New Perspectives on Turkey-EU Relations Chris Rumford, 2014-10-29 This book makes the case for looking afresh at Turkey EU relations in order to appreciate the richness and complexity of a relationship which is now more than 50 years old and is still not close to reaching fulfilment The contributors challenge conventional attempts to understand Turkey EU relations revealing that EU integration studies has been rather poor at understanding the global context within which Turkey EU developments take place More surprising perhaps EU integration studies has also struggled to give sufficient weight to the potential of Turkey's domestic politics to shape EU enlargement The volume attempts to correct these imbalances by offering both a global context and new perspectives on the drivers of domestic politics It represents a shift from a narrow EU integration enlargement agenda Turkey's position vis a vis the EU cannot be adequately captured by simplistic notions of conditionality harmonization and an uncritical interpretation of Europeanization A more rounded view of Turkey EU relations is advanced based upon a broader context of European and global transformations The contributions collected here offer an interpretation of Turkey EU relations from a novel perspective utilize a new framework of theory and draw upon insights and perspectives from disciplines underrepresented in mainstream study of Turkey EU relations This book was published as a special issue of the Journal of Contemporary European Studies

European Multiplicity Didem Buhari-Gulmez, Chris Rumford, 2014-06-30 European Multiplicity does not conform to the expectations of a narrow EU studies agenda wherein European integration is seen as the destiny for the continent each country including non members being compelled to seek a place in an unfolding order united in diversity Rather the book demonstrates the benefits of an agenda shift away from an overriding concern with integration towards a consideration of the possibility that a singular Europe may not exist and that the multiplicity of Europe is all around us As the chapters in this volume highlight multiplicity reveals itself across the range of EU studies as a key dimension in Europe's transformation Multiplicity is evident both in cases where official EU policy exists labour migration citizenship regional policy and in areas which are central to European life more generally multiculturalism multilingualism the public sphere Euroscepticism The idea of European multiplicity also challenges the established notion that plurality can be accounted for in terms of identity politics Moreover it confronts the tendency to see Europe in terms of binaries such as East West old new North South core periphery Christian Muslim EU members non members and top down bottom up A core feature of this book is the establishment of the viability of an approach to studying Europe which does not rely on the binaries upon which thinking about identity is all too often based Many Europes is one of the growing issues in EU scholarship no longer confined to the margins of European Studies The book makes a compelling case for the idea that Europe is best understood in terms of its inherent multiplicity
