Study Of War:

A Study of War Quincy Wright, Louise Leonard Wright, 1983-11-15 Louis Leonard Wright's abridgment of this classic work reorganizes some of Wright's material and deletes footnotes and appendixes but still retains the power and impact of the original. The most comprehensive work ever published in any language on the history, the nature, the causes, and the cure of war. *A Study of War* is a liberal education in the social disciplines. Frederick L. Schuman. A major contribution to the realistic study of international relations. Garrett Mattingly. New York Times. *A Study of War* Sir Reginald Neville Custance, 1924. *Handbook of War Studies* Midlarsky Manus, 2011. First published in 1989, the *Handbook of War Studies* offers a systematic overview of empirically based theories of international conflict. In this definitive sourcebook, leading scholars of international relations provide a comprehensive survey of contemporary theories and methodological approaches to the study of war. This comprehensive volume will be essential reading for students and teachers of international relations, military and strategic studies, and war and peace studies. *United States Naval Institute Proceedings* United States Naval Institute, 1902. **Armor**, 2013. **Criminology and War** Sandra Walklate, Ross McGarry, 2015-03-24. It is widely observed that the study of war has been paid limited attention within criminology. This is intellectually curious given that acts of war have occurred persistently throughout history and perpetuate criminal acts, victimisation, and human rights violations on a scale unprecedented with domestic levels of crime. However, there are authoritative voices within criminology who have been studying war from the borders of the discipline. This book contains a selection of criminological authors who have been authoritatively engaged in studying criminology and war. Following an introduction that places war within criminology, the collection is arranged across three themed sections including Theorising War, Law and Crime, Linking War and Criminal Justice, and War, Sexual Violence, and Visual Trauma. Each chapter takes substantive topics within criminology and victimology, i.e. corporate crime, history, imprisonment, criminal justice, sexual violence, trauma, security, and crime control, to name but a few, and invites the reader to engage in critical discussions relating to wars both past and present. The chapters within this collection are theoretically rich, empirically diverse, and come together to create the first authoritative published collection of original essays specifically dedicated to criminology and war. Students and researchers alike interested in war, critical criminology, and victimology will find this an accessible study companion that centres the disparate criminological attention to war into one comprehensive collection. **Psychopathology and Social Prejudice** Derek Hook, Gillian Eagle, 2002. This volume offers an innovative set of critical examinations of the field of psychopathology. It investigates the social formation of psychopathology across different cultural, discursive, and political contexts and draws upon theory from two traditional domains of psychology: social and abnormal psychology. The diverse topics covered include xenophobia, anorexia nervosa, witch hunting, post-traumatic stress, homosexuality, race categorization, and cross-cultural issues. The various topics work in concert to unseat the notion of psychopathology as comprising decontextualized, individualized, essentialist categories of
