The Construction Of A Political Community Integration And Identity In Goa:

The Construction of a Political Community Arthur G. Rubinoff, 1998-01-01 The Construction of a Political Community Arthur G. Rubinoff, 1998-09-22 Throughout the world multi ethnic states are under stress from separatist movements Using the state of Goa as a case study for the application of integration theory this book shows how India has so far succeeded in remaining intact by promoting national identity The author describes the construction of a Goan political community and the transformation of its identity in the postcolonial era One of the few recent treatments of state politics in India his book is the first to discuss Goa s ability to develop in a democratic context and highlights the unique nature of the Indian path of integration

Hindu-Catholic Encounters in Goa Alexander Henn, 2014-05-27 The state of Goa on India s southwest coast was once the capital of the Portuguese Catholic empire in Asia When Vasco Da Gama arrived in India in 1498 he mistook Hindus for Christians but Jesuit missionaries soon declared war on the alleged idolatry of the Hindus Today Hindus and Catholics assert their own religious identities but Hindu village gods and Catholic patron saints attract worship from members of both religious communities Through fresh readings of early Portuguese sources and long term ethnographic fieldwork this study traces the history of Hindu Catholic syncretism in Goa and reveals the complex role of religion at the intersection of colonialism and modernity

Portuguese Decolonization in the Indian Ocean World Pamila Gupta, 2018-10-18 Pamila Gupta takes a unique approach to examining decolonization processes across Lusophone India and Southern Africa focusing on Goa Mozambique Angola and South Africa weaving together case studies using five interconnected themes Gupta considers decolonization through the twined lenses of history and ethnography accessed through written oral visual and eyewitness accounts of how people experienced the transfer of state power She looks at the materiality of decolonization as a movement of peoples across vast oceanic spaces demonstrating how it was a process of dispossession for both the Portuguese formerly in power and ordinary colonial citizens and subjects She then discusses the production of race and class anxieties during decolonization which took on a variety of forms but were often articulated through material objects The book aims to move beyond linear histories of colonial independence by connecting its various regions using the theme of decolonization offering a productive and new approach to writing post national histories and ethnographies Finally Gupta demonstrates the value of using different source materials to access narratives of decolonization analyzing the work of Mozambican photographer Ricardo Rangel and including lyrical prose and ethnographical observations Portuguese Decolonization in the Indian Ocean World provides a nuanced understanding of Lusophone decolonization revealing the perspectives of people who experienced it This book will be highly valuable for historians of the Indian Ocean world and decolonization but also those interested in ethnography diaspora studies and material culture

South Asia and its Others Atreyee Phukan, V.G. Julie Rajan, 2020-10-27 The essays in South Asia and Its Others Reading the Exotic reveal fresh perspectives on the notion of exoticism in South Asia and also challenge and extend existing scholarship in the broader

discourse of what constitutes South Asia. Significantly the anthology considers how the phenomenon of exoticization may be interpreted as a strategic methodology utilized by writers of South Asian descent to examine critically both the post colonialist ramifications of casteism, religious intolerance and gender violence across differing cultural contexts within the region and how current perceptions of native and diasporic South Asian subjects problematize ideologies of authenticity across Western Eastern divides. The papers in this collection show how authors of South Asian ethnicity construct their own version of an exotic South Asia globally and the colonialist discourse of exotism is employed as a discursive tool that uncovers the ambiguity that continues to mark the marginality of identities even today.
