the kind of smothering and sonning that just hasn't worked John Lee will show them the way      *When Your Children Marry* Deborah M. Merrill, 2011-05-05 Marriage is an important transition in the life of any adult who marries But often when a son or daughter gets married their relationships with their natal families changes It is often said that a daughter is a daughter all of her life but a son is a son til he takes him a wife This book examines how marriage changes relationships between adult children and their parents and how this differs for sons versus daughters Merrill considers the process by which men get pulled into their wives families and the ways in which men are sometimes more connected to their wives families following marriage than to their own families But what is it about a relationship with a son that changes when he marries And why do daughters tend to stay closer Why do mothers experience greater difficulty in negotiating relationships with married sons than with married daughters Why do daughters tend to stay closer and maintain stronger ties to their natal families than sons do This book answers these questions and offers advice for mothers on how to maintain strong ties with their children when they marry negotiate relationships that may be fraught with new challenges and accept changes when they happen Sharing firsthand accounts from mothers sons and daughters the author sheds new light on this neglected topic      **Memory for Everyday and Emotional Events** Nancy L. Stein, Peter A. Ornstein, Barbara Tversky, Charles Brainerd, 2013-11-19 The nature of memory for everyday events and the contexts that can affect it are controversial topics being investigated by researchers in cognitive social clinical and developmental lifespan psychology today This book brings many of these researchers together in an attempt to unpack the contextual and processing variables that play a part in everyday memory particularly for emotion laden events They discuss the mental structures and processes that operate in the formation of memory representations and their later retrieval and interpretation      **The Psychology of Sex Differences** Eleanor E.
