SUICIDE: A Social and Historical Study HENRY ROMILLY FEDDEN, 1972 **Disembodiment** Banu Bargu, 2024-11-20 Disembodiment examines self destruction self injury and radical self endangerment as unconventional performances of resistance and refusal Banu Bargu troubles the dominant approach that treats these acts as individual pathologies cries for help and signs of despair taking the reader on an unsettling journey that passes through the suicides of enslaved Africans the hunger strikes of woman suffragists Gandhian fasting practices Bouazizi's self incineration and the lip sewing practices of migrants and asylum seekers to chart a bleak repertoire of contention performed by the oppressed As a work in global critical theory whose normative compass is the suffering body Disembodiment offers a bold materialist theory of corporeal agency that upholds the fundamental rebelliousness of the body

Suicide Robin Fedden, 1972 **Suicidal Narrative in Modern Japan** Alan Stephen Wolfe, 2014-07-14 Dazai Osamu 1909-1948 is one of Japan's most famous literary suicides known as the earliest postwar manifestation of the genuinely alienated writer in Japan In this first deconstructive reading of a modern Japanese novelist Alan Wolfe draws on contemporary Western literary and cultural theories and on a knowledge of Dazai's work in the context of Japanese literary history to provide a fresh view of major texts by this important literary figure In the process Wolfe revises Japanese as well as Western scholarship on Dazai and discovers new connections among suicide autobiography alienation and modernization As shown here Dazai's writings resist narrative and historical closure while he may be said to serve the Japanese literary establishment as both romantic decadent and representative scapegoat his texts reveal a deconstructive edge through which his posthumous status as a monument of negativity is already perceived and undone Wolfe maintains that cultural modernization pits a Western concept of the individual as realized self and coherent subject against an Eastern absent self

and that a felt need to overcome this tension inspires the autobiographical fiction so prevalent in Japanese novels Suicidal Narrative in Modern Japan shows that Dazai's texts also resist readings that would resolve the gaps East West self other modern premodern still prevalent in Japanese intellectual life Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The Relativity of Deviance* John Curra, 2011 In this Second Edition of his investigation into the relative nature of social deviance and how the public perceives it author John Curra demonstrates that what qualifies as deviance varies from place to place time to time and situation to situation Through thought provoking examples that include the blue people of Kentucky a woman who believes she is a vampire autoerotic asphyxiators and others Curra illustrates that deviance cannot be explained in terms of absolutes nor can it be understood apart from its social setting This insightful book approaches sex violence theft suicide drugs and mental disorders in such a way that definitive or objective judgments become impossible Encyclopedia of Ethics Lawrence C.
