Lewis, 2014-12-05 As East Asia regains its historical position as a world centre information on the history of regional relations becomes ever more critical Astonishingly Northeast Asia enjoyed five centuries of international peace from 1400 to 1894 broken only by one major international war the invasion of Korea in the 1590s by Japan's ruler Hideyoshi This war involved Koreans Japanese Chinese Southeast Asians and

Europeans it saw the largest overseas landing in world history up to that time and devastated Korea It also highlighted the nature of the strategic balance in the region presenting China's Ming dynasty with a serious threat that perhaps foreshadowed the dynasty's subsequent overthrow by the Manchus played a major part in the establishment of the Tokugawa regime with its policy of peace and controlled access to seventeenth and eighteenth century Japan and demonstrated the importance for regional stability of the subtle relationship of Korea to both China and Japan This book presents a comprehensive analysis of the war and its aftermath in all its aspects military political social economic and cultural As such it deepens understanding of East Asian international relations and provides important insights into the strategic concerns that continue to operate in the region at present

Violence and Belonging Are J. Knudsen, 2009 Honor and violence are major themes in the anthropology of the Middle East yet apart from political violence most studies approach violence from the perspective of honour By contrast this important study examines the meanings of lethal conflict in a little studied tribal society in Pakistan's unruly North West Frontier Province NWFP and offers a new perspective on its causes Based on an in depth study of local conflicts the book challenges stereotyped images of a region and people miscast as extremist and militant Being grounded in local ethnography enables the book to shed light on the complexities of violence not only at the structural or systemic level but also as experienced by the men involved in lethal conflict In this way the book provides a subjective and experiential approach to violence that is applicable beyond the field locality and relevant for advancing the study of violence in the Middle East and South Asia The book is the first ethnographic study of this region since renowned anthropologist Fredrik Barth's pioneering study in 1954

Early Modern East Asia Kenneth M. Swope, Tonio Andrade, 2017-11-14 This book presents a great deal of new primary research on a wide range of aspects of early modern East Asia Focusing primarily on maritime connections the book explores the importance of international trade networks the implications of technological dissemination and the often unforeseen consequences of missionary efforts It demonstrates the benefits of a global history approach outlining the complex interactions between Western traders and Asian states and entrepreneurs Overall the book presents much interesting new material on this complicated and understudied period

Other Landscapes Deborah Sutton, 2009 Deborah Sutton recounts the failed British attempt to settle transform and govern the cooler uplands of South India It is a fascinating story bringing together strands from agrarian environmental administrative and cultural history
