Inmediatez, Capitalismo y Vidas Aceleradas Borja Muntadas Figueras, 2016-10-18 Aquellos que no disponen de tiempo libre y necesitan del trabajo para su supervivencia no tienen futuro viven un presente que se repite instante tras instante y queda fuera de la acción Es lo mismo que vuelve una y otra vez porque fuera de la acción no hay espacio para la novedad El instante se repite pero siempre es el mismo El hombre condenado al trabajo estar siempre separado de todo lo que puede y de todo lo posible Qué es el tiempo El tiempo como dispositivo es un mecanismo político y social que pone al hombre de forma automática a disposición de la Realidad capitalismo a través de un proceso de socialización en el que este es interiorizado como autoacción hasta llegar a formar parte de su ser y así sincronizar su vida con una Realidad construida y diseñada políticamente Después de la disolución del sujeto después de la muerte del hombre no ha llegado el superhombre que anunciaba Nietzsche una liberación afirmativa de la vida sino la dictadura del objeto **Estudios sociales sobre el**

consumo Alonso, Luis Enrique, Fernández Rodríguez, Carlos J., Ibáñez Rojo, Rafael, 2020-10-30 En las sociedades desarrolladas las prácticas de consumo ocupan el centro de los procesos de producción y reproducción de las relaciones sociales y sin embargo y de forma paradójica el consumo ha tenido un lugar relativamente periférico en las líneas de investigación clásicas de la sociología al quedar limitado como variable dependiente de otras dinámicas sociales Con esta publicación colectiva se trata de contribuir a reflexionar sobre las prácticas sociales de consumo en su complejidad y a dar visibilidad al fenómeno de la sociedad de consumo como hecho social total presentando un libro monográfico en el que se ha perseguido enfocar el consumo fuera de cualquier a priori reduccionista apostando con ello por trabajos de investigación con enfoques teóricos objetivos y metodologías diversas pero que coinciden en su mirada netamente sociológica de las prácticas adquisitivas La sociología del consumo nos capacita para realizar una mirada global y estructural sobre los cambios sociales fundamentales que han tenido lugar en las sociedades contemporáneas La presente obra ofrece de esta manera una completa revisión panorámica de los estudios sociales del consumo que se producen en España junto a algunas contribuciones internacionales y en las que se analiza el proceso de consumo en su genuina dimensión de construcción social

whereby workers restart troubled bankrupt or shuttered companies as cooperatives or other forms of democratic workplace. The book argues that WREs are prefigurative of new forms of work based on equality and sustainability. Framed by the concepts of autogestión in the labour commons and prefigurative ethico-political practices, the book argues that WREs contribute to the construction of more directly democratic community economies. Drawing on a range of contemporary case studies from numerous countries in the Global South and North as well as new theories of workers self-management, the book contributes a critical development political economic and class struggle Marxist perspective to the re-emergent labour question within anti-systemic social movements while theorizing the transformative nature of WREs for workers work organizations and communities. Bringing a class analysis back into current discourses and debates concerning democracy at work and alternatives to global capital, this book will be of interest to researchers across the fields of development studies, labour studies, political economy, sociology of development, sociology of work and political science.

Languages of Economic Crises Sonya Marie Scott, 2021-09-26 This book offers a critical engagement with languages that describe, perpetuate, respond to and resist economic crises. Unlike many volumes on economic crises that offer economic explanations of their causes or policy suggestions for their resolution, this collection explores the different types of language used to deal with complex economic phenomena. The chapters in this volume examine a range of connections between language and crises, from the metaphors used historically to describe economic crises to the languages deployed within periods of crises and economic struggle to the popular responses thereto, including political manifestations and worker-organized enterprises. Also considered are the implications for democratic participation and gender relations and the lack of language to express economic experience amongst certain groups. With essays from seven contributors representing five different countries, this collection has global relevance in a time marked by economic volatility and upheaval and will serve as a valuable resource for those interested in the politics of language, economic discourse and the epistemological complexities of economic crises. The chapters in this book were originally published as a special issue of the *Journal of Cultural Economy*.

Workers' Self-Management in Argentina Marcelo Vieta, 2020-01-07 In *Workers Self-Management in Argentina*, Marcelo Vieta homes in on the emergence and consolidation of Argentina's *empresas recuperadas por sus trabajadores* (ERTs), worker-recuperated enterprises, a workers' occupy movement that surged at the turn of the millennium in the thick of the country's neo-liberal crisis. Since then, around 400 companies have been taken over and converted to cooperatives by almost 16,000 workers. Grounded in class struggle Marxism and a critical sociology of work, the book situates the ERT movement in Argentina's long tradition of working class activism and the broader history of workers' responses to capitalist crisis. Beginning with the voices of the movement's protagonists, Vieta ultimately develops a compelling social theory of autogestión, a politically prefigurative and ethically infused notion of workers self-management that unleashes radical social change for work organisations surrounding communities and beyond. *Workers Self-Management in Argentina* received an Honorable Mention from the 2022
