Alexander De Waal

The Conquest Of Famine:

The Conquest of Famine Wallace Ruddell Aykroyd,1974 **Famine Crimes** Alexander De Waal,1997 Who is responsible for the failures African generals and politicians are the prime culprits for creating famines in Sudan Somalia and Zaire but western donors abet their authoritarianism partly through imposing structural adjustment programmes The Political Economy of Hunger: Volume 2: Famine Prevention Jean Drèze,Amartya Sen,1990 Part of a major report on world hunger instigated by the World Institute for Development Economics Research this volume deals with possible solutions to the problem of regular outbreaks of famine in various parts of the world *The U.S. Response to East African Famines and the Future Outlook for Food Aid in Africa* United States. Congress. House. Committee on International Relations,2003 *Eating People Is Wrong, and Other Essays on Famine, Its Past, and Its Future* Cormac Ó Gráda,2020-10-13 New perspectives on the history of famine and the possibility of a famine free world Famines are becoming smaller and rarer but optimism about the possibility of a famine free future must be tempered by the threat of global warming That is just one of the arguments that Cormac Gr da one of the world s leading authorities on the history and economics of famine develops in this wide ranging book which provides crucial new perspectives on key questions raised by famines around the globe between the seventeenth and twenty first centuries The book begins with a taboo topic Gr da argues that cannibalism while by no means a universal feature of famines and never responsible for more than a tiny proportion of famine deaths has probably been more common during very severe famines than previously thought The book goes on to offer new interpretations of two of the twentieth century s most notorious and controversial famines the Great Bengal Famine and the Chinese Great Leap Forward Famine Gr da questions the standard view of the Bengal Famine as a perfect example of market failure arguing instead that the primary cause was the unwillingness of colonial rulers to divert food from their war effort The book also addresses the role played by traders and speculators during famines more generally invoking evidence from famines in France Ireland Finland Malawi Niger and Somalia since the 1600s and overturning Adam Smith s claim that government attempts to solve food shortages always cause famines Thought provoking and important this is essential reading for historians economists demographers and anyone else who is interested in the history and possible future of famine **The History of the Irish Famine** Christine Kinealy,2018-09-20 The Great Irish Famine remains one of the most lethal famines in modern world history and a watershed moment in the development of modern Ireland socially politically demographically and culturally In the space of only four years Ireland lost twenty five per cent of its population as a consequence of starvation disease and large scale emigration Certain aspects of the Famine remain contested and controversial for example the issue of the British government s culpability proselytism and the reception of emigrants However recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis both before 1845 and after 1852 This first volume addresses the questions when did the famine begin and end to what extent is the British government after 1846 culpable for the

suffering and mortality how important was philanthropy in alleviating the distress what was the role and responsibility of Irish elites is the word famine appropriate given that Ireland continued to export large amounts of food **Famine that Kills** Alex de Waal, 2005-01-13 Includes statistics **A World without Famine?** John Toye, Helen O'Neill, 1998-03-15 The proceedings of the Development Studies Association conference held in Dublin on the 150th anniversary of the Great Irish Famine examine the historical background and the reasons why the spectre of famine continues to haunt much of the developing world today Set in the context of the concepts of food security and insecurity it emphasises our moral responsibility to act collectively and to tackle less dramatic problems of food insecurity **Politics and the Ethiopian Famine** Jason W. Clay, Bonnie K. Holcomb, An investigation into the conditions of resettlement after the famine *Malaria in Colonial South Asia* Sheila Zurbrigg, 2019-08-28 This book highlights the role of acute hunger in malaria lethality in colonial South Asia and investigates how this understanding came to be lost in modern medical epidemic and historiographic thought Using the case studies of colonial Punjab Sri Lanka and Bengal it traces the loss of fundamental concepts and language of hunger in the inter war period with the reductive application of the new specialisms of nutritional science and immunology and a parallel loss of the distinction between infection transmission and morbid disease The study locates the final demise of the Human Factor hunger in malaria history within pre and early post WW2 international health institutions the International Health Division of the Rockefeller Foundation and the nascent WHO s Expert Committee on Malaria It examines the implications of this epistemic shift for interpreting South Asian health history and reclaims a broader understanding of common endemic infection epidemiology as a prime driver in the context of subsistence precarity of epidemic mortality history and demographic change This book will be useful to scholars and researchers of public health social medicine and social epidemiology imperial history epidemic and demographic history history of medicine medical sociology and sociology
