The Concept Of Freedom And The Development Of Sartre's Early Political Thought:

The Concept of Freedom and the Development of Sartre's Early Political Thought Bernard Merkel, 2019-04-15 This book first published in 1987 is a study of the development of Sartre's political thought from the late 1920s to the liberation of France in 1944 concentrating particularly upon his concept of freedom It is argued that the evolution of Sartre's thinking can be regarded as constituting a series of problematics each of which has a corresponding notion of freedom and these problematics are elucidated in turn IBSS: Political Science: 1987 British Library of Political and Economic Science, 1991 IBSS is the essential tool for librarians university departments research institutions and any public or private institutions whose work requires access to up to date and comprehensive knowledge of the social sciences Principles of Subjective Anthropology Binggong Chen, 2023-03-27 This book puts forward the concept of subjective anthropology and outlines a theoretical system that will allow subjective anthropology to qualify as a new academic discipline in its own right In an effort to respond to the field's proper role as the science of humanity subjective analysis has been introduced into the study of anthropology The book fills two distinct gaps in our knowledge and understanding of modern man offering detailed descriptions of personality and of groups while also advancing the theory of structure and choice The book formulates seven basic principles of subjective anthropology and divides anthropology into three major branches subjective anthropology cultural anthropology and biological or physical anthropology which can be further divided into sub branches The book pursues three key goals advancing and developing the theoretical system of subjective anthropology reconstructing the discipline of anthropology and establishing a Chinese anthropology with Chinese characteristics Chinese visions and Chinese styles **Sociological Terminology and Classification Schemes** Lalit P. Pathak, 2000 **Routledge Library Editions: Existentialism** Various, 2021-06-23 This set collects together a vital selection of works on Existentialism including the key Introduction to the New Existentialism by Colin Wilson Some of the titles were early works written as this new philosophy spread into the English language while others are more recent examinations **Books in Print**, 1994 Chance and the Modern British Novel Julia Jordan, 2010-06-03 Chance and its representation in literature has a long and problematic history It is a vital aspect of the way we experience the world and yet its function is frequently marginalised and downplayed Offering a new reading of the development of the novel during the mid twentieth century Jordan argues that this simple novelistic paradox became more pressing during a period in which chance became a cultural scientific and literary preoccupation through scientific developments such as quantum mechanics and the uncertainty principle the influence of existential philosophy the growth of gambling and the uncertainty provoked by the Second World War In tracing the novel's representation of chance during this crucial period we see both the development of the novel and draw wider conclusions about the relationship between narrative and the contingent the arbitrary and the uncertain While the novel had historically rejected marginalised or undermined chance during this period it becomes a creative and welcome co contributor to the

novel's development as writers such as Samuel Beckett, B. S. Johnson, Henry Green and Iris Murdoch show **Host**
Bibliographic Record for Bound with Item Barcode 30112033097202 and Others, 2013 **The Early Sartre and Marxism** Sam Coombes, 2008 This work highlights key areas of common ground between the ethical, aesthetic and political content of works from Sartre's early period and classic Marxist philosophy. Taking account of both the specificity of early Sartrean thought and the heterogeneity of Marxist theories, it affirms their lasting importance to the radical left critique.

Picturing the Human : The Moral Thought of Iris Murdoch Maria Antonaccio Assistant Professor of Religion Bucknell University, 2000-05-31 Iris Murdoch has long been known as one of the most deeply insightful and morally passionate novelists of our time. This attention has often eclipsed Murdoch's sophisticated and influential work as a philosopher, which has had a wide-ranging impact on thinkers in moral philosophy as well as religious ethics and political theory. Yet it has never been the subject of a book-length study in its own right. *Picturing the Human* seeks to fill this gap. In this groundbreaking book, author Maria Antonaccio presents the first systematic and comprehensive treatment of Murdoch's moral philosophy. Unlike literary critical studies of her novels, it offers a general philosophical framework for assessing Murdoch's thought as a whole. Antonaccio also suggests a new interpretive method for reading Murdoch's philosophy and outlines the significance of her thought in the context of current debates in ethics. This vital study will appeal to those interested in moral philosophy, religious ethics and literary criticism and grants those who have long loved Murdoch's novels a closer look at her remarkable philosophy.
