Tanguy Karin von Maur, Yves Tanguy, Susan Davidson, 2001 Ur Surrealist Yves Tanguy belonged to the inner circle of the 1920s Parisian avant garde alongside such figures as Salvador Dalí Max Ernst and Alberto Giacometti making essential contributions to Surrealist manifestoes magazines and exhibitions Tanguy's artistic obsession was the world of imagination of dreams and reveries and his cryptically codified imagery continues to perplex audiences today His paintings seem to exist in a hazy oddly beautiful limbo dimension beyond time and space a world at once vertiginous and calm disturbing and breathtaking The central focus of Yves Tanguy and Surrealism is the Surrealist mode to which Tanguy dedicated himself like no other painter of his time cementing the movement's place in the history of visual art On the basis of previously unpublished documents and works authors discuss Tanguy's otherworldly oeuvre in all its aspects from his development as an artist to the reception of his work in the United States With stunning reproductions in full color as well as black and white

Scapeland Gillian B. Pierce, 2012-01-01

Scapeland Writing the Landscape from Diderot's Salons to the Postmodern Museum is a comparative interdisciplinary study tracing theories of the sublime and a history of spectatorship from Diderot's eighteenth century French Salons through art criticism by Baudelaire and Breton to Jean-François Lyotard's postmodern exhibition Les Immatériaux In the Salons an exploration of the painted landscape becomes an encounter with both the limits of representation and the infinite possibilities of fiction Baudelaire and Breton explore similar limits in their work set against the backdrop of the modern city For them as for Diderot the attempt to render visual objects in narrative language leads to the development of new literary forms and concerns Lyotard's concept of the postmodern museum frames the sublime encounter once again in terms that expressly evoke Diderot's verbal rendering of painted spaces as a personal promenade According to Lyotard Diderot ouvre par crit les surfaces des tableaux comme les portes d'une exposition il abolit l'opposition de la nature et de la culture de la réalité de l'image du volume et de la surface Reading the literary production of these four writers alongside their art criticism Scapeland considers narrative responses to art as imaginative assertions of human presence against the impersonal world of objects

The Avant-Garde and the Margin Sanja Bahun-Radunovic,V.G. Julie Rajan,2009-03-26 The collection of essays *The Avant garde and the Margin* New Territories of the Modernist Avant garde refigures the critical and historical picture of the modernist avant garde by introducing a variety of less commonly discussed geo artistic sites and dynamics The contributors explore the multifaceted relations established between the avant garde centers France Germany England and others and their counterparts in the cultural periphery Greece India Japan Poland Quebec Romania and the former Yugoslavia as well as the unique artistic and literary dialogues which these encounters engendered The primary concern of the anthology is the set of relations established between the center and the margin the redefinition of which was pivotal for the formulation of the modernist avant garde aesthetic project itself While enriching the kaleidoscopic picture of modernism the essays in this collection also offer new methodological approaches to this polychrome cultural image In this way the collection avoids the pitfalls of both the traditional diffusionist Eurocentric model of the world and the more recent over relativization of the positions of the margin and the center In their stead the anthology proposes a hermeneutics of encounter that is simultaneously spatial and historical aware of its limits but convinced of its own necessity *Utopia* David Ayers,Benedikt Hjartarson,Tomi Huttunen,Harri Veivo,2015-12-14 Utopian hope and dystopian despair are characteristic features of modernism and the avant garde Readings of the avant garde have frequently sought to identify utopian moments coded in its works and activities as optimistic signs of a possible future social life or as the attempt to preserve hope against the closure of an emergent dystopian present The fourth volume of the EAM series *European Avant Garde and Modernism Studies* casts light on the history theory and actuality of the utopian and dystopian strands which run through European modernism and the avant garde from the late 19th to the 21st century The book s varied and carefully selected contributions written by experts from around 20 countries seek to answer such questions as how have modernism and the avant garde responded to historical circumstance in mapping the form of possible futures for humanity how have avant garde and modernist works presented ideals of living as alternatives to the present how have avant gardists acted with or against the state to remodel human life or to resist the instrumental reduction of life by administration and industrialisation **Surrealist Art** Hirshhorn Museum and Sculpture Garden,Valerie J. Fletcher,1986 **Anarchist, Artist, Sufi** Mark Sedgwick,2021-04-08 This book follows the life of Ivan Agu li the artist anarchist and esotericist notable as one of the earliest Western intellectuals to convert to Islam and to explore Sufism This book explores different aspects of his life and activities revealing each facet of Agu li s complex personality in its own right It then shows how esotericism art and anarchism finally found their fulfillment in Sufi Islam The authors analyze how Agu li s life and conversion show that Islam occupied a more central place in modern European intellectual history than is generally realized His life reflects several major modern intellectual political and cultural trends This book is an important contribution to understanding how he came to Islam the values and influences that informed his life and ultimately the role he played in the modern Western reception of Islam Transatlantic Encounters

Michele Greet, 2018-01-01 Paris was the artistic capital of the world in the 1920s and 30s providing a home and community for the French and international avant garde Latin American artists contributed to and reinterpreted nearly every major modernist movement that took place in the creative center of Paris between World War I and World War II including Cubism Diego Rivera Surrealism Antonio Berni and Roberto Matta and Constructivism Joaquin Torres Garcia Yet their participation in the Paris art scene has remained largely overlooked until now This book examines their collective role surveying the work of both household names and an extraordinary array of lesser known artists Michele Greet illuminates the significant ways in which Latin American expatriates helped establish modernism and conversely how a Parisian environment influenced the development of Latin American artistic identity *Surrealism* Nathalia Brodskaya, 2012-05-08 D passant son admiration Gerry Souter auteur du remarquable Frida Kahlo n h site pas ramener Diego Rivera une dimension humaine en constatant ses choix politiques ses amours et qu au fond de lui bouillonnait le Mexique langue de ses pens es sang de ses veines azur du ciel au dessus de sa tombe **Manuscripts, Market and the Transition to Print in Late Medieval Brittany** Diane E. Booton, 2016-12-05 Manuscripts Market and the Transition to Print in Late Medieval Brittany surveys the production and marketing of non monastic manuscripts and printed books over 150 years in late medieval Brittany from the accession of the Montfort family to the ducal crown in 1364 to the duchy s formal assimilation by France in 1532 Brittany as elsewhere experienced the shift of manuscript production from monasteries to lay scriptoria and from rural settings to urban centers as the motivation for copying the word in ink on parchment evolved from divine meditation to personal profit Through her analysis of the physical aspects of Breton manuscripts and books parchment and paper textual layouts scripts and typography illumination and illustration Diane Booton exposes previously unexplored connections between the tangible cultural artifacts and the society that produced acquired and valued them Innovatively Booton s discussion incorporates archival research into the prices wages and commissions associated with the manufacture of the works under discussion to shed new light on their economic and personal value *Catalog of the Library of the Museum of Modern Art: SK* Museum of Modern Art (New York, N.Y.). Library, 1976 **Index biblio-iconographique** Paul Dreyfus-Bing, 1895 **Max Ernst and Alchemy** M. E. Warlick, 2013-05-01 Surrealist artist Max Ernst defined collage as the alchemy of the visual image Students of his work have often dismissed this comment as simply a metaphor for the transformative power of using found images in a new context Taking a wholly different perspective on Ernst and alchemy however M E Warlick persuasively demonstrates that the artist had a profound and abiding interest in alchemical philosophy and often used alchemical symbolism in works created throughout his career A revival of interest in alchemy swept the artistic psychoanalytic historical and scientific circles of the late nineteenth and early twentieth centuries and Warlick sets Ernst s work squarely within this movement Looking at both his art many of the works she discusses are reproduced in the book and his writings she reveals how thoroughly alchemical philosophy and symbolism pervade his early Dadaist experiments his foundational work in surrealism and his many collages

and paintings of women and landscapes whose images exemplify the alchemical fusing of opposites This pioneering research adds an essential key to understanding the multilayered complexity of Ernst s works as it affirms his standing as one of Germany s most significant artists of the twentieth century
