Studies In Platonism And Patristic Thought Variorum Collected Studies:

Studies in Platonism and Patristic Thought John Whittaker, 1984 The Middle Platonic tradition forms the main focus of these studies many of which derive from Professor Whittaker's work on the writings of Alcinous formerly attributed to Albinus and their place and importance in that tradition He follows the transmission of different texts and the development of the commentaries upon them from Classical times through the Byzantine world up to the Renaissance and beyond Most of the articles however deal with the evolution of Platonic thought in the first centuries A D its interaction with other schools of thought such as Neopythagoreanism and the influence of Hellenistic philosophy upon the growth of Early Christian thought and theology Additional notes and references have now been supplied Platonism Pagan and Christian Gerard O'Daly, 2019-07-30 This title was first published in 2001 A collection of fifteen studies which explore topics in the psychology and philosophy of mind of Plotinus Augustine and Boethius as well as the development of Augustine's views on history and Roman religion Studies in Later Greek Philosophy and Gnosticism Jaap Mansfeld, 2024-12-11 It is a curious fact that many of the sources for the Presocratic and Stoic philosophers are early Christian authors similarly one can even find an echo of Parmenides in a Gnostic treatise from Nag Hammadi Such writers were often dependent for their knowledge on a whole chain of previous interpretations and traditions and it is these with which Professor Mansfeld is here largely concerned He has tried to discover what in an earlier writer Plato and Aristotle of course as well as the Early Greeks was of interest to a later one notably the Middle Platonists These articles demonstrate the value of such an approach showing how a familiarity with the later history of an idea say in a Gnostic text can contribute to the understanding of the idea itself or how the study of the selection of ideas used by Philo for instance not only sheds light on his own projects but also helps explain why some motifs survived and not others and why philosophical thought took the directions it did **Philo and the Church Fathers** Douwe (David) Runia, 2015-12-22 The extensive writings of the Jewish philosopher and exegete Philo of Alexandria 15 BCE to 50 CE were preserved through the efforts of early Christians who decided that these works could assist them in developing their own distinctive kind of thought The present collection of papers written from 1989 to 1994 is published as a companion volume to the author's monograph *Philo in Early Christian Literature A Survey* 1993 The papers deal with various aspects of the process of reception that Philo received at the hands of the Church Fathers Authors who are given particular attention are Athenagoras Clement Origen Basil Gregory of Nyssa Isidore of Pelusium and Augustine The papers also include a hitherto unpublished English translation of the author's inaugural lecture held at Utrecht in April 1992 **Plato's Third Eye** Michael J.B. Allen, 2024-10-28 Marsilio Ficino 1433-1499 was one of the luminaries of the Florentine Renaissance and the scholar responsible for the revival of Platonism The translator and interpreter of the works of both Plato and Plotinus as well as of various Hermetic and Neoplatonic texts Ficino was also a musician priest magus and psychotherapist an original philosopher and the author of a vast and important correspondence with the intellectual figures of his day including Lorenzo

the Magnificent Professor Allen has become the foremost interpreter of Ficino's metaphysics and mythology and the ancient sources they draw upon and this collection of essays assembles his work on Ficino's complex interrogation of Platonic theology as not only a preparation for Christianity but as an enduring medium for intellectuals to explore and to express Christian truths

Métaphysique d'Ibn Gabirol et de la tradition platonicienne Fernand Brunner, 2024-10-28 Early in his career Fernand Brunner became one of the few specialists on Ibn Gabirol a Jewish philosopher and poet in 11th century Spain whose treatise the Fons vitae is known only in Latin translation Brunner showed the coherence of this rarely studied version of Platonism and traced its impact on the scholastic philosophy of the succeeding centuries His work was guided by a systematic interest in Platonic solutions to such problems as the relations of matter and form and of God to the world This volume includes a number of previously unpublished papers several of which also provide broad expositions of a Platonic ontology The author makes his reader aware that arguments as well as images must be taken seriously in the attempt to approach the Platonic tradition

D's le d but de sa carri re Fernand Brunner est rapidement devenu l'un des rares spécialistes d'Ibn Gabirol le poète philosophe juif espagnol du 11e siècle dont le traité le Fons vitæ n'est connu qu'en version latine Guidé dans ses recherches par un intérêt systématique pour les solutions platoniciennes aux problèmes des rapports entre la forme et la matière et entre Dieu et le monde Brunner a démontré la cohérence de cette interprétation rarement étudiée du platonisme et en a retracé l'effet sur la philosophie scolastique des siècles suivants Ce volume comprend plusieurs exposés inédits traitant de l'ontologie platonicienne dont la compréhension selon Brunner est essentielle tout historien de la philosophie L'auteur fait prendre conscience ses lecteurs de l'importance des arguments tout comme des métaphores dans toute tentative d'approche de la tradition platonique

Two Aristotelians of the Italian Renaissance Edward P. Mahoney, 2024-10-28 This volume deals with the psychological metaphysical and scientific ideas of two major and influential Aristotelian philosophers of the Italian Renaissance Nicoletto Vernia d. 1499 and Agostino Nifo ca. 1470-1538 whose careers must be seen as interrelated Both began by holding Averroes to be the true interpreter of Aristotle's thought but were influenced by the work of humanists such as Ermolao Barbaro though to a different degree Translations of the Greek commentators on Aristotle Alexander of Aphrodisias Themistius and Simplicius provided them with new material and new ways of understanding Aristotle Nifo even put himself to learning Greek and led them to abandon Averroes especially as regards his views on the soul and intellect Nevertheless both Vernia and Nifo engaged seriously with the thought of medieval scholars such as Albert the Great Thomas Aquinas and John of Jandun Both also showed interest in their celebrated contemporary Marsilio Ficino

What Happened to the Ancient Library of Alexandria? Mostafa El-Abbadi, Omnia Fathallah, Ismail Serageldin, 2008-02-28 In adopting the theme of What Happened to the Ancient Library of Alexandria this book aims at presenting afresh a highly specialized discussion of primary sources

related to the diverse aspects and episodes of that long disputed question The book covers a wide range of topics beginning with an initial presentation of different Ancient Egyptian types of library institutions with a special focus on the later Coptic Nag Hamadi Library It then deals with the troubled times under later Ptolemies and Romans when the Royal Library the Daughter Library and the Mouseion came under a succession of threats Caesar's Alexandrian War in 48 B C and during the tragic developments in the third and fourth centuries which ultimately culminated in the destruction of the Serapeum that housed the Daughter Library A discussion of the intellectual milieu during the fourth and fifth centuries follows as well as the conflicting attitudes within the Church with regard to classical learning An analysis of historical and new archaeological evidence confirms the fact that Alexandria continued to be a city of books and scholarship centuries after the destruction of the Library Finally the late medieval Arab story of the destruction of the Library by order of Caliph Omar is fully considered and refuted through textual analysis of the original sources Contributors include William J Cherf Dimitar Y Dimitrov Maria Dzielska Mostafa A El Abbadi Jean Yves Empereur Fayza M Haikal Georges Leroux Bernard Lewis Grzegorz Majcherek Mounir H Megally Birger A Pearson Lucien X Polastron Qassem Abdou Qassem and Ismail Serageldin

Lies, Language and Logic in the Late Middle Ages Paul Vincent Spade, 2024-10-28 This sentence is false is that true The Liar paradox embodied in those words exerted a particular fascination on the logicians of the Western later Middle Ages and along with similar insoluble problems forms the subject of the first group of articles in this volume In the following parts Professor Spade turns to medieval semantic theory views on the relationship between language and thought and to a study of one particular genre of disputation that known as obligationes The focus is on the Oxford scholastics of the first half of the 14th century and it is the name of William of Ockham which dominates these pages a thinker with whom Professor Spade finds himself in considerable philosophical sympathy and whose work on logic and semantic theory has a depth and richness that have not always been sufficiently appreciated

The Platonic Heritage John Dillon, 2018-02-06 This third collection of articles by John Dillon covers the period 1996-2006 the decade since the appearance of The Great Tradition Once again the subjects covered range from Plato himself and the Old Academy through Philo and Middle Platonism to the Neoplatonists and beyond Particular concerns evidenced in the papers are the continuities in the Platonic tradition and the setting of philosophers in their social and cultural contexts while at the same time teasing out the philosophical implications of particular texts Such topics are addressed as atomism in the Old Academy Philo's concept of immateriality Plutarch's and Julian's views on theology and peculiar features of Iamblichus exegeses of Plato and Aristotle but also the broader questions of the social position of the philosopher in second century A D society and the nature of ancient biography

Basil of Caesarea Philip Rousseau, 2023-09-01 Basil of Caesarea is thought of most often as an opponent of heresy and a pioneer of monastic life in the eastern church In this new biographical study however controversy is no longer seen as the central preoccupation of his life nor are his ascetic initiatives viewed as separable from his pastoral concern for all Christians Basil's

letters sermons and theological treatises together with the testimonies of his relatives and friends reveal a man beset by doubt He demanded loyalty but gave it also and made it a central feature of his church In Rousseau s portrait Basil s understanding of human nature emerges as his major legacy Basil of Caesarea is thought of most often as an opponent of heresy and a pioneer of monastic life in the eastern church In this new biographical study however controversy is no longer seen as the central preoccupation of his life nor are his ascetic i **Soul and Intellect** H.J. Blumenthal,2024-12-11 This book presents a series of Dr Blumenthal s studies on the history of Neoplatonism from its founder Plotinus to the end of Classical Antiquity relating especially to the Neoplatonists doctrines about the soul The work falls into two parts The first deals with Plotinus and considers the soul both as part of the structure of the universe and in its capacity as the basis of the individual s vital and cognitive functions The second part is concerned with the later history of Neoplatonism including its end Its main focus is the investigation of how Neoplatonic psychology was modified and developed by later philosophers in particular the commentators on Aristotle and used as the starting point for their Platonizing interpretations of his philosophy

Saint Bonaventure Jacques Guy Bougerol,2024-10-31 In the history of Christian thought St Bonaventure stands out as the pre eminent Franciscan philosopher of the 13th century and as a key figure in the development of the spiritual theology of the Church The four studies which constitute this volume present detailed investigations into some of the principal sources from which Bonaventure drew his inspiration from Antiquity through to St Bernard in the century before his own Proceeding from a careful analysis of the quotations he makes from these sources the studies make clear the precise extent and nature of their importance in Bonaventure s own thought and the manner in which he selected ideas and used them to serve his own purposes The first two pieces focus on the influence exerted by the Pseudo Dionysius in particular as concerns his notion of hierarchy this became a central and fertile theme in the work of the Franciscan Father Bougerol shows how Bonaventure interpreted and developed it in the process transforming it into a meditation on the relationship between man and God This emphasis also emerges in the third study on his attitude towards Aristotle which demonstrates Bonaventure s deliberate progress towards the elaboration of his spiritual theology The Golden Chain John Dillon,2024-12-11 This volume gathers together a series of widely scattered articles concerned with the great tradition of Platonic scholarship The Golden Chain from the time of Plato himself up into the period of Middle Platonism The main emphasis however is on the first three centuries AD The first articles address the question of what exactly was the nature of the Platonic school at various stages of its development and what kind of organization the Academy may have had The following ones present studies on figures from Speusippus in the Old Academy through Philo of Alexandria and Origen more honorary members of the Golden Chain to Plotinus Iamblichus and Proclus and on some more general issues such as the fall of the soul which span much of the period Dans ce volume sont rassemblés des articles jusque la tr s dispers s et qui traitent de la grande tradition du savoir platonicien la Cha ne d Or Sur une p riode allant de Platon au Moyen Platonisme et l av nement de la pens e chr tienne

Cependant l'accent est surtout mis sur les trois premières siècles ap J C Les premières articles s'attachent la nature exacte de l'Ecole platonicienne différents stades de son évolution et aussi à l'organisation adoptée par l'Académie Les études suivantes examinent différents personnages de Speusippe qui appartenait l'Ancienne Académie en passant par Philon d'Aleandrie et Origène membres semi honoraires de la Chaire d'Or jusqu'à Plotin Iamblique et Proclès y sont aussi traités des questions d'ordre plus général telles la chute de l'empire qui furent embrassées durant la majeure partie de cette période Byzantine Philosophy Basil Tatakis, Vasileios N. Tatakēs, Vasileios N. Tatakēs, 2003-01-01 Western studies tend to view Byzantine philosophy either as a minor offshoot of western European thought or a handy storehouse for documents and ideas until they are needed A scholar of philosophy Aristotle U of Thessaloniki Tatakis 1896 1996 finds the view limiting pointing out that during the Roman period few Greeks learned Latin but Romans were not considered educated without a grounding in Greek and that Byzantine Christianity has its own trajectory unconcerned with how it deviates from western orthodoxy Les Fins Dernières Selon Origène Henri Crouzel, 2024-10-28 This volume is concerned with the eschatology of Origen the great 3rd century theologian and philosopher of Alexandria Of all the doctrines attributed to him those on the resurrection of man and the end of days have evoked the most opposition and controversy from Antiquity to the Patristic scholarship of today Professor Crouzel argues that the thought of Origen himself has been consistently misunderstood and distorted from the time of Methodius of Olympia onwards and that renewed examination of Origen's own surviving writings can lead to a radically differing assessment of the orthodoxy of his views Among the particular points discussed are Origen's doctrine of Purgatory commonly supposed to be a particularity of the Latin Church and the relationship in his thought between the final purification at the end of time and the spiritual purification of existence here on earth Ce volume traite de l'eschatologie d'Origène le grand théologien et philosophe alexandrin du IIIe siècle De toutes les doctrines qui lui sont attribuées ce sont celles sur la résurrection de l'homme et la fin des jours qui ont provoqué le plus d'opposition et de controverse de l'Antiquité jusqu'à notre époque Le Père Henri Crouzel maintient que la pensée véritable d'Origène n'est constamment mal interprétée et corrompue et que dès l'époque de Méthode d'Olympe Selon l'auteur un nouvel examen des écrits d'Origène peut mener une appréciation totalement différente de l'orthodoxie du théologien Parmi les points spécifiques débattus sont la doctrine d'Origène sur la purgatoire communément supposée être un domaine latin et sur le rapport dans ses pensées entre l'ultime purification de la fin des temps et celle d'ordre spirituel de l'existence ici-bas sur terre The Libraries of the Neoplatonists Cristina D'Ancona, 2007-04-30 The transmission of Greek learning to the Arabic speaking world paved the way to the rise of Arabic philosophy This volume offers a deep and multifarious survey of transmission of Greek philosophy through the schools of late Antiquity to the Syriac speaking and Arabic speaking worlds **Marsanès (NH X)** Wolf-Peter Funk, Paul-Hubert Poirier, John Douglas Turner, 2000 Composé originellement en grec vers la fin du IIIe ou le début du IVe siècle probablement à Alexandrie ce traité reflète des traditions mythologiques qui sont exposées de façon plus ample et plus précise dans les textes

Autorité épiscopale et sollicitude pastorale (IIe-VIe siècles)

Charles Munier, 2024-10-28 The first set of articles in this collection is concerned with the nature of the bishop s authority in the Early Church and the sources from which it was drawn This is seen in political terms as in the writings of Justin Martyr as well as spiritual ones Charles Munier singles out Tertullian as the first to formulate a doctrine of apostolic succession but also traces his subsequent path towards the affirmation of the authority of the Holy Spirit over that embodied in the Orthodox Church The following studies turn to a complementary area of ecclesiology that of pastoral care The author points to the great diversity of forms of worship and rite from the earliest days of the Church these he argues reflect a constant process of adaptation to fit particular religious needs and to understand such divergences it is necessary to investigate the theological motives that lay behind them Particular topics here are those of baptism and marriage especially the still controversial question of how and with what discretion to treat divorce and remarriage La premi re s rie d articles de cette collection examine la nature et la source de l autorit des v ques de l Eglise primitive Ceci est abord en termes politiques au travers d tude sur Justin le Martyr ainsi qu en termes spirituels Charles Munier tout en reconnaissant Tertullien pour avoir t le premier formuler la doctrine de la succession apostolique retrace aussi la voie parcourue ult rieurement par ce dernier vers l affirmation de la supr macie de l autorit du Saint Esprit sur celle r present e par l Eglise orthodoxe Les tudes suivantes se tournent vers un domaine compl mentaire de l eccl siologie celui de la sollicitude pastorale L auteur souligne la grande diversit de liturgies et de rites qui ont toujours eu cours au sien de l Eglise selon lui on voit l le reflet d un processus d adaptation constant destin a r pondre des besoins
