Sound And Vision Dataworld:

Cybermedia Carol Vernallis, Holly Rogers, Jonathan Leal, Selmin Kara, 2021-10-21 We are experiencing a time when digital technologies and advances in artificial intelligence, robotics and big data are redefining what it means to be human. How do these advancements affect contemporary media and music? This collection traces how media with a focus on sound and image engages with these new technologies. It bridges the gap between science and the humanities by pairing humanists' close readings of contemporary media with scientists' discussions of the science and math that inform them. This text includes contributions by established and emerging scholars performing across the aisle research on new technologies exploring topics such as facial and gait recognition, EEG and audiovisual materials, surveillance and sound and images in relation to questions of sexual identity, race, ethnicity, disability and class, and includes examples from a range of films and TV shows including Blade Runner, Black Mirror, Mr. Robot, Morgan, Ex Machina and Westworld. Through a variety of critical, theoretical, proprioceptive and speculative lenses, the collection facilitates interdisciplinary thinking and collaboration and provides readers with ways of responding to these new technologies.

Data Mining John Wang, 2003-01-01 Data Mining Opportunities and Challenges presents an overview of the state of the art approaches in this new and multidisciplinary field of data mining. The primary objective of this book is to explore the myriad issues regarding data mining, specifically focusing on those areas that explore new methodologies or examine case studies. This book contains numerous chapters written by an international team of forty-four experts representing leading scientists and talented young scholars from seven different countries.

[Open Data Exposed](#) Bastiaan van Loenen, Glenn Vancauwenberghe, Joep Crompvoets, 2018-10-25 The main objectives of this book are to expose key aspects that have a relevance when dealing with open data, viewed from different perspectives, and to provide appealing examples of how open data is implemented worldwide. The concept of open data as we know it today is the result of many different initiatives, both of a legislative and non-legislative nature, and promoted by a wide range of actors. Numerous regulatory antecedents to foster the concept of open data and embed it in national and international policy agendas have been undertaken on both sides of the Atlantic, as well as at a supranational level. The book highlights a number of the efforts made to promote open data in Europe, Asia and the United States. In addition to new insights, practical guidance and multiple disciplinary perspectives on open data, the book also addresses the transformation of current developments towards open data, which may be referred to as the democratisation of data. This book will support open data practitioners as well as open data scholars in their endeavours to promote open data implementation and research. Bastiaan van Loenen is associate professor and director of the Knowledge Centre Open Data at the Faculty of Architecture and The Built Environment of Delft University of Technology in the Netherlands, as is Glenn Vancauwenberghe who is a post-doctoral researcher, and Joep Crompvoets is a professor at the Public Governance Institute of the KU Leuven in Belgium.

Releasing the Image Jacques Khalip, Robert Mitchell, Giorgio Agamben, Cesare Casarino, Peter Geimer, Mark Hansen, 2011-08-09 It has become a commonplace that images were central to the twentieth century and that their role will be even more powerful in the twenty first But what is an image and what can an image be Releasing the Image understands images as something beyond mere representations of things Releasing images from that function it shows them to be self referential and self generative and in this way capable of producing forms of engagement beyond spectatorship and subjectivity This understanding of images owes much to phenomenology the work of Husserl Heidegger and Merleau Ponty and to Gilles Deleuze's post phenomenological work The essays included here cover historical periods from the Romantic era to the present and address a range of topics from C zanne's painting to images in poetry to contemporary audiovisual art They reveal the aesthetic ethical and political stakes of the project of releasing images and provoke new ways of engaging with embodiment agency history and technology

Immersive Analytics Kim Marriott, Falk Schreiber, Tim Dwyer, Karsten Klein, Nathalie Henry Riche, Takayuki Itoh, Wolfgang Stuerzlinger, Bruce H. Thomas, 2018-10-15 Immersive Analytics is a new research initiative that aims to remove barriers between people their data and the tools they use for analysis and decision making Here the aims of immersive analytics research are clarified its opportunities and historical context as well as providing a broad research agenda for the field In addition it is reviewed how the term immersion has been used to refer to

Reader Martyn Jones, 2025-07-28 Ah GoodStrat.com a website that sounds like it should be selling laminated PowerPoint templates to underqualified middle managers but is in fact the online bunker of Martyn Richard Jones a man who writes as if he's furiously trying to save British democracy using only a thesaurus a broadband connection and the ghost of Denis Healy Tony Benn and Julio Anguita whispering in his ear Visiting GoodStrat.com is like wandering into a dusty attic where someone's scrawled the entire history of post-war British politics on the back of a Corn Flakes box while also trying to explain offshoring behavioural economics and why Jeremy Corbyn is actually the political equivalent of Gandalf He arrives precisely when he means to and usually loses a few Shadow Cabinet members in the process What Is GoodStrat GoodStrat or Good Strategy is meant to be the antidote to all the Bad Strategy out there i.e. most of British politics since 2010 and every single

decision involving Chris Janet or Bob Grayling But rather than publishing neat bullet points and shiny consultancy speak GoodStrat com delivers long opinion drenched blog posts written in the style of a lecturer who s just realised the lecture theatre is empty but decides to finish the slide deck anyway out of sheer principle
