Subjects in Poetry Daniel Brown,2021-11-17 Daniel Brown s *Subjects in Poetry* is the first book to examine the broad and imposing topic of poetic subject matter probing both what poems are about and how that influences the way they re made It comprises one poet s attempt to plumb the nature of his art to ask how the selection of material remains a crucial yet unexplored area of poetic craft and to suggest the vast range of possible subjects for poems The book begins by venturing a novel definition of subject derived from Robert Frost s dictum that poetry constitutes an art of having something to say Brown posits that a poem can say something by expressing evoking or addressing He considers each of these ways of saying in turn first defining it and then looking at poems in which it predominates Brown next makes a wide

ranging case for the value of subjects to poems poets and the art of poetry especially at a time when many poems appear subjectless He concludes the book with practical guidance on finding subjects improving them and realizing their potential Replete with thoughtful readings of poems both classic and contemporary Subjects in Poetry should appeal to poets across all levels and readers interested in understanding the art and practice of poetry **The Nest Newlywed Handbook** Carley Roney, Editors of the Nest, 2013-02-13 If only the answer to every marital question were as easy as I do For many couples the challenges of planning their nuptials are a piece of wedding cake compared to what comes after How do we merge our finances or do we Do we need to spend every free minute together And how do we decide where to spend our first Thanksgiving Online wedding community The Knot was fielding so many questions like these from their newly married members that they were inspired to create an entirely new site The Nest dedicated to the unique issues that face people in the first few years of marriage A 24/7 virtual married best friend who's been there before the site and its thousands of just married members dish out advice on everything from how to get your permanent roommate to pick up his or her dirty socks to how to inspect a property when you're buying your first home to foolproof guidelines for entertaining the in-laws Unlike single friends who don't have the experience to give tried and true advice or Mom who has lots of experience but tends to give too much advice Nesties share their experiences with no strings attached and free of the worries that come with real world friendship Now the editors of The Nest have brought together the very best of this hard won knowledge plus their own astute insights into the early years of marriage to create a unique resource for navigating the sometimes bumpy road of marriage Touching on everything from money to sex and starting a family they go where no etiquette book or self help manual has gone before providing real life solutions for the myriad problems even the happiest couple can encounter when two become one Get tips and tricks on Merging your money or not Building the family fortune Loving your in-laws Buying your first home Decorating as a duo Divvying up the chores Keeping the flame alive Fighting nicely Talking about kids Maintaining your single friends Hosting during the holidays Figuring out the future This book is filled with advice detailed to-do's checklists quizzes and worksheets that are sure to spark conversations fix problems and get your new life together on track and off to a good start Sleep Carlos Schenck, 2007 The average adult will spend more than 200 000 hours sleeping in a lifetime the equivalent of more than 8 000 days Yet research has only just begun to decode the mysteries behind what really happens when we sleep Now Dr Carlos Schenck one of the most prominent sleep doctors and researchers in the country takes us on an extraordinary journey into the mechanisms of sleep and what can go wrong Dr Schenck explains and then offers solutions for the most common sleep disorders insomnia restless legs syndrome sleep apnea and more But what sets this book apart is the fascinating new insights Schenck offers from the cutting edge science that he and other researchers have pioneered in identifying understanding and explaining the realm of parasomnias mysterious more extreme sleep disorders such as sleep terrors sleepwalking dream enactment sleep violence sleep related eating disorder sexsomnia

Talking, Drawing, Writing Martha Horn, Mary Giacobbe, 2023-10-10 In the early grades talking and drawing can provide children with a natural pathway to writing yet these components are often overlooked In *Talking Drawing Writing Lessons for Our Youngest Writers* authors Martha Horn and Mary Ellen Giacobbe invite readers to join them in classrooms where they listen watch and talk with children then use what they learn to create lessons designed to meet children where they are and lead them into the world of writing The authors make a case for a broader definition of writing advocating for formal storytelling sessions in which children tell about what they know and for focused sketching sessions so that budding writers learn how to observe more carefully The book's lessons are organized by topic and include oral storytelling drawing writing words assessment introducing booklets and moving writers forward Based on the authors work in urban kindergarten and first grade classes the essence and structure of many of the lessons lend themselves to adaptation through fifth grade The lessons follow a consistent format What's going on in the classroom What do children need to learn next Materials needed to teach the lesson Language used in each lesson Reasons behind why certain books are chosen and suggestions for additional children's books The authors show the thinking behind their teaching decisions and provide a way to look at and assess children's writing giving us much more than a book of lessons they present a vision of what beginning writing can look and sound like Perhaps most powerfully they give us examples of the language they use with children that reveal a genuine respect for and trust in children as learners
