Walsh, 2005-04-05 This book examines the issue of philosophical skepticism in the light of its relevance for the critique of modernity associated with the Frankfurt School It situates the problem of skepticism in the context of the history of philosophy and explores its significance for the modern crisis of reason manifested in post Kantian philosophy which presaged the critical turn toward social theory **Empathy in the Context of**

Philosophy L. Agosta, 2010-04-29 Integrating continental and Anglo American traditions the author exposes empathy as the foundation of the being with one another of human beings The interpretation of empathy is applied to story telling literature and self psychology rescuing empathy from the margins and revealing its role in the understanding of the other and human community Hannah Arendt Patrick Hayden, 2014-09-11 Hannah Arendt is one of the most prominent thinkers of modern times whose profound influence extends across philosophy politics law history international relations sociology and literature

On Hegel Karin de Boer, 2010-07-07 Focusing on the Science of Logic this wide ranging and innovative reading exposes the force as well as the limit of Hegel's philosophy Drawing on Hegel's early account of tragic conflicts De Boer brings into play a form of negativity that challenges the optimism inherent in modernity and Hegelian dialectics alike

Critique and Disclosure Nikolas Kompridis, 2011-08-19 A provocatively argued call for shifting the emphasis of critical theory from Habermasian critique restricted to normative clarification to disclosure a possibility enhancing approach that draws on and reinterprets ideas of Heidegger In *Critique and Disclosure* Nikolas Kompridis argues provocatively for a richer and more time responsive critical theory He calls for a shift in the normative and critical emphasis of critical theory from the narrow concern with rules and procedures of Jürgen Habermas's model to a change enabling disclosure of possibility and the enlargement of meaning Kompridis contrasts two visions of critical theory's role and purpose in the world one that restricts itself to the normative clarification of the procedures by which moral and political questions should be settled and an alternative rendering that conceives of itself as a possibility disclosing practice At the center of this resituation of critical theory is a normatively reformulated interpretation of Martin Heidegger's idea of disclosure or world disclosure In this regard Kompridis reconnects critical theory to its normative and conceptual sources in the German philosophical tradition and sets it within a romantic tradition of philosophical critique Drawing not only on his sustained critical engagement with the thought of Habermas and Heidegger but also on the work of other philosophers including Wittgenstein Cavell Gadamer and Benjamin Kompridis argues that critical theory must in light of modernity's time consciousness understand itself as fully situated in its time in an ever shifting and open ended horizon of possibilities to which it must respond by disclosing alternative ways of thinking and acting His innovative and original argument will serve to move the debate over the future of critical studies forward beyond simple antinomies to a consideration of as he puts it what critical theory should be if it is to have a future worthy of its past

Critical Theory and the Thought of Andrew Feenberg Darrell P. Arnold, Andreas Michel, 2017-11-01 This volume explores Andrew Feenberg's work in critical theory Feenberg is considered one of the key second generation critical theorists with a keen interest in philosophy of technology He has made a vital contribution to critical theory in ways that remain of interest given the pressing technological issues of our time The authors of this book highlight not only the ways that Feenberg has begun to make good on what is often characterized as the broken promise of critical theory to address issues of technology but also the continued importance of critical theory more generally and of Feenberg's contributions to understanding this tradition

Philosophy and Temporality from Kant to Critical Theory Espen Hammer, 2011-03-31 This book is a critical analysis of how key philosophers in the European tradition have responded to the emergence of a modern conception of temporality Espen Hammer suggests that it is a feature of Western modernity that time has been forcibly separated from the natural cycles and processes with which it used to be associated In a discussion that ranges over Kant Hegel Schopenhauer Nietzsche

Heidegger and Adorno he examines the forms of dissatisfaction which result from this together with narrative modes of configuring time the relationship between agency and temporality and possible challenges to the modern world's linear and homogenous experience of time His study is a rich exploration of an enduring philosophical theme the role of temporality in shaping and reshaping modern human affairs
