## **Taming The Megalopolis A Design For Urban Growth:**

*Taming the Megalopolis* Lauchlin Currie, 2016-08-01 *Taming the Megalopolis A Design for Urban Growth* is a stimulating and provocative text that identifies the imminent problems of human settlement in large emerging cities in developing countries with mixed economies and their possible solution. The book is a written expression of an expert's view on the problem of human settlement that aims to raise discussions from concerned policymakers on the identification of the problems and inciting proposals for solutions to the growing problem of human settlement in large emerging cities. The text is divided in two parts: Urban Problems and Solutions. The first part provides the basic definition and aspects of urbanization and the identification of problems of human settlement in urbanized areas. Part II introduces possible measures to solve the problems of urbanization such as changing the design of metropolitan areas, maintaining ownership in public corporations, capturing rise in land values and securing relatively full employment for urban workers. Economists, sociologists, urban planners and policymakers, engineers and designers, and people affected by the problems of urbanization will find this book invaluable.

*Sorting Out the Mixed Economy* Amy C. Offner, 2021-06-08 The untold story of how U.S. development efforts in postwar Latin America helped lead to the dismantling of the U.S. welfare state. In this groundbreaking book, Amy Offner brings readers to Colombia and back, showing the entanglement of American societies and the contradictory promises of midcentury statebuilding. The untold story of how the road from the New Deal to the Great Society ran through Latin America. *Sorting Out the Mixed Economy* also offers a surprising new account of the origins of neoliberalism.

*Strengthening Urban Management* Thomas L. Blair, 2013-03-08 Managing cities and providing housing, essential infrastructure and public services in an era of great pressures on municipal resources are challenging domestic issues in all parts of the world. Increasingly, city administrators and local government authorities in developing countries and western industrial nations are seeking to share experiences and exchange information in a search for solutions. This highly informative volume attempts to meet this critical need and to aid development cooperation among municipalities. *Strengthening Urban Management* presents the practical problems and approaches to the provision of housing, transportation and the mobilization of the requisite finance and manpower for local government in contrasting urban situations. It draws upon selected papers contributed to international meetings and world congresses sponsored by the International Union of Local Authorities. The Hague, Netherlands. Subject areas are illustrated in city examples given by mayors, administrators and planners from Lusaka, Harare, Nairobi, Osaka, Jakarta, Bandung, Vienna, Stockholm, Caracas and Rio de Janeiro. Theme introductions and contributions from leading international and national agencies highlight the important role and grave difficulties facing local government in urban management and planning.

**The Life and Political Economy of Lauchlin Currie** Roger James Sandilands, 1990 Lauchlin Currie's contribution to monetary theory and policies during the New Deal and in the postwar period when he became one of the most important economic advisors to several presidents of Colombia is the subject of this biography. Currie

was a major economic advisor to president Franklin D Roosevelt and as his administrative assistant from 1939 until the president's death in 1945 helped shape Roosevelt's thinking on economic issues. His involvement in U.S. policymaking in China where he directed Lend Lease operations from 1941-1943 was one of the factors leading to his confrontation with Senator Joseph McCarthy. In 1949 he directed the first World Bank mission to Colombia. Roger Sandilands had access to Currie's own papers and to previously unpublished material. In this biography he provides the reader with a critical evaluation of Currie's contribution to the literature on the theory and practice of economic development in general together with an analysis of how his concepts were shaped during the New Deal and in post World War II Colombia. Routledge Library Editions: Urban Planning Various, 2021-06-23. The volumes in this set originally published between 1970 and 1998 draw together research by leading academics in the area of urban planning and provide a rigorous examination of related key issues. The volumes examine teaching urban markets, planning transport, planning poverty, politics, forecasting techniques and an examination of the inner city in Europe and the US whilst also exploring the general principles and practices of planning. This set will be of particular interest to students of sociology, geography, planning and urbanization respectively. Housing and Planning References United States. Department of Housing and Urban Development. Library, 1977. *The New Palgrave Dictionary of Economics*, 2016-05-18. The award-winning *The New Palgrave Dictionary of Economics* 2nd edition is now available as a dynamic online resource. Consisting of over 1,900 articles written by leading figures in the field including Nobel prize winners, this is the definitive scholarly reference work for a new generation of economists. Regularly updated. This product is a subscription-based product. **Metropolis 2000** Thomas Angotti, 2018-05-30. Originally published in 1993, *Metropolis 2000* analyses 20th-century metropolitan development and planning under the economic and environmental conditions of the world's regions. Attempts to achieve the physical integration of the city without economic equality have failed. The book advances the principle of integrated diversity which emphasises linking neighbourhood planning with a broader vision of the planned metropolis and applies a political economy approach and argues for a new form of pro-urban thinking. The book argues that the basis for a humane approach to city planning is viewing the metropolis as a beneficial accompaniment to national independence, equality and social progress. **Research in the History of Economic Thought and Methodology** Luca Fiorito, Scott Scheall, Carlos Eduardo Suprinyak, 2023-10-02. *Research in the History of Economic Thought and Methodology* Volume 41B features a selection of papers presented at the First History of Economics Diversity Caucus Conference. **Mobilizing Human Resources in the Arab World (RLE Economy of Middle East)** R. Paul Shaw, 2015-05-15. R. Paul Shaw has travelled widely in the Arab world obtaining data and gathering impressions first hand from national and local planners. In this book he identifies population and manpower problems that are likely to become more serious and more difficult to solve if they are neglected at this early stage of Arab development. He focuses on five broad areas which are directly or indirectly related to mobilizing human resources and his book will be of special interest to all

those who are concerned with such issues as population migration employment inequality the emancipation of women construction and agriculture Dr Shaw proposes policy directives which are sensitive to the problems as they are seen by the Arab governments themselves and sets out practical guidelines which can be used by Arab planners and policy makers An important feature of the book with respect to current literature on Arab development is that it moves away from a preoccupation with growth related investments to a concentration on development related population manpower and employment issues By bringing together such comprehensive empirical and bibliographic information it will also be invaluable as a reference source for some twenty Arab countries First published in 1983

**Selected Reading in Quantitative Urban Analysis** Samuel J. Bernstein, W. Giles Mellon, 2013-10-22 Selected Readings in Quantitative Urban Analysis focuses on the use of quantitative approaches in analyzing urban problems The areas discussed are overall urban models urban models dealing with the basic economic factors of urban life workers and jobs housing and transportation urban models dealing with the provision of basic services education health care fire police water and sanitation urban models dealing with the provision of the luxuries of urban life theater ballet symphony urban models dealing with how the decisions to provide these factors are made policy formulation and the resolution of conflicting priorities This book is comprised of 11 chapters and begins with an outline of the major areas of urban life analyzed in a quantitative manner Urban modeling is then introduced and problems and pitfalls in urban model building are considered The next section looks at the economic base of urban life with emphasis on labor markets and labor force urban housing markets and housing policy and policy and policy models in transportation Subsequent chapters explore essential urban services including public education community health services fire protection sanitation and emergency medical services The remaining sections discuss the amenities of urban life and urban politics and policy This monograph should be useful to urban administrators and planners as well as students interested in urban problems

**Latin America and Policy Diffusion** Osmany Porto de Oliveira, Cecilia Osorio Gonnet, Sergio Montero, Cristiane Kerches da Silva Leite, 2019-12-09 Latin American countries have for a long time been importers of public policies and institutions from the Global North The colonial legacy and resulting patterns of international relations during the 20th century favoured a course of adoption and hybridization of political institutions In recent decades a new conjuncture has emerged in which Latin American policies have started to diffuse South South and even South North Led by Brazil with Participatory Budgeting and the Bolsa Familia program other countries in the region soon followed The Bus Rapid Transit BRT system and bicycle policies in Curitiba and Bogot have also reached wide international recognition and circulation And yet despite Latin America's new role as a policy exporter little is known about its dynamics causes and effects Why have Latin American policies been diffused inside and outside the region Which actors are involved What driving forces affect these processes This innovative collection offers a new perspective on the policy diffusion phenomena Drawing on different examples from Latin American experiences in urban local policies and national social policies experts present a

new framework to study this phenomenon centered on the mobilization of ideas interests and discourses for policy diffusion Latin America and Policy Diffusion will be of great interest to researchers educators advanced students and practitioners working in the fields of political science public policy international relations and Latin American Studies *Seeking Social Justice Through Globalization* Gavin Kitching,2010-11-01 Unusual coming from a leftist perspective this book argues that those who care for social justice should seek more globalization and not try to prevent its development or roll it back

*Environmental Education* David Hughes-Evans,2014-05-09 Environmental Education Key Issues of the Future contains the proceedings of a conference held at the College of Technology in Hampshire England The conference provided a forum for discussing the role of education in environmental training analyzing the problems of environmental education and proposing innovations that might well affect the future Comprised of eight chapters this book first looks at the methods for use in the professional training of teachers with reference to the research and development studies that have been carried out on these training methods The place of environmental studies in the school and the factors that have led to an increased interest in these studies are considered The chief obstacles to the progress of these studies in the secondary schools are outlined The reader is then introduced to the role of environmental science in the formal education service problems of subject integration in environmental science and the UNESCO UNEP environmental program and its implications for environmental education in Britain International cooperation in environmental education is also discussed along with part time and recurrent education in the environmental field This monograph will be of value to engineers planners biologists lawyers geologists and others with an active interest in environmental problems Open Economics Richard Arena,Sheila Dow,Matthias Klaes,2009-06-02 This book offers an up to date assessment of economics in relation to other disciplines combining the work of leading international scholars and rising young stars and presenting an historical introduction to the disciplinary context of economics
