the EU is by no means leaderless The chapters originally published as a special issue in the Journal of European Integration

Understanding Conflicts of Sovereignty in the EU Nathalie Brack, Ramona Coman, Amandine Crespy, 2021-05-09 This book investigates the multifaceted conflicts of sovereignty in the recent crises in the European Union Although the notion of sovereignty has been central in the contentious debates triggered by the recent crises in the European Union it remains strikingly under researched in political science This book bridges this

gap by providing both theoretical reflections and empirical analyses of today's conflicts of sovereignty in the EU. More particularly, it investigates conflicts between four types of sovereignty: first, national sovereignty referring to the autonomy of the Westphalian Nation State to rule on a territory delimited by borders; second, the supranational sovereignty acquired by the EU in a fragmentary fashion in a number of scattered internal and external policy fields; third, parliamentary sovereignty understood as the autonomy of parliaments at the regional, national and European levels to take part in the decision making process and control the executive in the name of the principles of election and representation; fourth, popular sovereignty whereby the body politic confers legitimacy to decision makers in a democratic system. Through an analysis of the various crises: rule of law, Brexit, migration, Eurozone crisis, the chapters look at how sovereignty is framed and contested by different types of actors and how the strengthening or the weakening of certain types of sovereignty contribute to shape preferences regarding policies and governance structures in the multi-level EU. The chapters in this book were originally published as a special issue of the *Journal of European Integration*.

European Constitutional Law Robert Schütze, 2021. Economic and Monetary Union at Twenty David Howarth, Amy Verdun, 2021-05-19. The contributions to this book examine the two main asymmetries of the Euro Area as they have intensified during the second decade of Economic and Monetary Union (EMU): the first between monetary union (more supranational governance) versus economic union (less centralised governance); the second between those Euro Area member states of the so-called core and those of the periphery. EMU stands as one of the European Union's EU flagship integration achievements. Set up in 1999 with the large majority of EU member states at the time, EMU was described as asymmetrical even prior to its start. From the outset it involved asymmetrical integration in monetary and economic union. Although a major element of the blueprint that paved the way for the final stage of EMU, the concept of economic union was insufficiently developed. The second decade of the single currency gave rise to a second asymmetry, namely one between those Euro Area member states of the core and those of the periphery. The ten contributions to this volume speak to one or both of these asymmetries, covering the major political, political economy and policy dimensions of EMU and the ongoing debates about necessary policy and institutional reforms to overcome these asymmetries and bolster Euro Area stability. The outbreak of the Coronavirus Covid-19 Crisis in 2020 created unprecedented socio-economic challenges for Euro Area member states, heightening the perceived urgency of reform. The chapters in this book were originally published as a special issue of the *Journal of European Integration*.

The European Parliament in the Contested Union Edoardo Bressanelli, Nicola Chelotti, 2020-06-09. The European Parliament in the Contested Union provides a systematic assessment of the real influence of the European Parliament (EP) in policy making. Ten years after the coming into force of the Treaty of Lisbon, which

significantly empowered Europe's only directly elected institution the contributions collected in this volume analyse whether and under what conditions the EP has been able to use its new powers and shape decisions Going beyond formal or normative descriptions of the EP's powers this book provides an up to date and timely empirical assessment of the role of the EP in the European Union focusing on key cases such as the reforms of the EU's economic governance and asylum policy the Brexit negotiations and the budget The book challenges and qualifies the conventional view that the EP has become more influential after Lisbon It shows that the influence of the EP is conditional on the salience of the negotiated policy for the Member States When EU legislation touches upon core state powers as well as when national financial resources are at stake the role of the EP notwithstanding its formal powers is more constrained and its influence more limited This book provides fresh light on the impact of the EP and its role in a more contested and politicised European Union Bringing together an international team of top scholars in the field and analysing a wealth of new evidence The European Parliament in the Contested Union challenges conventional explanations on the role of the EP tracking down empirically its impact on key policies and processes It will be of great interest to scholars of the European Union European politics and policy making The chapters were originally published as a special issue of the Journal of European Integration

Constitutional Disintegration and Disruption Oliver Garner, 2025-04-02 The United Kingdom's unprecedented withdrawal from the European Union in 2020 may be regarded as the first example of European disintegration This moment however was preceded by decades of disruption as the UK Ireland and Denmark pursued opt outs from the supranational constitutional order Constitutional Disintegration and Disruption Withdrawal and Opt Outs from the European Union provides the first comprehensive analysis of these two phenomena The book presents the European Union as an order that is legitimated by individuals playing a dual role as both nationals of Member States and citizens of the European Union in turn individuals are both democratic subjects and juridical objects within this order The EU Treaties have instituted a triptych for the exercise of constituted constituent power by these individuals Article 49 TEU allowing accession Article 48 TEU enabling amendment and Article 50 TEU as a mechanism for the repatriation of power through withdrawal Opt outs are an iterative anomaly that have arisen through the retention of amendment power by representatives of Member State nationals Reservations of constituent power have been operationalized in Protocols to the Treaties By contrast the withdrawal clause was proactively inserted into the Treaties as a sovereign right for Member State nationals subject to an orderly supranational procedure for the benefit of all EU citizens The book presents narratives of disruption and disintegration that provide comprehensive historical overviews of how opt outs and withdrawal arose and developed Constitutional Disintegration and Disruption concludes with criticism of the consequences of these phenomena for individuals and proposes reforms to the EU Treaties that would enable citizens to more fully realize their dual role in the European constitutional space

European Studies in Asia Georg Wiessala, 2014-03-21 As countries across Asia continue to rise and become more assertive global powers the role

that Higher Education has played and continues to play in this process is an issue of growing pertinence. Furthermore, understanding the relationship between Europe and Asia fostered by historical and contemporary knowledge transfer, including Higher Education, is crucial to analysing and encouraging the progress of both regional integration and inter-regional cooperation. With a specific focus on international Higher Education, *European Studies in Asia* investigates knowledge transfer and channels of learning between Europe and Asia from historical, contemporary, and teaching perspectives. The book examines a selection of significant historical precedents of intellectual dialogue between the two regions and in turn explores contemporary cross-regional discourses both inside and outside of the official frameworks of the European Union (EU) and the Asia Europe Meetings (ASEM). Drawing on extensive case studies based on many of his own teaching experiences, Georg Wiessala addresses key questions such as the nature and construction of the European Studies in Asia curriculum, aspects of values co-constructed learning and adult pedagogy in the discipline of European Studies in Asia, the politics of Asian host cultures, the internationalization of Asian Higher Education, and the experiences and expectations of tertiary sector students of this subject in Asia, Australia, and New Zealand. In doing so, the author articulates a range of outcomes for the further development of Higher Education cooperation agendas between Asia and Europe in the discipline of European Studies and in related fields such as International Relations. This case study led book makes an original and novel contribution to our understanding of European Studies in Asia. As such, it will be of great interest to students and scholars of Asian Education, Comparative Education, European Studies, and International Relations.

Crisis and Politicisation Benedetta Voltolini, Michal Naturski, Colin Hay, 2021-05-18. This book elucidates the link between the politics of a now seemingly permanent crisis in Europe and the politicisation of European integration. Looking at the epistemic dimension of crises, it suggests that the way in which a crisis is framed and contested determines its potential impact on the level of politicisation of European integration. Europe is more challenged and contested today than it has even been facing crisis of an almost existential kind. Yet political crises are manufactured and narrated so Europe has the possibility to intervene and bring about her recovery instead of letting these crises prove terminal. This book explores the political process in and through which certain events come to be framed as constitutive of a moment that requires a decisive intervention. It shows that crises require a double framing: a situation needs to be identified as one of crisis in the first place, and subsequently the nature and character of the crisis need to be specified. By examining a wide range of policy areas, the book demonstrates that framing of crises, i.e. identifying one situation both as a crisis and a crisis of a particular kind, contributes to the politicisation or depoliticisation of the process of European integration. The chapters in this book were originally published as a special issue of *Journal of European Integration*.

EU Values Before the Court of Justice Luke Dimitrios Spieker, 2023. The European Union's values enshrined in Article 2 TEU have come under severe pressure in several Member States. In response, the Court of Justice has set a spectacular development in motion. With its ruling in *Associação Sindical dos Juizes Portugueses*, it activated

the Union's common values and positioned Article 2 TEU at the very heart of its jurisprudence. Turning Article 2 TEU into an operational judicially applicable provision, the Court has begun to assess the Member States' constitutional structures against these yardsticks. Since then, the jurisprudence has evolved with remarkable speed. EU Values Before the Court of Justice provides a first comprehensive study of the judicial mobilisation of Article 2 TEU. It starts by developing the foundations of this emerging jurisprudence in empirical, doctrinal and theoretical terms. In this book, Spieker seeks to advance a new understanding of Article 2. He argues that the provision should be understood as having a dual character that resonates between two dimensions: namely, an EU dimension limited to the EU legal order and a *Verbund* dimension that extends to the common whole of the Union and its Member States. Article 2 plays different roles in these two spheres: as thick constitutional core of the EU legal order and as thin constitutional frame for the *Verbund*. This dual character should guide the provision's future judicial development. The book sets out to explore the multifaceted potential of Article 2 TEU in each of these two dimensions. As such, it goes far beyond the current focus on illiberal developments in Member States and strives to broaden our horizon for the judicial mobilisation of EU values. The book closes by assessing the risks of placing an activated Article 2 into the hands of Luxembourg judges and proposes ways to recalibrate the jurisprudence.

Public Policy and the CJEU's Power Emmanuelle Mathieu, Christian Adam, Miriam Hartlapp, 2020-05-21. *Public Policy and the CJEU's Power* offers an overarching analytical framework for thinking about the impact of policy contexts on the CJEU's influence on European public policy and the course of European integration. Thereby, it lays out a research agenda that is best described as public policy approach to studying judicial power in the European Union. The policy contexts within which actors operate do not only structure the incentives to use litigation; they also affect how strongly the implementation of court rulings relies on these policy stakeholders. Therefore, the CJEU's power is strongly dependent on policy contexts and policy stakeholders. This argument is illustrated by a wide variety of empirical analyses covering the three major types of legal actions before the CJEU: infringement proceedings, preliminary rulings and annulments, a wide variety of policy fields (e.g. competition law, internal market regulation, common agriculture policy, social policies, foreign policy) and different types of policy stakeholders (e.g. public, private, subnational, national and European stakeholders). Using this rich empirical material, the book provides an analytic framework for thinking about how policy contexts influence the CJEU's impact. Bringing together expert contributions, *Public Policy and the CJEU's Power* will be of great interest and use to scholars working on the European Union law and politics and public policy. The chapters were originally published as a special issue in the *Journal of European Integration*.

European Community, 1975. The Eclipse of a Great Power Keith Robbins, 2014-09-19. Covers both the expansion and the decline of the British Empire and the reasons behind this sudden eclipse in power.

The European Public Sphere and the Media A. Triandafyllidou, R. Wodak, Michał Krzyżanowski, 2009-06-25. This book contributes to the theoretical and policy debate on the existence of a European public sphere. It presents a critical discussion of the links

between media history and politics in Europe today examining the re organization of ideological and political dimensions and debates the existence of a European editorial culture *Europe as a Stronger Global Actor* Simon Duke,2016-11-10 This book considers the principal challenges facing the European Union which has been buffeted by a series of profound crises both internal and external These range from the future of Ukraine the Union s reactions to China s One Belt One Road initiative how to help stabilize countries to its south and relations with the United States The core argument is that the EU lacks a meta narrative that could indicate priorities and linkages between the various continental regional national and thematic strategies As a result the EU often appears to be a confusing and even contradictory actor to many international partners In response to these challenges the EU needs to develop a deeper sense of strategic awareness and confidence so that it may give a more convincing response to fundamental questions about the Union s role purpose and identity in a changing world Central European Political Science Review ,2004
