**Suicide by Proxy in Early Modern Germany** Kathy Stuart,2023-07-24 Suicide by Proxy became a major societal problem after 1650 Suicidal people committed capital crimes with the explicit goal of earning their executions as a short cut to their salvation Desiring to die repentantly at the hands of divinely instituted government perpetrators hoped to escape eternal damnation that befell direct suicides Kathy Stuart shows how this crime emerged as an unintended consequence of aggressive social disciplining campaigns by confessional states Paradoxically suicide by proxy exposed the limits of early modern state power as governments struggled unsuccessfully to suppress the tactic Some perpetrators committed arson or blasphemy or confessed to long past crimes usually infanticide or bestiality Most frequently however they murdered young children believing that their innocent victims would also enter paradise The crime had cross confessional appeal as illustrated in case studies of Lutheran Hamburg and Catholic Vienna      *Discovering Suicide* J Maxwell Atkinson,1983-02-17

Swedish Mentality Åke Daun,1996-01-12 Is there a distinctly Swedish national character Are Swedes truly shy unemotional conflict avoiding melancholy and dour Swedish Mentality the English translation of the hugely successful book published in Sweden in 1989 considers the reality behind the myth The author ke Daun is a respected ethnologist who is

sometimes referred to as the guru of Swedish character. In recent years it has become popular to discuss Swedishness and Swedish identity. The advent of the European Union and the increasing presence of immigrant refugees in Sweden have fueled public debate on the distinctiveness of Swedish culture. Daun, however, goes beyond stereotype drawing upon statistics gathered over more than a decade of research. The result is an entertaining and engagingly written book. Throughout Daun quotes from interviews with native Swedes and immigrants as well as from travel accounts, folklore and proverbs. We learn why some Swedes might prefer to walk up a flight of stairs rather than share an elevator with a neighbor and why some gain satisfaction from walking alone in the woods or going fishing. Daun describes a range of factors influencing Swedish character including population composition, rural background and even climate. He recognizes behavioral variations related to gender, age, class and region and he considers subtleties of individual character as well. Swedish Mentality should interest a wide array of readers whether of Swedish descent or not. The Long-Term Treatment of Functional Psychoses T.

Helgason, 1985-08-15. In this 1985 text organizational, patient and public health aspects of long term treatment of functional psychoses are described and areas are pinpointed where more information is required. The workshop on which the volume is based was arranged by the European Medical Research Councils and was attended by leading workers from a number of European countries. Accounts of the organization of and alternatives to hospitals and of the effects of closing mental hospitals are followed by discussions of psychotherapy, milieu therapy and pharmacotherapy, neuroleptic, lithium and antidepressive medication. The care of schizophrenics, of children and of the aged are discussed. In all these areas the book draws attention to areas of research or aspects of long term treatment which need further probing. *Bulletin of Suicidology*, National Clearinghouse for Mental Health Information (U.S.), 1967.
