A Skin for Thought Didier Anzieu, Gilbert Tarrab, 2018-04-19 A French analyst discusses the interface between psychoanalysis and psychology A Skin for Thought takes the form of ten transcribed discussions between Didier Anzieu and Gilbert Tarrab recorded in Montreal during Anzieu's lecture tour there A practitioner and theoretician of individual and group analysis Anzieu speaks frankly of the origins and development of his vocation the stages of his training and the evolution of his research and explains the principal ideas he has developed group illusion the psychic tasks of creativity and the Skin Ego In answer to Gilbert Tarrab's probing questions Didier Anzieu recalls the distinctive atmosphere of his childhood a first analysis with Lacan the events of May 1968 at Nanterre his literary ambitions and his enthusiasm for psychodrama

[Skin, Culture and Psychoanalysis](#) S. Cavanagh, A. Failler, R. Hurst, 2013-01-21 An interdisciplinary study of skin bridging cultural and psychoanalytic theory to consider how the body's exterior is central to human subjectivity and relations The authors explore racialization body modification self harm and comedic representations of skin drawing from the clinical domain visual arts popular culture and literature

Cinema, Suffering and Psychoanalysis Laura Stephenson, 2023-12-14 Cinema Suffering and Psychoanalysis explores psychological disorder as common to the human condition using a unique three angled approach psychoanalysis recognises the inherent suffering encountered by each subject due to developmental phases psychology applies specific categorisation to how this suffering manifests cinema depicts suffering through a combination of video and aural elements Functioning as a culturally reflexive medium the six feature films analysed including *Black Swan* 2010 and *The Machinist* 2004 represent some of the most common psychological disorders and lived experiences of the contemporary era This book enters uncharted terrain in cinema scholarship by combining clinical psychology's Diagnostic and Statistical Manual Five DSM V to organise and diagnose each character and psychoanalysis to track the origin mechanism and affect of the psychological disorder within the

narrative trajectory of each film Lacan's theories on the infantile mirror phase the Imaginary and the Symbolic and his theories on the Real the big Other and the Event and Kristeva's theories on abjection and melancholia work in combination with the DSM's classification of symptoms to interpret six contemporary pieces of cinema By taking into consideration that origin mechanism affect and symptomatology are part of an interconnected group this book explores psychological disorder as part of the human condition something which contributes to and informs personal identity More specifically this research refutes the notion that psychological disorder and psychological health exist as a binary instead recognising that what has traditionally been pathologised may instead be viewed as variations on human identity

Thinking Through the Skin

Sara Ahmed, Jackie Stacey, 2003-09-02 This exciting collection of work from leading feminist scholars including Elspeth Probyn Penelope Deutscher and Chantal Nadeau engages with and extends the growing feminist literature on lived and imagined embodiment and argues for consideration of the skin as a site where bodies take form already written upon but open to endless re inscription Individual chapters consider such issues as the significance of piercing tattooing and tanning the assault of self harm upon the skin the relation between body painting and the land among the indigenous people of Australia and the cultural economy of fur in Canada Pierced mutilated and marked mortified and glorified scarred by disease and stretched and enveloping the skin of another in pregnancy skin is seen here as both a boundary and a point of connection the place where one touches and is touched by others both the most private of experiences and the most public marker of a raced sexed and national history

Bruce Nauman Adi Louria Hayon, 2024-05-06 To date scholars explored Bruce Nauman's oeuvre through various perspectives concepts and premises including linguistics performance power and knowledge sound the political and more Amidst this vast and rich field Nauman's pieces have been regarded by critics in terms of systematic skepticism tragic skepticism skepticism of the medium and linguistic doubt This book methodically analyzes the notion of performative skepticism and its relevance to various dimensions of Bruce Nauman's post minimalist artistic practice It is argued that Nauman performs the perpetual failure of perception hence demonstrating its doubtful validity to produce certain knowledge without allowing a resolution This kind of skepticism here called performative skepticism exposes the impossibility of epistemological equipment to produce knowledge and the impossibility of attaining certainty in bridging the gap between knowledge and the real

Under the Skin Alessandra Lemma, 2010-02-25 Under the Skin considers the motivation behind why people pierce tattoo cosmetically enhance or otherwise modify their body from a psychoanalytic perspective It discusses how the therapist can understand and help individuals for whom the manipulation of the body is felt to be psychically necessary regardless of whether the process of modification causes pain In this book psychoanalyst Alessandra Lemma draws on her work in the consulting room as well as films fiction art and clinical research to suggest that the motivation for extensively modifying the surface of the body is a fundamental human desire

What Is Psychoanalysis? Barnaby B Barratt, 2013-05-20 2020 American Board Academy of Psychoanalysis ABAP's book award winner In a radically powerful interpretation of the human

condition this book redefines the discipline of psychoanalysis by examining its fundamental assumptions about the unconscious mind the nature of personal history our sexualities and the significance of the Oedipus Complex With striking originality Barratt explains the psychoanalytic way of exploring our inner realities and criticizes many of the schools of psychoanalytic psychotherapy that emerged and prospered during the 20th century In 1912 Sigmund Freud formed a Secret Committee charged with the task of protecting and advancing his discoveries In this book Barratt argues both that this was a major mistake making the discipline more like a religious organization than a science and that this continues to infuse psychoanalytic institutes today What is Psychoanalysis takes each of the four fundamental concepts that Freud himself said were the cornerstones of his science of healing and offers a fresh and detailed re examination of their contemporary importance Barratt s analysis demonstrates how the profound work as well as the playfulness of psychoanalysis provides us with a critique of the ideologies that support oppression and exploitation on the social level It will be of interest to advanced students of clinical psychology or philosophy as well as psychoanalysts and psychotherapists

Radical Psychoanalysis

Barnaby B. Barratt, 2016-05-20 2020 American Board Academy of Psychoanalysis ABAPsa book award winner Only by the method of free association could Sigmund Freud have demonstrated how human consciousness is formed by the repression of thoughts and feelings that we consider dangerous Yet today most therapists ignore this truth about our psychic life This book offers a critique of the many brands of contemporary psychoanalysis and psychotherapy that have forgotten Freud s revolutionary discovery Barnaby B Barratt offers a fresh and compelling vision of the structure and function of the human psyche building on the pioneering work of theorists such as Andr Green and Jean Laplanche as well as contemporary deconstruction feminism and liberation philosophy He explores how drive or desire operates dynamically between our biological body and our mental representations of ourselves of others and of the world we inhabit This dynamic vision not only demonstrates how the only authentic freedom from our internal imprisonments comes through free associative praxis it also shows the extent to which other models of psychoanalysis such as ego psychology object relations self psychology and interpersonal relations tend to stray disastrously from Freud s original and revolutionary insights This is a vision that understands the central issues that imprison our psychic lives the way in which the reflections of consciousness are based on the repression of our innermost desires the way in which our erotic vitality is so often repudiated and the way in which our socialization oppressively stifles our human spirit Radical Psychoanalysis restores to the discipline of psychoanalysis the revolutionary impetus that has so often been lost It will be essential reading for psychoanalysts psychoanalytic psychotherapists mental health practitioners and students and academics with an interest in the history of psychoanalysis

Architecture and the Mimetic Self Lucy Huskinson, 2018-02-02 Buildings shape our identity and sense of self in profound ways that are not always evident to architects and town planners or even to those who think they are intimately familiar with the buildings they inhabit Architecture and the Mimetic Self provides a useful theoretical guide to our

unconscious behaviour in relation to buildings and explains both how and why we are drawn to specific elements and features of architectural design. It reveals how even the most uninspiring of buildings can be modified to meet our unconscious expectations and requirements of them and by the same token it explores the repercussions for our wellbeing when buildings fail to do so. Criteria for effective architectural design have for a long time been grounded in utilitarian and aesthetic principles of function, efficiency, cost and visual impact. Although these are important considerations, they often fail to meet the fundamental needs of those who inhabit and use buildings. Misconceptions are rife, not least because our responses to architecture are often difficult to measure and are in large part unconscious. By bridging psychoanalytic thought and architectural theory, *Architecture and the Mimetic Self* frees the former from its preoccupations with interpersonal human relations to address the vital relationships that we establish with our nonhuman environments. In addition to providing a guide to the unconscious behaviours that are most relevant for evaluating architectural design, this book explains how our relationships with the built environment inform a more expansive and useful psychoanalytic theory of human relationship and identity. It will appeal to psychoanalysts and analytical psychologists, architects and all who are interested in the overlaps of psychology, architecture and the built environment. *Dress, Dreams, and Desire* Valerie Steele, 2025-10-30. What can psychoanalysis tell us about the power and allure of fashion? Valerie Steele, author of *Dress, Dreams and Desire*, was described by critic Suzy Menkes as the Freud of fashion. In this pathbreaking book, the first cultural history of fashion and psychoanalysis, Steele does not merely hold a mirror up to fashion's surface; she looks into its soul. A renowned fashion historian, Steele draws on key psychoanalytic concepts about the body, sexuality and the unconscious from the dream theories of Freud and Jung to Lacan's mirror stage and Anzieu's skin ego to interpret the work of designers such as Elsa Schiaparelli, Gianni Versace and Alexander McQueen. She explores how fashion is the lens through which we see ourselves and how others see us. Far from being superficial, fashion can be regarded as a deep surface that communicates our unconscious desires and anxieties with none of us fully aware of what we are saying with the clothes we wear. *Psychoanalysis in the Technoculture Era* Alessandra Lemma, Luigi Caparrotta, 2013-07-18. Alessandra Lemma, Winner of the Levy Goldfarb Award for Child Psychoanalysis. By now, the internet and other forms of virtual communication have been in place for at least twenty years. However, surprisingly little has been written about the use of new technologies in the psychoanalytical literature. As such, *Psychoanalysis in the Technoculture Era* is a timely exposition on the subject of both virtual and analytic space. Bringing together the work of several psychoanalysts, the Editors Alessandra Lemma and Luigi Caparrotta illustrate how new technologies have become an integral part of our everyday lives and how they have silently and subtly permeated the psychoanalytic setting. The contributors explore how new technologies have affected psychoanalytic practice and discuss the advantages and disadvantages of its use. *Psychoanalysis in the Technoculture Era* unravels some of the meanings of virtual world terms and opens this field to greater scrutiny, stimulating and promoting discussion about new technologies in

psychoanalytic practice This book will be of interest to the psychoanalytic community including psychotherapy professionals psychoanalysts post graduate graduate and undergraduate students **From Dualism to Oneness in Psychoanalysis**

Yorai Sella, 2018-01-19 From Dualism to Oneness in Psychoanalysis A Zen Perspective on the Mind Body Question focuses on the shift in psychoanalytic thought from a view of mind body dualism to a contemporary non dualistic perspective Exploring this paradigm shift Yorai Sella examines the impact of the work of psychoanalysts and researchers such as Winnicott Bion Daniel Stern and Kohut and delineates the contributions of three major schools of psychoanalytic thought in which the non dualistic view is exemplified 1 intersubjective 2 neuro psychoanalytic and 3 mystically inclined psychoanalysis Reaching beyond the constraints of dualism Sella delineates the interdisciplinary approaches leading to psychoanalysis s paradigm shift Focusing on the unique contribution of Zen Buddhism the book draws on Ehei D gen s philosophy to substantiate the non duality of subject and object body and mind ultimately leading from alienation and duality to what Bion has termed at one ment The way in which psychoanalytic theory and practice may develop further along these lines is demonstrated throughout the book in a variety of clinical vignettes This book will inform the practice of all psychoanalysts mental health professionals psychotherapists and clinicians interested in mind body issues in psychotherapy in the philosophy of psychoanalysis and in East West dialogue *Psychosomatics Today* Marilia Aisenstein, Elsa Rappoport De

Aisemberg, 2022-06-01 This revised edition of Psychosomatics Today presents a thorough introduction to the different international schools of psychosomatics written by leading professionals and includes three new chapters on current practice As well as exploring key psychosomatic topics focusing primarily on the Paris School the Latin American School the American school of psychosomatic medicine and the Kleinian approach to the soma this revised edition adds a chapter about the German School of Psychosomatics expands upon allergic object relations and tackles the contemporary topic of overflow in theory and clinical practice Spanning a variety of theoretical approaches the book is illustrated by many clinical case studies which provide an engaging holistic picture of the field including adolescent and child therapies Psychosomatics Today will be of great interest to psychoanalysts and psychoanalytic psychotherapists in practice and in training students of psychiatry and psychology and paediatricians and medical practitioners seeking a fuller understanding of psychosomatics *Somatic Experience in Psychoanalysis and Psychotherapy* William F Cornell, 2015-03-27

The body of both the patient and the analyst is increasingly a focus of attention in contemporary psychoanalytic theory and practice especially from a relational perspective There is a renewed regard for the understanding of embodied experience and sexuality as essential to human vitality However most of the existing literature has been written by analysts with no formal training in body centered work In this book William Cornell draws on his experience as a body centered psychotherapist to offer an informed blend of the two traditions to allow psychoanalysts a deep understanding in psychoanalytic language of how to work with the body as an ally The primary focus of Somatic Experience in Psychoanalysis and Psychotherapy situates systematic attention to somatic

experience and direct body level intervention in the practice of psychoanalysis and psychotherapy It provides a close reading of the work of Wilhelm Reich repositioning his work within a contemporary psychoanalytic frame and re presents Winnicott s work with a particular emphasis on the somatic foundations of his theories William Cornell includes vivid and detailed case vignettes including accounts of his own bodily experience to fully illustrate a range of somatic attention and intervention that include verbal description of sensate experience exploratory movement and direct physical contact Drawing on relevant theory and significant clinical material *Somatic Experience in Psychoanalysis and Psychotherapy* will allow psychoanalysts an understanding of how to work with the body in their clinical practice It will bring a fresh perspective on psychoanalytic thinking to body centred psychotherapy where somatic experience is seen as an ally to psychic and interpersonal growth This book will be essential reading for psychoanalysts psychodynamically oriented psychotherapists transactional analysts body centred psychotherapists Gestalt therapists counsellors and students William Cornell maintains an independent private practice of psychotherapy and consultation in Pittsburgh PA He has devoted 40 years to the study and integration of psychoanalysis neo Reichian body therapy and transactional analysis He is a Training and Supervising Transactional Analyst and has established an international reputation for his teaching and consultation *The Book of Skin* Steven

Connor,2009-01-15 It is the largest and perhaps the most important organ of our body it covers our fragile inner parts defines our social identities and channels our sensory experiences And yet we rarely give a thought With *The Book of Skin* Steven Connor aims to change all that offering an intriguing cultural history of skin Connor first examines physical issues such as leprosy skin pigmentation cancer blushing and attenuations of erotic touch He also explains why specific colors symbolize certain emotions such as green for envy or yellow for cowardice as well as why skin is the focus of destructive rage in many people s violent fantasies *The Book of Skin* then probes into how skin has been such a powerfully symbolic terrain in photography religious iconography cinema and literature From the Turin shroud to Ralph Ellison s *Invisible Man* to plastic surgery *The Book of Skin* expertly examines the role of skin in Western culture A compelling read that penetrates well beyond skin deep *The Book of Skin* validates James Joyce s declaration that modern man has an epidermis rather than a soul Richly conceived and elaborately thought out No flicker of meaning has escaped Connor s ferocious all seeing eye Guardian

Integrating Relational Psychoanalysis and EMDR Hemda Arad,2017-09-22 *Integrating Relational Psychoanalysis and EMDR Embodied Experience and Clinical Practice* provides contemporary theoretical and clinical links between Relational Psychoanalysis attachment theory neuroscience and Eye Movement Desensitization and Reprocessing all of which bring both the patient s and analyst s embodied experience into the forefront of clinical thinking and practice The author grounds an in depth view on the ways psychoanalysis and EMDR can be effectively integrated to complement each other through a presentation of fundamental concepts and an abundance of insightful and moving clinical vignettes Hemda Arad outlines the theoretical and clinical concepts that allow the integration of Relational Psychoanalysis with EMDR s unique contributions

specifically appreciating the neurological and embodied experience in an individual's development in relation to the classic talking cure's approach to dealing with big T trauma and with small t everyday attachment related trauma Arad describes a view of a modified EMDR approach capable of reaching many patients beyond the trauma work for which it originally became known in order to lend its more embodied approach to the advancement of the relational endeavor Vivid clinical illustrations chosen to elucidate theoretical concepts make the complex theoretical ideas more accessible The clinical portions illustrate a range of ways that EMDR and relational work which may at first seem incompatible may be integrated to help therapists navigate the two methods Integrating Relational Psychoanalysis and EMDR Embodied Experience and Clinical Practice will appeal to psychoanalysts psychoanalytic psychotherapists and psychodynamic therapists who wish to learn about the relational tradition in theory and practice or are seeking a way to integrate their work with other versatile approaches such as EMDR as well as advanced students studying across these areas and EMDR clinicians who would like to broaden the scope of their skills

The Architecture of Psychoanalysis Jane Rendell, 2017-03-01 In this thought provoking book Jane Rendell explores how architectural space registers in psychoanalysis She investigates both the inherently spatial vocabulary of psychoanalysis and ideas around the physical setting of the psychoanalytic encounter with reference to Sigmund Freud D W Winnicott and Andre Green Building on the innovative writing methods employed in Art and Architecture and Site Writing she also addresses the concept of architecture as social condenser a Russian constructivist notion that connects material space and community relations Tracing this idea's progress from 1920s Moscow to 1950s Britain Rendell shows how interior and exterior meet in both psychoanalysis and architectural practice Illuminating a novel field of interdisciplinary enquiry this book breathes fresh life into notions of social space

Minding the Body Alessandra Lemma, 2014-08-13 Minding the Body The Body in Psychoanalysis and Beyond outlines the value of a psychoanalytic approach to understanding the body and its vicissitudes and for addressing these in the context of psychoanalytic psychotherapy and psychoanalysis The chapters cover a broad but esoteric range of subjects that are not often discussed within psychoanalysis such as the function of breast augmentation surgery the psychic origins of hair the use made of the analyst's toilet transsexuality and the connection between dermatological conditions and necrophilic fantasies The book also reaches beyond the couch to consider the nature of reality television makeover show The book is based on the Alessandra Lemma's extensive clinical experience as a psychoanalyst and psychologist working in a range of public and private health care settings with patients for whom the body is the primary presenting problem or who have made unconscious use of the body to communicate their psychic pain Minding the Body draws on detailed clinical examples that vividly illustrate how the author approaches these clinical presentations in the consulting room and as such provides insights to the practicing clinician that will support their attempts at formulating patients difficulties psychoanalytically and for how to help such patients It will be essential reading for psychoanalysts psychologists psychiatrists mental health workers academics and literary readers interested in the body sexuality and gender

The Enigmatic Realm of **Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary. Within the captivating pages of **Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis** a literary masterpiece penned with a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting effect on the hearts and minds of those that partake in its reading experience.

Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis Introduction

In the digital age, access to information has become easier than ever before. The ability to download Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis has opened up a world of possibilities. Downloading Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis. These

websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis Books

What is a Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Skin For**

Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis PDF to another file format? There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Skin For Thought Interviews With Gilbert Tarrab On Psychology And Psychoanalysis PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
