Skill Formation And Globalisation:

High Skills : Globalization, Competitiveness, and Skill Formation Phillip Brown, Andy Green, Hugh Lauder, 2001-09-20
Economic globalization has led to intense debates about the competitiveness of nations Prosperity social justice and welfare are now seen to depend on the creation of a high skilled workforce This international consensus around high skills has led recent American presidents to claim themselves education presidents and in Britain Tony Blair has announced that talent is 21st century wealth This view of knowledge driven capitalism has led all the developed economies to increase numbers of highly trained people in preparation for technical professional and managerial employment But it also harbours the view that what we regard as a skilled worker is being transformed The pace of technological innovation corporate restructuring and the changing nature of work require a new configuration of skills described in the language of creativity teamwork employability self management and lifelong learning But is this optimistic account of a future of high skilled work for all justified This book draws on the findings of a major international comparative study of national routes to a high skills economy in Britain Germany Japan Singapore South Korea and the United States and includes data from interviews with over 250 key stakeholders It is the first book to offer a comparative examination of high skill policies a topic of major public debate that is destined to become of even greater importance in all the developed economies in the early decades of the twenty first century

education and policy research globally and offers new approaches to further exploration development and improvement of education and policy making The Handbook attempts to address some of the above issues and problems confronting educators and policy makers globally Different articles seek to conceptualize the on going problems of education policy formulation and implementation and provide a useful synthesis of the education policy research conducted in different countries and practical implications The Handbook by focusing on such issues as the OECD 2001 model of the knowledge society and associated strategic challenge and deliverable goals OECD 2001 139 UNESCO driven lifelong learning paradigm and its relevance to education policy makers globally different models of policy planning and equity questions that are raised by centralization decentralization diversity uniformity and curriculum standardization issues the crises of educational quality the debate of standards and excellence and good and effective teaching will contribute to a better and more holistic understanding of the education policy and research nexus offering possible strategies for the effective and pragmatic policy planning and implementation at the local regional and national levels

Globalisation, Higher Education, the Labour Market and Inequality Antonia Kupfer, 2014-07-16 Globalisation Higher Education the Labour Market and Inequality addresses the global transformation of higher education in relation to changes in the labour market It focuses on the relative impact of elements of globalisation on social inequality and provides insights into the ways in which these general forces of change are transformed into specific policies shaped by global forces and the various national values institutional structures and politics of the specified societies The book begins with a theoretical conceptualization for a comparative understanding of globalization higher education labour markets and inequality This is followed by a range of mainstream accounts from an international selection of contributors of the ways in which national systems have responded to the forces of globalisation and the increasing demand for higher education graduates in Australia the Czech Republic Germany Japan New Zealand and the UK Finally contributors explore more specific concerns such as the transition from higher education to the labour market in China and Sweden the division of the knowledge workers into traditional social groups in the US and the role and salience of Doctoral programmes in South Africa in developing a knowledge economy This book was originally published as a special issue of the Journal of Education and Work

The Oxford Handbook of Skills and Training Chris Warhurst, Ken Mayhew, David Finegold, John Buchanan, 2017-02-09 Skills and workforce development are at the heart of much research on work employment and management But are they so important To what extent can they make a difference for individuals organizations and nations How are the supply and more importantly the utilization of skill currently evolving What are the key factors shaping skills trajectories of the future This Handbook provides an authoritative consideration of issues such as these It does so by drawing on experts in a wide range of disciplines including sociology economics labour industrial relations human resource management education and geography The Handbook is relevant for all with an interest in the changing nature and future of work employment and management It draws on the latest scholarly insights to shed new light on all the

major issues concerning skills and training today While written primarily by leading scholars in the field it is equally relevant to policy makers and practitioners responsible for shaping the development of human capability today and into the future

Globalisation, Employment and Education in Sri Lanka Angela W. Little, Siri T. Hettige, 2014-05-23 Since the late 1970s Sri Lanka has undergone a socio economic transformation from protectionism towards economic liberalisation and increasing integration into the world economy Through a systematic comparison of these periods of economic change 1956 1977 and 1977 to the present Angela W Little and Siri T Hettige examine the impact of this transformation on education youth employment and equality of opportunity in Sri Lanka The book charts Sri Lanka s shift from a predominantly agricultural economy to one dominated by services and manufacturing a reduction in unemployment rising educational and occupational levels expectations and achievements and a reduction in poverty In turn it reveals a growing role for the private sector and foreign interests in post secondary education and a modest growth in private education at the primary and secondary levels as well as widening social disparities in access to qualifications training and skills The Sri Lankan experience of and engagement with globalisation has been tempered by a long running ethnic conflict that hindered economic and social development and diverted considerable public funds into defence and war Now that the war is won the challenge is how to invest in human resource development and the fulfilment of the expectations of youth from all ethnic and social groups This challenge requires serious policy analysis the generation of more state revenues the reallocation of existing public resources and a political commitment to the winning of a sustainable peace and stability This book makes an important contribution to the broader international literature on the implications of globalisation for education policy and practice and to the interaction of exogenous and endogenous forces for educational change It deals with the tension between the high social demand for education and the growing demand for specialised skills in a changing economy As such it has a wide interdisciplinary appeal across education policy and politics Asian education South Asian society youth policy sociology of education political economy of social change and globalisation

Understanding Global Skills for 21st Century Professions Douglas Bourn, 2018-10-24 This book highlights the increasing need for people who will be working in professions such as teaching health engineering and business management to have the skills for living and working in a global society Globalisation and the challenges resulting from recent political events in Europe and North America have given rise to a need for training and further and higher education programmes to address the skills young people all need to effectively engage in the current global society Reviewing the range of theories and debates surrounding skills for the twenty first century the author suggests there is a need to directly address the real world issues of today and move beyond abstract concepts such as team work critical thinking and problem solving as important as these concepts are The author proposes a new framework for global skills using examples from international and national policy makers and evidence from further and higher educational programmes and training courses This pioneering yet practical book will be of value to students and

scholars of global education as well as practitioners and policy makers *Policy Transfer in Global Perspective* Mark Evans, 2017-07-05 The world of public policy is becoming increasingly small due to dramatic changes in global communications political and economic institutional structures and to nation states themselves This book evaluates the implications of these changes and challenges for both the study and the practice of policy transfer and provides a unique understanding of the relationship between systemic globalizing forces and the increasing scope and intensity of policy transfer activity It provides an explanation of policy transfer as a process of organizational learning an insight into how and why such processes are studied by policy scientists an evaluation of its use by policy practitioners and the first published collection of policy transfer case studies between developed countries from developed to developing countries and from developing countries
