Perceptual Training and Recall Darren R. Rousar, 2013-03-09 If you think about it all life drawing and painting is at some point being done from the artist's memory even if that memory is only a few seconds old Every time the artist takes their eyes off of the model or scene and looks at their paper or canvas their visual memory is involved What if that artist's visual memory was highly trained That artist might need the model for a shorter period of time or she might have a more productive time when the model is in pose He might be better at painting all of the fleeting effects that nature throws at us when we are landscape painting en plein air Memory Drawing Perceptual Training and Recall exists to guide you in doing just that It will also help you improve your abilities to remember fleeting effects seize essentials and even enhance your imagination Drawing from Memory - The Cave Method for Learning to Draw Marie Elizabeth Cave, 2017-09-21 This is a guide by Marie Elizabeth Cave outlining her own personal method for drawing from memory Presented in the form of a series of letters this interesting and personal volume is highly recommended for all with an interest in drawing and it would make for a valuable addition to collections of allied literature Contents include Drawing without a Master The Vocation The True Teacher Drawing from Memory Observations Perspective Lights and Shades Method of Shading Female Artists Composition Composition Originality et cetera Many vintage books such as this are becoming increasingly scarce and expensive We are republishing this volume now in an affordable high quality modern edition complete with a specially commissioned new introduction on drawing and illustration This book was first published in 1851 **Drawing from Memory** Marie Elisabeth
