Recent Developments in Transport Economics Kenneth John Button, Kenneth Button, 2003 The past decade has seen both some new trends in the economics of transportation and the reinforcement of work from previous periods Econometrics and innovative programming techniques have developed the work on production efficiency and interest in demand analysis has continued Of increasing importance in recent years are the environmental implications of transportation as well as safety and security concerns Economists are also addressing the problems of congestion with particular regard to new policy initiatives which tie transportation more closely to land use patterns and telecommunications In this volume Kenneth Button brings together some of the most significant previously published articles by leading academics in all these crucial areas

Canada/United States Trade and Investment Issues Deborah Fretz, Robert Mitchell Stern, John Whalley, 1985

Heavy Traffic Daniel Madar, 2011-11-01 Canada and the United States exchange the world s highest level of bilateral trade valued at 1 4 billion a day Two thirds of this trade travels on trucks Heavy Traffic examines the way in which the regulatory reform of American and Canadian trucking coupled with free trade has internationalized this vital industry Before deregulation restrictive entry rules had fostered two separate national highway transportation markets and most international traffic had to be exchanged at the border When the United States deregulated first the imbalance between its opened market and Canada s still restricted one produced a surprisingly difficult bilateral dispute American deregulation was motivated by domestic incentives but the subsequent Canadian deregulation blended domestic incentives with transborder rate comparisons and concerns about trade competitiveness Daniel Madar shows that deregulation created a de facto regime of free trade in trucking services Removing regulatory barriers has enabled Canadian and American carriers to follow the expansion of transborder traffic that began with the Canada US Free Trade Agreement and continues

with NAFTA The services available with deregulated trucking have also supported sweeping changes in industrial logistics As transborder traffic has surged the two countries carriers from billion dollar corporations to family firms have exploited the latitude provided by deregulation This book is a valuable contribution to our understanding of the policy processes and economic conditions that led to trucking deregulation As a study in public policy formation and the international effects of reform it will be of interest to students and scholars of political economy international relations and transportation
