reconstruct the world of the common Civil War soldier
