Constructing Panic offers an unprecedented analysis of one patient's experience of agoraphobia. In this novel interdisciplinary collaboration between a clinical psychologist and a linguist, the authors probe Meg's stories for constructions of emotions, actions, and events. They illustrate how Meg uses grammar and narrative structure to create and recreate emotional experiences that maintain her agoraphobic identity. In this work, Capps and Ochs propose a startling new view of agoraphobia as a communicative disorder. Constructing Panic opens up the largely overlooked potential for linguistic and narrative analysis by revealing the roots of panic and by offering a unique framework for therapeutic intervention. Readers will find in these pages hope for managing panic through careful attention to how we tell the story of our lives.
