The Constitution And Capitalism:

The Constitution and Capitalism Michael Conant, 1974 *How Capitalistic is the Constitution?* Robert A. Goldwin, 1982 This book is the second in a series in AEI's project A decade of study of the Constitution T p verso Includes bibliographical references American democracy and the acquisitive spirit Marc F Plattner Class rule under the Constitution Edward S Greenberg The Constitution and Hamiltonian capitalism Forrest McDonald The Constitution capitalism and the need for rationalized regulation Walter Dean Burnham The Constitution and the protection of capitalism Bernard H Siegan Capitalism or democracy Robert Lekachman The Constitution and the spirit of commerce Stephen Miller How Capitalistic is the Constitution? Marc F. Plattner, Edward S. Greenberg, Forrest McDonald, Walter Dean Burnham, Robert Allen Goldwin, 1980 *Conservatives and the Constitution* Ken I. Kersch, 2019-03-28 Since the 1980s a ritualized opposition in legal thought between a conservative originalism and a liberal living constitutionalism has obscured the aggressively contested tradition committed to and mobilization of arguments for constitutional restoration and redemption within the broader postwar American conservative movement *Conservatives and the Constitution* is the first history of the political and intellectual trajectory of this foundational tradition and mobilization By looking at the deep stories told either by identity groups or about what conservatives took to be flashpoint topics in the postwar period Ken I Kersch seeks to capture the developmental and integrative nature of postwar constitutional conservatism challenging conservatives and liberals alike to more clearly see and understand both themselves and their presumed political and constitutional opposition *Conservatives and the Constitution* makes a unique contribution to our understanding of modern American conservatism and to the constitutional thought that has in critical ways informed and defined it Capitalism v. Democracy Timothy K. Kuhner, 2014-06-25 As of the latest national elections it costs approximately 1 billion to become president 10 million to become a Senator and 1 million to become a Member of the House High priced campaigns an elite class of donors and spenders superPACs and increasing corporate political power have become the new normal in American politics In *Capitalism v Democracy* Timothy Kuhner explains how these conditions have corrupted American democracy turning it into a system of rule that favors the wealthy and marginalizes ordinary citizens Kuhner maintains that these conditions have corrupted capitalism as well routing economic competition through political channels and allowing politically powerful companies to evade market forces The Supreme Court has brought about both forms of corruption by striking down campaign finance reforms that limited the role of money in politics Exposing the extreme economic worldview that pollutes constitutional interpretation Kuhner shows how the Court became the architect of American plutocracy *Capitalism v Democracy* offers the key to understanding why corporations are now citizens money is political speech limits on corporate spending are a form of censorship democracy is a free market and political equality and democratic integrity are unconstitutional constraints on money in politics Supreme Court opinions have dictated these conditions in the name of the

Constitution as though the Constitution itself required the privatization of democracy Kuhner explores the reasons behind these opinions reveals that they form a blueprint for free market democracy and demonstrates that this design corrupts both politics and markets He argues that nothing short of a constitutional amendment can set the necessary boundaries between capitalism and democracy

How to Read the Constitution Christopher Wolfe, 1996 Prominent constitutional scholar Christopher Wolfe challenges popular opinions by presenting an insightful and well supported defense of originalist interpretations of the Constitution He describes the traditional approach to constitutional interpretation and judicial review and then focuses his analysis on the due process clause which has become the source of most modern constitutional law Wolfe challenges the most influential defenders of judicial activism including Laurence Tribe Michael Dorf Harry Wellington and Mark Tushnet and he persuasively explains the dire political consequences of taking the Constitution out of constitutional law

The Subjugation of Labour Lúcio Kowarick, 1987 This book describes the constitution of capitalism in Brazil

The Constitutional Protection of Capitalism Danny Nicol, 2010-01-29 In 1945 a Labour government deployed Britain's national autonomy and parliamentary sovereignty to nationalise key industries and services such as coal rail gas and electricity and to establish a publicly owned National Health Service This monograph argues that constitutional constraints stemming from economic and legal globalisation would now preclude such a programme It contends that whilst no state has ever or could ever possess complete freedom of action nonetheless the rise of the transnational corporation means that national autonomy is now significantly restricted The book focuses in particular on the way in which these economic constraints have been nurtured reinforced and legitimised by the creation on the part of world leaders of a globalised constitutional law of trade and competition This has been brought into existence by the adoption of effective enforcement machinery sometimes embedded within the nation states sometimes formed at transnational level With Britain enmeshed in supranational economic and legal structures from which it is difficult to extricate itself the British polity no longer enjoys the range and freedom of policymaking once open to it Transnational legal obligations constitute not just law but in effect a de facto supreme law entrenching a predominantly neoliberal political settlement in which the freedom of the individual is identified with the freedom of the market The book analyses the key provisions of WTO EU and ECHR law which provide constitutional protection for private enterprise It dwells on the law of services liberalisation public monopolies state aid public procurement and the fundamental right of property ownership arguing that the new constitutional order compromises the traditional ideals of British democracy

The Constitution of Markets Viktor J Vanberg, 2001-06-28 What is the nature and role of competition in markets and politics This book examines the institutional dimension of markets and the rules and institutions that condition the operation of market economies Particular attention is paid to the the role of the state specifically the role of governments in shaping and maintaining the economic constitu

Capitalism's Crises Vishwas Satgar, 2015-10-01 The contributors to this volume draw on a non dogmatic Marxist approach to explain the systemic and

conjunctural dynamics of crisis inherent in global capitalism Their analysis asks what is historically specific to capitalism's crises while avoiding catastrophic or defeatist claims At the same time the volume situates left agency within actual patterns of resistance and class struggle to clarify the potential for transformative change The cycle of resistance strengthened by the World Social Forum and transnational activism is now punctuated by the experience of the Arab Spring the agency of anti-systemic movements left think tanks the Occupy Wall Street Movement labour unions left parties in Europe such as Syriza and Podemos and peoples budgeting in Kerala India On the down side we are witnessing the waning of the Workers Party in Brazil and serious challenges for South Africa's once powerful labour movement and still formative social justice activism All these developments are assessed in this volume This is the second volume in the Democratic Marxism series It elaborates on crucial themes introduced in the first volume Marxism in the 21st Century Crisis Critique and Struggle edited by Michelle Williams and Vishwas Satgar
