Writing Shane Borrowman, 2012-02-01 Deepening and broadening our understanding of what it means to teach in times of trauma, writing teachers analyze their own responses to national traumas ranging from the Japanese attack on Pearl Harbor to the various appropriations of 9/11. Offering personal, historical and cultural perspectives, they question both the purposes and pedagogies of teaching writing **Better Day Coming** Adam Fairclough, 2002-06-25 From the end of postwar

Reconstruction in the South to an analysis of the rise and fall of Black Power, acclaimed historian Adam Fairclough presents a straightforward synthesis of the century-long struggle of black Americans to achieve civil rights and equality in the United States. Beginning with Ida B. Wells and the campaign against lynching in the 1890s, Fairclough chronicles the tradition of protest that led to the formation of the NAACP, Booker T. Washington and the strategy of accommodation, Marcus Garvey and the push for black nationalism through to Martin Luther King Jr. and the Civil Rights Movement of the 1960s and beyond. Throughout, Fairclough presents a judicious interpretation of historical events that balances the achievements of the Civil Rights Movement against the persistence of racial and economic inequalities *Undaunted by the Fight* Harry G.

Lefever, 2005 *Undaunted by the Fight* is a study of a small but dedicated group of Spelman College students and faculty who between 1957 and 1967 risked their lives, compromised their grades and jeopardized their careers to make Atlanta and the South a more just and open society. Lefever argues that the participation of Spelman's students and faculty in the Civil Rights Movement represented both a continuity and a break with the institution's earlier history. On the one hand, their actions were consistent with Spelman's long history of liberal arts and community service; yet on the other hand, as his research documents, their actions represented a break with Spelman's traditional non-political stance and challenged the assumption that social changes should occur only gradually and within established legal institutions. For the first time in the eighty-plus years of Spelman's existence, the students and faculty who participated in the Movement took actions that directly challenged the injustices of the social and political status quo. Too often in the past, the Movement literature, including the literature on the

Atlanta Movement focused disproportionately on the males involved to the exclusion of the women who were equally involved and who in many instances initiated actions and provided leadership for the Movement Lefever concludes his study by saying that Spelman's activist students and faculty succeeded to the extent they did because they kept their eyes on the prize They endured the struggle he says and in so doing eventually won many prizes some personal others social Undaunted they liberated themselves but at the same time they liberated their school their city and the larger society

Sanctuaries of Segregation Carter Dalton Lyon, 2017-03-20 Winner of the 2017 Eudora Welty Prize Sanctuaries of Segregation provides the first comprehensive analysis of the Jackson Mississippi church visit campaign of 1963-1964 and the efforts by segregationists to protect one of their last refuges For ten months integrated groups of ministers and laypeople attempted to attend Sunday worship services at all white Protestant and Catholic churches in the state's capital city While the church visit was a common tactic of activists in the early 1960s Jackson remained the only city where groups mounted a sustained campaign targeting a wide variety of white churches Carter Dalton Lyon situates the visits within the context of the Jackson Movement compares the actions to church visits and kneel-ins in other cities and places these encounters within controversies already underway over race inside churches and denominations He then traces the campaign from its inception in early June 1963 through Easter Sunday 1964 He highlights the motivations of the various people and organizations the interracial dialogue that took place on the church steps the divisions and turmoil the campaign generated within churches and denominations the decisions by individual congregations to exclude black visitors and the efforts by the state and the Citizens Council to thwart the integration attempts Sanctuaries of Segregation offers a unique perspective on those tumultuous years Though most churches blocked African American visitors and police stepped in to make forty arrests during the course of the campaign Lyon reveals many examples of white ministers and laypeople stepping forward to oppose segregation Their leadership and the constant pressure from activists seeking entrance into worship services made the churches of Jackson one of the front lines in the national struggle over civil rights

A Consumers' Republic Lizabeth Cohen, 2008-12-24 In this signal work of history Bancroft Prize winner and Pulitzer Prize finalist Lizabeth Cohen shows how the pursuit of prosperity after World War II fueled our pervasive consumer mentality and transformed American life Trumpeted as a means to promote the general welfare mass consumption quickly outgrew its economic objectives and became synonymous with patriotism social equality and the American Dream Material goods came to embody the promise of America and the power of consumers to purchase everything from vacuum cleaners to convertibles gave rise to the power of citizens to purchase political influence and effect social change Yet despite undeniable successes and unprecedented affluence mass consumption also fostered economic inequality and the fracturing of society along gender class and racial lines In charting the complex legacy of our Consumers Republic Lizabeth Cohen has written a bold encompassing and profoundly influential book

From Southern Wrongs to Civil Rights Sara Mitchell Parsons, 2009-02 This first hand account tells the story of turbulent civil rights era Atlanta through the eyes of a white upper class woman who became an outspoken advocate for integration and racial equality As a privileged white woman who grew up in segregated Atlanta Sara Mitchell Parsons was an unlikely candidate to become a civil rights agitator After all her only contacts with blacks were with those who helped raise her and those who later helped raise her children As a young woman she followed the conventional path expected of her becoming the dutiful wife of a conservative husband going to the country club and playing bridge But unlike many of her peers Parsons harbored an increasing uneasiness about racial segregation In a memoir that includes candid diary excerpts Parsons chronicles her moral awakening With little support from her husband she runs for the Atlanta Board of Education on a quietly integrationist platform and once elected becomes increasingly outspoken about inequitable school conditions and the slow pace of integration Her activities bring her into contact with such civil rights leaders as Martin Luther King Jr and his wife Coretta Scott King For a time she leads a dual existence sometimes traveling the great psychic distance from an NAACP meeting on Auburn Avenue to an all white party in upscale Buckhead She eventually drops her ladies clubs and her deepening involvement in the civil rights movement costs Parsons many friends as well as her first marriage

Gateway to Equality Keona K. Ervin, 2017-07-28 Like most of the nation during the 1930s St Louis Missouri was caught in the stifling grip of the Great Depression For the next thirty years the Gateway City continued to experience significant urban decline as its population swelled and the area s industries stagnated Over these decades many African American citizens in the region found themselves struggling financially and fighting for access to profitable jobs and suitable

working conditions To combat ingrained racism crippling levels of poverty and sub standard living conditions black women worked together to form a community based culture of resistance fighting for employment a living wage dignity representation and political leadership Gateway to Equality investigates black working class women s struggle for economic justice from the rise of New Deal liberalism in the 1930s to the social upheavals of the 1960s Author Keona K Ervin explains that the conditions in twentieth century St Louis were uniquely conducive to the rise of this movement since the city s economy was based on light industries that employed women such as textiles and food processing As part of the Great Migration black women migrated to the city at a higher rate than their male counterparts and labor and black freedom movements relied less on a charismatic male leadership model This made it possible for women to emerge as visible and influential leaders in both formal and informal capacities In this impressive study Ervin presents a stunning account of the ways in which black working class women creatively fused racial and economic justice By illustrating that their politics played an important role in defining urban political agendas her work sheds light on an unexplored aspect of community activism and illuminates the complexities of the overlapping civil rights and labor movements during the first half of the twentieth century Rhetoric, Religion and the Civil Rights Movement, 1954-1965 Davis W. Houck, David E. Dixon, 2006 V 2 Building upon their critically acclaimed first volume Davis W Houck and David E Dixon s new Rhetoric Religion and the Civil Rights Movement 1954 1965 is a recovery project of enormous proportions Houck and Dixon have again combed church archives government documents university libraries and private collections in pursuit of the civil rights movement s long buried eloquence Their new work presents fifty new speeches and sermons delivered by both famed leaders and little known civil rights activists on national stages and in quiet shacks The speeches carry novel insights into the ways in which individuals and communities utilized religious rhetoric to upset the racial status quo in divided America during the civil rights era Houck and Dixon s work illustrates again how a movement so prominent in historical scholarship still has much to teach us Publisher **Freedom Riders** Raymond Arsenault, 2006-01-15 They were black and white young and old men and women In the spring and summer of 1961 they put their lives on the line riding buses through the American South to challenge segregation in interstate transport Their story is one of the most celebrated episodes of the civil rights movement yet a full length history has never been written until now In these pages acclaimed historian Raymond Arsenault provides a gripping account of six pivotal months that jolted the consciousness of America The Freedom Riders were greeted with hostility fear and violence They were jailed and beaten their buses stoned and firebombed In Alabama police stood idly by as racist thugs battered them When Martin Luther King met the Riders in Montgomery a raging mob besieged them in a church Arsenault recreates these moments with heart stopping immediacy His tightly braided narrative reaches from the White House where the Kennedys were just awakening to the moral power of the civil rights struggle to the cells of Mississippi s infamous Parchman Prison where Riders tormented their jailers with rousing freedom anthems Along the way he offers vivid portraits

of dynamic figures such as James Farmer Diane Nash John Lewis and Fred Shuttlesworth recapturing the drama of an improbable almost unbelievable saga of heroic sacrifice and unexpected triumph The Riders were widely criticized as reckless provocateurs or outside agitators But indelible images of their courage broadcast to the world by a newly awakened press galvanized the movement for racial justice across the nation Freedom Riders is a stunning achievement a masterpiece of storytelling that will stand alongside the finest works on the history of civil rights We Are an African People Russell Rickford,2016-01-14 During the height of the Black Power movement of the late 1960s and 1970s dozens of Pan African nationalist private schools from preschools to post secondary ventures appeared in urban settings across the United States The small independent enterprises were often accused of teaching hate and were routinely harassed by authorities Yet these institutions served as critical mechanisms for transmitting black consciousness Founded by activist intellectuals and other radicalized veterans of the civil rights movement the schools strove not simply to bolster the academic skills and self esteem of inner city African American youth but also to decolonize minds and foster a vigorous and regenerative sense of African identity In We Are An African People historian Russell Rickford traces the intellectual lives of these autonomous black institutions established dedicated to pursuing the self determination that the integrationist civil rights movement had failed to provide Influenced by Third World theorists and anticolonial campaigns organizers of the schools saw formal education as a means of creating a vanguard of young activists devoted to the struggle for black political sovereignty throughout the world Most of the institutions were short lived and they offered only modest numbers of children a genuine alternative to substandard inner city public schools Yet their stories reveal much about Pan Africanism as a social and intellectual movement and as a key part of an indigenous black nationalism Rickford uses this largely forgotten movement to explore a particularly fertile period of political cultural and social revitalization that strove to revolutionize African American life and envision an alternate society Reframing the post civil rights era as a period of innovative organizing he depicts the prelude to the modern Afrocentric movement and contributes to the ongoing conversation about urban educational reform race and identity **An Ex-colored Church** Raymond R. Sommerville,2004 The Christian Methodist Episcopal Church was an important part of the historic freedom struggles of African Americans from Reconstruction to the Civil Rights movement This fight for equality and freedom can be seen clearly in the denomination s evolving social and ecumenical consciousness The denomination s very name changed from Colored to Christian in 1954 but the denomination did not join the struggle late Rather the CME was a critical participant from the days following the Civil War At times the Church was at odds with their white Methodist counterparts and in solidarity with other African American denominations on issues of racial desegregation and the role of social protest in religion Raymond Sommerville s important book discusses the relationship between Martin Luther King Jr and the Southern Christian Leadership Conference and the CME While King and others received most of the headlines during the Civil Rights Era the CME proved to be involved at all levels and equally important in all they did With its

strategic location in the South and its long history of ecumenical involvement the CME Church emerged as a leading advocate of ecumenical civil rights activism Previous interpretations asserted that the CME was apolitical and accomodationist or that it was more progressive than it was Sommerville presents a more nuanced account of how a church of largely former slaves emancipated itself from the constraints of white Methodist paternalism and Jim Crow racism to emerge as a progressive force of racial justice and ecumenism in the South and beyond Sommerville examines major centers of the CME Nashville Birmingham Memphis Atlanta and selected leaders in the South in charting the gradual metamorphosis of the former CME as a largely nonpolitical body of former slaves in 1870 to a more politically active denomination at the apex of the modern Civil Rights movement in the 1960s **You Must Be from the North** Kimberly K. Little, 2009-10-20

You must be from the North was a common derogatory reaction to the activities of white women throughout the South well meaning wives and mothers who joined together to improve schools or local sanitation but found their efforts decried as more troublesome civil rights agitation You Must Be from the North Southern White Women in the Memphis Civil Rights Movement focuses on a generation of white women in Memphis Tennessee born between the two World Wars and typically omitted from the history of the civil rights movement The women for the most part did not jeopardize their lives by participating alongside black activists in sit ins and freedom rides Instead they began their journey into civil rights activism as a result of their commitment to traditional female roles through such organizations as the Junior League What originated as a way to do charitable work however evolved into more substantive political action While involvement with groups devoted to feeding school children and expanding Bible study sessions seemed benign these white women s growing awareness of racial disparities in Memphis and elsewhere caused them to question the South s hierarchies in ways many of their peers did not Ultimately they found themselves challenging segregation more directly found themselves ostracized as a result and discovered they were often distrusted by a justifiably suspicious black community Their newly discovered commitment to civil rights contributed to the success of the city s sanitation workers strike of 1968 Dr Martin Luther King Jr s death during the strike resonated so deeply that for many of these women it became a defining moment In the long term these women proved to be a persistent and progressive influence upon the attitudes of the white population of Memphis and particularly on the city s elite *Ella Baker and the Black Freedom Movement, Second Edition* Barbara Ransby, 2024-10-15

One of the most important African American leaders of the twentieth century and perhaps the most influential woman in the civil rights movement Ella Baker 1903 1986 was an activist whose remarkable career spanned fifty years and touched thousands of lives A gifted grassroots organizer Baker shunned the spotlight in favor of vital behind the scenes work that helped power the Black freedom struggle Making her way in predominantly male circles while maintaining relationships with a vibrant group of women students and activists Baker was a national officer and key figure in the NAACP a founder of the Southern Christian Leadership Conference and a prime mover in the creation of the Student Nonviolent Coordinating Committee In

this definitive biography Barbara Ransby chronicles Baker's long and rich career revealing her complexity radical democratic worldview and enduring influence on group centered grassroots activism Beyond documenting an extraordinary life Ransby paints a vivid picture of the African American fight for justice and its intersections with other progressive struggles worldwide throughout the twentieth century

Freedom North J. Theoharis, K. Woodard, 2016-03-05 The civil rights movement occupies a prominent place in popular thinking and scholarly work on post 1945 U S history Yet the dominant narrative of the movement remains that of a nonviolent movement born in the South during the 1950s that emerged triumphant in the early 1960s only to be derailed by the twin forces of Black Power and white backlash when it sought to move outside the South after 1965 African American protest and political movements outside the South appear as ancillary and subsequent to the real movement in the South despite the fact that black activism existed in the North Midwest and West in the 1940s and persisted well into the 1970s This book brings together new scholarship on black social movements outside the South to rethink the civil rights narrative and the place of race in recent history Each chapter focuses on a different location and movement outside the South revealing distinctive forms of U S racism according to place and the varieties of tactics and ideologies that community members used to attack these inequalities to show that the civil rights movement was indeed a national movement for racial justice and liberation

The Culture War in the Civil Rights Movement Joe Street, 2017-07-21 Offers a lively well informed and perceptive analysis of the links between the postwar African American freedom struggle and various forms of black cultural expression and organizing
