Understanding the Adult-Child Relationship

William Lyman Camp FACAPP,2022-02-09 Is there really more of a generation gap today than there was in the past We believe there is There has always been a struggle between the generations just there has always been a struggle between the sexes In the past however in an autocratic society this rebellion could not come out into the open With the advent of the state of equality which we have reached in the United States since World War II however this evolution has begun to change or emerge more rapidly We now see a low level rebellion of all those persons who were earlier in an inferior position Said more generally we cannot understand this change including a rebellion of youth if we consider it as an isolated phenomenon This quiet struggle of youth is part of a general sometimes not so quiet rebellion of the disenfranchised in our society Many women no longer let themselves be controlled by men children no longer allow it by adults labor no longer allow it by management and minorities especially Blacks and Hispanics no longer accept the supremacy of Whites Caucasians So we have to understand that this struggle on all fronts is part of the same rebellion The goal of this book is to outline the dynamics and processes involved The author s intent is to highlight the evolving relationship between adults and children as part of this process

FACAPP, 2022-03-17. The Adlerian approach to counseling is a highly structured approach. Adlerians operate according to a set of principles and procedures that make this form of counseling different from many other forms of counseling. In most other forms, a counselor sees a client and they talk and they talk and they talk. Adlerians try not to waste a moment. Every word said and everything done is designed according to plan. In the pages of this book, the writer will present techniques that have been used successfully with the suggestion that the reader too may find real success in their use. Chapter 1 and 2 consists of Adlerian child psychology concepts and ideas with information drawn from lectures, interviews, writings, and conversations with Rudolf Dreikurs, MD, as well as ideas from other Adlerian authors, compiled, summarized, edited, updated, annotated, and supplemented for the twenty-first century. Chapters 3 and 4 are essentially the words of Dr. Dreikurs, compiled and edited from tapes, excerpts from his public conversations, lectures, and radio and television presentations, all organized and presented with his suggestions for their organization and presentation. Much of this material is presented primarily as a casebook with explanations included and transcripts of cases conducted by Dr. Dreikurs. It is presented with his permission and appropriate confidentiality, including name changes, etc. Interspersed are comments, observations, and brief explanations presented for clarification.
