Studies In Symbolic Interaction Volume 24:

Studies in Symbolic Interaction Norman K. Denzin, 2021-11-10 Volume 53 of *Studies in Symbolic Interaction* is divided into three parts providing contemporary readings of social situations including interpreting translational science an analysis of the Phantasmal in Qualitative Research and Miami s Sea level Rise Committee Festschrift in Honor of Norman K. Denzin Shing-Ling S. Chen, 2022-10-17 Due to his major contributions in qualitative inquiries Norman K Denzin is regarded as the Father of Qualitative Inquiries Volume 55 of *Studies in Symbolic Interaction* is a compilation of writings published in his honor *The Ethnographic I* Carolyn Ellis, 2004-01-13 A methodological textbook on autoethnography should be easily distinguishable from the standard methods text Carolyn Ellis the leading proponent of these methods does not disappoint She weaves both methodological advice and her own personal stories into an intriguing narrative about a fictional graduate course she instructs In it you learn about her students and their projects and understand the wide array of topics and strategies that fall under the label autoethnography Through Ellis s interactions with her students you are given useful strategies for conducting a study including the need for introspection the struggles of the budding ethnographic writer the practical problems in explaining results of this method to outsiders and the moral and ethical issues that get raised in this intimate form of research Anyone who has taken or taught a course on ethnography will recognize these issues and appreciate Ellis s humanistic personal and literary approach toward incorporating them into her work A methods text or a novel *The Ethnographic I* answers yes to both **Research in the Social Scientific Study of Religion, Volume 7**, 2021-11-22 The purpose of this book is to provide an outlet for original research articles examining the role and value of religious and spiritual constructs across the social sciences The aim of the series is to include an international and interfaith voice to this research dialogue An effort is made to be interdisciplinary and academically eclectic The articles in each volume represent a wide array of perspectives and research projects Most of the articles report the findings of quantitative or qualitative investigations but some deal with methodology theory or applications of social science studies in the field of religion and some are applied demonstrating the relevance of the social sciences to religious organizations and their clergy The value of the volume is that it gives to researchers in this area a broad perspective on the issues and methods of religious research across a spectrum of academic disciplines The aim of the book is to stimulate a creative integrative dialogue that will enhance interdisciplinary research People, Technology, and Social Organization Dirk vom Lehn, Will Gibson, Natalia Ruiz-Junco, 2023-10-19 This insightful and accessible book is a response to the increasing important role that technology plays in everyday life and the urgent need for empirical studies that analyse the impact of technology on social practices The chapters in this co edited collection reveal how technology is oriented to and embedded within the social organization of action in a wide range of settings and institutions including education markets arts and culture health and social care media politics and science In their analyses the contributing authors adopt interactionist perspectives to explore how the meanings

of technology emerge and are negotiated within and through action and interaction The volume comprises 14 empirical chapters from authors working in fields such as symbolic interactionism ethnomethodology conversation analysis discourse methods ethnographic enquiry video based methods and others The chapters are framed by an introduction and a concluding discussion by the co editors which draws out the key themes and issues that the individual chapters speak to and show the importance of these themes for the social sciences and for society The book is primarily aimed at researchers in the social sciences including sociology social psychology organization studies and beyond whose work is concerned with the interplay between social interaction technology and institutions

Interactionism Paul Atkinson, William Housley, 2003-03-27 Atkinson and Housley have produced a book that is a very competent interesting and useful addition to other work in the field Its distinctive contribution for me lies in the exploration of the relationship between and developments within interactionist sociologies Sociology What is symbolic interactionism This refreshing and authoritative book provides readers with A guide to the essential thinking research and concepts in interactionism A demonstration of the use of the interactionist approach An explanation of why the interactionist influence has not been fully acknowledged in Britain The authors argue that few sociologists in Britain have identified themselves with symbolic interactionism even though many have engaged with interactionist ideas in their research and methodological work We are all interactionists now in the sense that many of the key ideas of interactionism have become part of the mainstream of sociological thought Currently fashionable approaches to sociology display a kind of collective amnesia A good deal of today s ideas that are presented as novel or innovative only appear so because earlier contributions interactionism among them are not explicitly acknowledged

Masquerade and Identities Efrat Tseëlon, 2003-08-29 No competition This book has the advantage of combining diverse fields of knowledge social theory fashion theory art history literature performance and cultural studies Range of markets for this book It s topical it relates to current debates on the politics of identity the social construction of identity Covers range of fascinating examples to illustrate the arguments the film *The Crying Game* lesbian fashion fetish fashion Jewish folk theatre opera balls in 19th century France

Critical and Cultural Interactionism Michael Hviid Jacobsen, 2019-03-28 One of the longest standing traditions in sociology interactionism is concerned with studying human interaction and showing how society to a large part is constituted by patterns of interaction In spite of the work of figures such as Robert E Park Everett C Hughes Erving Goffman Herbert Blumer Norman K Denzin and Gary Alan Fine interactionism perhaps owing to its association with the perspective of symbolic interactionism remains something of an odd man out in mainstream sociology This book seeks to rectify this apparent neglect by bringing together critical social theories and microsociological approaches to research thus revealing the critical and cultural potentials in interactionism the chapters arguing that far from being oriented towards the status quo interactionism in fact contains a critical and cultural edge Presenting the latest work from some of the leading figures in interactionist thought to show recent developments in the field and offer an overview of some of the most potent

and prominent ideas within critical and cultural criminology Critical and Cultural Interactionism will appeal to scholars of sociology with interests in interactionism social theory research methods and criminology A Critique of Contemporary American Sociology Ted R. Vaughan, Gideon Sjoberg, Larry T. Handbook of Constructionist Research James A. Holstein, Jaber F. Gubrium, 2013-10-21 Constructionism has become one

of the most popular research approaches in the social sciences But until now little attention has been given to the conceptual and methodological underpinnings of the constructionist stance and the remarkable diversity within the field This cutting edge handbook brings together a dazzling array of scholars to review the foundations of constructionist research how it is put into practice in multiple disciplines and where it may be headed in the future The volume critically examines the analytic frameworks strategies of inquiry and methodological choices that together form the mosaic of contemporary constructionism making it an authoritative reference for anyone interested in conducting research in a constructionist vein **Obligations, Loyalties, Conflicts** Johanna Latvala, 2006 Symbolic Interactionism as Affect Control Neil Joseph MacKinnon, 1994-01-01 A treatment of affect control theory which holds that people try to manage their experiences so that their immediate feelings about people actions and settings affirm long term sentiments Includes the first propositional formulations of the theory traces its roots to other social psychological issues and interprets the complex quantitative model and empirical materials without resorting to mathematical or statistical discourse Of interest to readers in any of the social sciences Annotation copyright by Book News Inc Portland OR Rethinking Methods in Psychology Jonathan A Smith, Rom Harré, Luk Van Langenhove, 1995-09-07 The recent widespread rejection of conventional theory and method has led to the evolution of different ways of gathering and analyzing data This accessible textbook introduces key research methods that challenge psychology's traditional preoccupation with scientific experiments The book provides a well structured guide to methods containing a range of qualitative approaches for example semi structured interviews grounded theory discourse analysis alongside a reworking of quantitative methods to suit contemporary psychological research A number of chapters are also explicitly concerned with research as a dynamic interactive process The internationally respected contributors steer the reader through the main stages of conducting a study using these methods **Footnotes**, 1998
