threatening conditions medical social economic or environmental **Secular Beats Spiritual** Steve Bruce, 2017-10-20 The decline of the Christian churches in the West is undeniable but commentators differ in their understanding of what this represents For some it shows a decline in interest in religion as such for others religion has not declined it has only changed its shape Possible candidates for Christianity's replacement are the new religious movements of the late 1960s and what is variously called New Age alternative or contemporary spirituality Secular Beats Spiritual offers a detailed study of the religious and spiritual innovations of the last 50 years It assesses their popularity in the UK and concludes that the not decline just change view cannot be sustained Serious interest in spirituality has grown far less quickly than has the number of us who have no religious or spiritual interest The most popular and enduring movements have been the least religious ones and those that have survived have done so by becoming more this worldly and less patently religious or spiritual Yoga is popular but as a secular exercise programme Transcendental Meditation now markets its meditational technique as a purely secular therapy British Buddhists now offer the secular Mindfulness and the Findhorn Foundation Europe's oldest New Age centre is no longer the germ of a counter cultural communalism but sells its expertise to major corporations Steve Bruce also demonstrates that although eastern religious themes such as reincarnation and karma have become more popular as the power of the Christian churches to stigmatise them has declined such themes have also been significantly altered so that what superficially looks like the easternization of the West might better be described as the westernization of the easternization of the West **The Seven-Day Soul** Susannah Healy, 2019-02-07 An essential book about the transformative

There's More to Life Than Surface Kate Turkington,1998 We must always acknowledge the interconnectedness of all things These words of the Dalai Lama have an undeniable resonance in the experiences of the people we encounter in this book What for instance connects a Native American Shaman in Arizona with an Aboriginal elder in Australia s Northern Territory What links them to a blind African prophet and artist Or a Jewish woman who gave up a home and family in California to build a retreat in the sacred valley of the Incas And what does meeting a golden lioness on the banks of the Amazon river have to do with a murdered lioness in Southern Africa How did the Dalai Lama s words impact on a well educated cynic and non believer who unexpectedly found herself undergoing a mindshift on a magical journey to the ancient sacred places of Peru Kate Thurkington was that cynic and non believer and she shares the the experience of the spiritual journey that she had unknowingly been travelling all her life experiences that have changed her life
