Gender Talk Johnnetta B. Cole, Beverly Guy-Sheftall, 2009-01-16 Why has the African American community remained silent about gender even as race has moved to the forefront of our nation's consciousness In this important new book two of the nation's leading African American intellectuals offer a resounding and far reaching answer to a question that has been ignored for far too long Hard hitting and brilliant in its analysis of culture and sexual politics Gender Talk asserts boldly that gender matters are critical to the Black community in the twenty first century In the Black community rape violence against women and sexual harassment are as much the legacy of slavery as is racism Johnnetta Betsch Cole and Beverly Guy Sheftall argue powerfully that the only way to defeat this legacy is to focus on the intersection of race and gender Gender Talk examines why the race problem has become so male centered and how this has opened a deep divide between Black women and men The authors turn to their own lives offering intimate accounts of their experiences as daughters wives and leaders They examine pivotal moments in African American history when race and gender issues collided with explosive results from the struggle for women's suffrage in the nineteenth century to women's attempts to gain a voice in the Black Baptist movement and on into the 1960s when the Civil Rights movement and the upsurge of Black Power transformed the Black community while sidelining women Along the way they present the testimonies of a large and influential group of Black women and men including bell hooks Faye Wattleton

Women, Agency, and the New Black Feminism Maria del Guadalupe Davidson,2017-02-17 The powerful Beyonc formidable Rihanna and the incalculable Nikki Minaj Their images lead one to wonder are they a new incarnation of black feminism and black women s agency or are they only pure fantasy in which instead of having agency they are in fact the products of the forces of patriarchy and commercialism More broadly one can ask whether black women in general are only being led to believe that they have power but are really being drawn back into more complicated systems of exploitation and oppression Or are black women subverting patriarchy by challenging notions of their subordinate and exploitable sexuality In other words who is playing who Black Women Agency and the New Black Feminism identifies a generational divide between

traditional black feminists and younger black women While traditional black feminists may see for example sexualized images of black women negatively and as an impediment to progress younger black women tend to embrace these new images and see them in a positive light After carefully setting up this divide this enlightening book will suggest that a more complex understanding of black feminist agency needs to be developed one that is adapted to the complexities faced by the younger generation in today's world Arguing the concept of agency as an important theme for black feminism this innovative title will appeal to scholars teachers and students interested in black feminist and feminist philosophy identity construction subjectivity and agency race gender and class

Kids Talk Susan M. Hoyle, Carolyn Temple Adger, 1998 Between early childhood and adulthood language acquisition is succeeded by a bloom of repertoire for managing interaction a growing sensitivity to the relation of language and society an expanding ability to wield power through the strategic use of language and an increasing sophistication in framing speech activities This book examines a wide range of language practices among school age children and teenagers using data from naturally occurring recorded talk and from careful observation of interaction in peer groups The contributors analyze talk at play at school and at work documenting the growing communicative skills of young people while always focusing on what young speakers themselves do with and through language Theoretical constructs to which the contributors appeal include Goffman's notion of footing and Hymes communicative competence as well as multiple characterizations of discourse structure The chapters show older children as strategic language users dynamic actors who are often concerned with defining themselves as a distinctive group different from adults yet who just as often display proficiency at sophisticated discourse activities that presage those of adulthood

Womanism Rising Layli Maparyan, 2025-01-07

Womanism Rising concludes Layli Maparyan's three book exploration of womanist studies. The collection showcases new work by emerging womanist authors who expand the womanist idea while extending womanism to new sites, new problems, and new audiences. Maparyan organizes the contributions around five key ideas. The first section looks at womanist self-care as a life-saving strategy. The second examines healing the Earth as a prerequisite to healing ourselves. In Part Three, the essays illuminate how womanism's politics of invitation provides a strategy for enlarging humanity's circle of inclusion, while Part Four considers womanism as both a challenge and antidote to dehumanization. The final section delves into womanism's potential for constructing worlds and futures. In addition, Maparyan includes a section of works by womanist visual artists. Defiant and far-sighted, *Womanism Rising* takes readers on a journey into a new generation of concepts, ideas, and strategies for womanist studies. *Race, Sex, and Gender in Contemporary Women's Theatre* Mary F. Brewer, 1999-01-01. Focusing on dramatic works by contemporary British and American playwrights in conjunction with feminist political and theoretical texts, this book discusses feminist constructions of the category Woman. *Speaking Out of Turn* Stephanie Sparling Williams, 2021-08-24. *Speaking Out of Turn* is the first monograph dedicated to the forty-year oeuvre of feminist conceptual artist Lorraine O'Grady. Examining O'Grady's use of language, both written and spoken, Stephanie Sparling Williams charts the artist's strategic use of direct address, the dialectic posture her art takes in relationship to its viewers, to trouble the field of vision and claim a voice in the late 1970s through the 1990s when her voice was seen as out of turn in the art world. *Speaking Out of Turn* situates O'Grady's significant contributions within the history of American conceptualism and performance art while also attending to the work's heightened visibility in the contemporary moment, revealing both the marginalization of O'Grady in the past and an urgent need to revisit her art in the present. *Rethinking Classroom Participation* Katherine Schultz, 2009-10-30. Katherine Schultz examines the complex role student silence can play in teaching and learning. Urging teachers to listen to student silence in new ways, this book offers real-life examples and proven strategies for rethinking classroom participation to include all students: those eager to raise their hands to speak and those who may pause or answer in different ways from publisher description. *Key Concepts in Postcolonial Literature* Gina Wisker, 2006-11-14. *Key Concepts in Postcolonial Literature* provides an overview of the main themes, issues, and critical perspectives that have had the greatest effect on postcolonial literatures. Discussing historical, cultural, and contextual background, it contains selected work of some of the major writers from this period. **Transverse Disciplines** Simone Pflieger, Carrie Smith, 2022-08-31. For at least a decade, university foreign language programs have been in decline throughout the English-speaking world. As programs close or are merged into large multi-language departments, disciplines such as German studies find themselves struggling to survive. *Transverse Disciplines* offers an overview of the current research on the humanities and the academy at large and proposes creative and courageous ideas for the university of the future. Using German studies as a case study, the book examines localized academic work in Australia, Canada, the United Kingdom, and the

United States in order to model new ideas for invigorated thinking beyond disciplinary specificity university communities and entrenched academic practices In essays that are theoretical speculative experimental and deeply personal contributors suggest that German studies might do better to stop trying to protect existing national and disciplinary arrangements Instead the discipline should embrace feminist queer anti racist and decolonial academic practices and commitments including community based work research creation and scholar activism Interrogating the position of researchers teachers and administrators inside and outside academia Transverse Disciplines takes stock of the increasingly tenuous position of the humanities and stakes a claim for the importance of imagining new disciplinary futures within the often restrictive and harmful structures of the academy
