Homoeopathy And Immunization Leslie J Speight, 2011-06-27. The increasing public awareness of the dangers associated with some immunizations is arousing great apprehension in many parents. They are questioning the long term effects in spite of the widely recommended procedures by health authorities and doctors. Homoeopathy and Immunization explains the argument against immunization, pointing out the ill effects and dangers and offers safe homoeopathic solutions that use the body's built-in immunity system strengthened by good food and satisfactory living conditions. It can play an important role in resisting any epidemic and in fact any disease which might attack those who ignore these important factors. Dr A. Pulford wrote: No disease will arise without an existing predisposition to that disease. It is the absence of the predisposition to any particular disease that makes us immune to it. Homoeopathy alone is capable of removing these predispositions. A Complete Book on Cardiovascular System for Homeopaths R. Chattopadhyay, 2005
